Reading

Reading Comprehension (1)

Read the following passage and then answer the questions below:

From far out in space, Earth looks like a blue ball. Since water covers three-fourths of the Earth's surface, blue is the colour we see most. The continents look brown, like small islands floating in the huge, blue sea. White clouds **wrap** around the Earth like a light blanket. The Earth is shaped like a sphere, or a ball. **It** would take years to walk around the whole planet. A spaceship can fly around the widest part of the sphere in only 90 minutes.

Even though spaceships have travelled to the Moon, people cannot visit the Moon without special suits. The Moon has no air or water. Plants and animals can't live there either. Astronauts first landed on the Moon in 1969. After that, there were six more trips to the Moon. They brought back Moon rocks, which scientists are still studying. The Sun is the closest star to Earth. A star is a hot ball of burning gas.

The Sun looks very big. But the Sun is just a medium-sized star. The burning gases from the Sun are so hot that they **warm** the Earth. Even though the Sun is always glowing, the night here on Earth is dark. That's because the Earth turns around, every 24 hours. During the day, the Earth faces the Sun. Then we see light. During the night, the Earth turns away from the Sun. Then it faces the darkness of space.

A)-**Choose the best completion from a, b, c and d :**

1- What is the best title of the text?

a) Our Planet Erath.

b) The Closest Star to Earth.

c) The Earth, The Moon and The Sun.

d) The First Visit to The Moon.

2- What is the meaning of the underlined word **(wrap)** in line 3?

a) cover b) float c) look d) shape

3- What does the pronoun (**it**) in line (4) refer to?

a) the space b) the star c) the Earth d) the sun

4- According to the text, what the purpose of writing the text?

a) to give information about the sun, the earth and the moon

b) to say there is no life on Earth

c) to say that life on Earth is dangerous.

5- What is the opposite of the underlined word warm?

a- cool b- heat c- evaporate d- boil

6- What is the closest star to Earth?……..

a- the moon b- the sun c- Venus d- Pluto

B)-Answer the following questions:

7-Why is blue the colour we see most when looking at Earth from outer space?

……

8- When did astronauts first land on the Moon?

……

Reading Comprehension (2)

Read the following passage carefully, then answer the questions below:

Every day there is less and less space on Earth for trash to be buried. Yet, every day we make more and more trash and waste that have negative effect on the natural environment. What can we do? We can recycle some of our trash. Recycling means that the trash will be made into something new and useful that can be used again and again.

Recycling helps the Earth in many ways. It saves space in trash dumps where trash is collected to be burnt. Half of everything that we put into dumps could be recycled instead of throwing it. In fact, most things which are made of paper, metal, aluminum, glass and plastic can be recycled. It also reduces pollution. Paper can be grouped up and made into new paper. Steel and aluminum cans can be melted down and made into new cans. The same is true about glass bottles. This can be done over and over again.

Recycling doesn't take as much energy as making these things the first time. So, by recycling we can use less of the Earth's fuel resources. It also helps save our natural resources such as wood and metals.

Plastic can be melted down, too. Then, it can be formed into park benches or furniture. Some people call plastic the wood of the future. Things made of plastic will last about 400 years even when they are outside in harsh weather. No wood can do that.

A) From a, b, c and d choose the right answer:

1) What is the main idea of paragraph (4)?

a) What recycling is. b) How to save the future.

c) Why plastic is important. d) How to recycle different things.

(ابتدائي - متوسط - ثانوي)

2)What is the meaning of the underlined word "reduces" in paragraph (2)?

a) lowers b) helps c) uses d) improves

3) What does the underlined word "it" in paragraph (3) refer to?

a) fuel b) time c) energy d) recycling

4) Plastic is called the wood of the future because:

a) it's a natural material. b) it helps save money.

c) it is strong and beautiful. d) it can be used to make furniture.

5) According to the text, one of the following statements is NOT TRUE:

a) All trash and waste can be recycled.

b) Harsh weather doesn't affect plastic.

c) It's difficult to find space for trash.

d) Glass and metal can be recycled many times

6) The purpose of the writer is to tell us that:

a) All materials on earth are useful.

b)Planting trees helps in recycling.

c) Recycling is a good way to use trash.

d)Steel and aluminum can be recycled easily.

B) Answer the following questions:

7) What kind of materials can you find in your house that can be recycled?

.....

8) Why is recycling important to the environment?

.....

Model Answer

Reading Comprehension (1)

1- C

2- A

3- C

4- A

5- A

6- B

7- Because water covers three-fourths of the Earth’s surface.

8- Astronauts first landed on the Moon in 1969.

Reading Comprehension (2)

1- C

2- A

3- D

4- D

5- A

6- C

7- Most things which are made of paper, metal, aluminum, glass and plastic can be recycled.

8- It saves space in trash dumps where trash is collected to be burnt. It also reduces pollution.
