7. He always makes the same mistake..... **regardless**....of how often I correct him.
8. The audience liked his performance as he was acting ... **marvellously**

B) Reading Comprehension

Read the following passage carefully then answer the questions below:

It is bad to have food stuck between your teeth for long periods of time. This is because food **attracts** germs which produce acid, and acid hurts your teeth and gums. Flossing helps to remove the food that gets stuck between your teeth. It has been widely accepted that the use of floss has a favourable effect on plaque removal and disease prevention more than regular brushing.

The American Dental Association which provided many researches on dental health issues, reports that up to 80% of plaque can be removed with flossing. This fact explains why flossing helps to keep your mouth healthy, but some doctors say that **it** can be also good for your heart. It may seem strange that something you do for your teeth can have any effect on your heart.

One idea is that the germs that hurt your teeth can leave the mouth and travel into your blood. Germs that get into the blood can attack your heart. Another idea is based on the fact that when there are too many germs in your mouth, the body tries to fight against these germs. For some reason, the way the body fights these mouth germs may end up weakening the heart over time.

Some doctors think that people who have bad flossing habits also have heart problems, and people who have good flossing habits have healthy hearts. The theory that flossing your teeth helps to keep your heart healthy might not be true. But every doctor agrees that flossing is a great way to keep your teeth healthy.

b) Choose the best answers from a, b, c and d: (6x2)=12 Marks.

9. The suitable **title** for this passage is:

- a) Teeth Problems
- b) Fighting Teeth Germs
- c) How to Brush Your Teeth

- d) force

11. The underlined word "**it**" in paragraph (2) refers to:

- a) fact
- b) plaque
- c) mouth
- d) **flossing**

12. One of the major benefits of flossing is:

- a) weakening your heart over time.
- b) helping germs to reach your blood
- c) preventing food from entering your body
- d) **removing the food that is stuck between teeth.**

13. The health of your mouth can be badly affected by:

- a) preventing diseases.
- b) fighting mouth germs.
- c) **acid that hurt your gum.**
- d) removing the remains of food.
