Read the following passage carefully, then answer the questions that follow:

The Leaning Tower of Pisa is located in the city of Pisa, Italy. It stands in a beautiful area called the Square of Miracles. It has 8 floors and is 56 meters tall. The tower is made of white and grey marble, which makes it look elegant.

The tower was not supposed to lean at first. It was built to be a straight bell tower. However, when workers reached the third floor, the soft ground made of clay and sand began to sink. This caused the tower to tilt to one side. Even though it leaned, the builders kept going, and the leaning shape became its most amazing feature.

Today, the Leaning Tower of Pisa is one of the most popular tourist spots in the world. Millions of people visit it every year to **ascend** its 294 steps and see the view from the top. Visitors also love taking funny photos that make it look like **they** are holding the tower. Even though it is not officially one of the Seven World Wonders, people often call it a "wonder" because of its unique features that turned a mistake into a famous landmark!
