B- Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions below:

Chess is called the game of kings. It is a two-player board game. One player uses the white pieces. The other uses the black pieces. Each piece moves in a special way. One piece is called the king. Each player has his own king. The players take turns moving their pieces. If a player lands on a piece, he or she takes it. The game ends when a player loses his or her king. There are a few more rules, but **those** are the basics.

Some people think that chess is more than a game. They think it makes the mind stronger. Good chess players use their brains. They think about what will happen next. These skills are useful in life and in chess. Chess is a kind of work out for the mind.

There is a type of chess that is called 'Blitz Chess'. In blitz chess, each player gets ten minutes to use for the whole game. Your clock runs during your turn. You hit the time clock after your move. This stops your clock. It also starts the other player's clock. If you run out of time, you lose. Games of blitz chess are fast-paced.

Chess is not just for people. Computers have been playing chess since the 1970s. At first, they made mistakes. As time went on, they grew stronger. In 1997, a computer called Deep Blue could **beat** the best player in the world. It was the first computer chess-playing system to win a chess game. By 2006, a cell phone could beat the best players in the world.

a) Choose the correct answer from a, b, c and d: (6 x 2 = 12 Marks)
