II- Reading Comprehension

Read the following passage then answer the questions below:

In rich countries, many people eat too much from the different kinds of food and become overweight. This is because, when people eat more than what they need, the extra food is stored as fats instead of being burned up as energy. Overweight people often try to be slim, but many of them do so in a wrong way. **They** buy specially prepared slimming foods, which are usually expensive and rarely give the required results.

The right way to be slim is to eat less and to make exercise. When a person eats less, the body is forced to burn up some of the fat stored under the skin. It is however, dangerous, to eat too little food. To keep slim and in good health, you should eat less starchy foods such as bread, rice macaroni and potatoes, and less sugary foods like cake and chocolates. Fish, eggs, milk, green vegetables and fresh fruit will make you slim and healthy, because they contain the vitamins and minerals, the body needs, in addition to the fat and proteins. This is what we call a balanced diet.
