6. We have to save water resources for ourselves and future **generations**.
7. The great **pleasure** in life is doing what can make other people happy.
8. My grandfather used to drink 100% **pure** orange juice every morning.

B) Reading Comprehension (16 Marks)

Read the following passage carefully then answer the questions below:

What do the astronauts on the Space Shuttle do with their free time? Sure, technically they're on the job 24/7 a week, but when they have free time, they like to do the same things they do on earth. For example, astronauts spend about two hours every day exercising. This is really important to make sure that their body keeps working. Remember, on earth, when we are awake, we move against the force of gravity, and our muscles and bones have to support our bodies. In space, there is no gravity, so the body doesn't do any of this supporting work. This means that the body can become **weak**.

Astronauts use treadmills to exercise. A treadmill is a machine for running in one place. A wide belt moves under the astronaut's feet, so it feels like he is moving forward while running, though he is actually staying in place. The only real difference between this treadmill in space and treadmills you may have seen on earth is that the astronaut has to be strapped onto the treadmill in space so that he doesn't float away.

As far as the rest of their free time, the astronauts bring some of their personal belongings into space. They can read books or listen to music. At the International Space Station, they can also watch movies on DVD, and once a week **they** can talk to their families. Many of the astronauts enjoy taking photographs from the Space Shuttle's windows.

a. Choose the correct answer from a, b, c and d: (6 x 2= 12 Ms)

9. The best title for this passage could be:

- a) The Force of Gravity
- b) International Space Station
- c) Space Shuttle
- d) **Free Time in Space**

10. The underlined word **weak** in the 1st paragraph is the opposite of :
- real
 - awake
 - free
 - strong**
11. The underlined pronoun **they** in the 3rd paragraph refers to:
- movies
 - books
 - the astronauts**
 - personal belongings
12. The main difference between treadmill in space and on earth is :
- treadmill in space is faster
 - treadmill on earth has a belt
 - treadmill in space has straps**
 - treadmill on earth moves forward
13. The astronauts are at their workplace 24/7 a week because:
- they cannot go home**
 - they have to work day and night
 - they like to stay with their friends
 - they don't have enough time for exercising
14. The purpose of the writer in writing the passage is to:
- explain how to use treadmills
 - compare between different space stations
 - inform us about how free time in space is spent**
 - persuade people to travel to space

b. Answer the following questions: (2 x 2= 4 Ms)

15. How do astronauts keep their bodies working?

They spend about two hours every day exercising.

16. Why can't astronauts practise outdoor games?

Because there is no gravity in space./ They cannot get out of the space shuttle.

"Any reasonable answer related to the passage is accepted"

II. Writing (30 Marks)

A. Grammar (10 Marks)

a. Choose the correct answers between brackets: (4X 1 = 4 Ms)
