SAVING OUR FUTURE

Animal detective

A What do you do?

I'm a scientist in a big laboratory in Oregon, USA. But I don't solve crimes against people. I solve wildlife crimes!

B ~~What are wildlife crimes?~~

It's the illegal buying and selling of wild animals. All over the world, criminals steal rare animals and sell them. Or they kill them and sell their meat or skins. They make millions of dollars.

C ~~How do you do your job?~~

My job is to show that the criminals took the animals. First the police find the criminals and collect samples for us. Then, we test the samples and identify the animals.

D ~~What animals do the criminals take most often?~~

We see a lot of elephants, rhinos, fish, birds and snakes, but any rare animal is important. A lot of the animals are for food or medicine.

E ~~Is your job dangerous?~~

Yes, it is. We often have to go out with the police and the criminals can be dangerous.

F ~~Do you feel happy about~~

Well, yes I am. I believe that we are going to beat the criminals with the help of the international police.

G ~~What do you want to say~~

Be warned. We're going to catch you.
