3	Module: (6) Time for science	Lesson: project- Round up	18-22 / -الاحد -الخميس /1/2026

Write a suggestion for a book.

These words may help you:

* What is the name of the book?
* What is the book about?
* Do you suggest reading the book?

Read and match:

A	B
1- A pilot is someone	a. who writes books.
2- A farmer is someone	b. who flies planes.
3- A doctor is someone	c. who grows plants.
4- An author is someone	d. who helps sick people.

Read the text then answer the questions below:

The oceans of the world are filled with thousands and thousands of different living things. Scientists believe there may be a million different species living in the oceans, some of which have yet to be discovered. And just like on land, there are many different plants and animals.

Many of the ocean plants float on the surface of the water or grow in **shallow** water. Plants in the ocean need sunlight to grow just like those on land. The deepest parts of the ocean may not have plant life because the energy from the Sun cannot reach deep into the ocean.

An ocean plant called seaweed gives off more oxygen than any other plant on Earth. Seaweed floats on the surface of the water and people use it for food, and making ropes, and baskets.

Coral is an animal of the ocean, many people believe it is a plant. Coral has beautiful colors. Coral feeds on small fish.
Oceans and seas have 20% of living things on Earth and have the largest living things ever.

1.What's the text mainly about?

a. the desert life

b. the green land life

c. the marine life

d. the birds' life

2.What does the underlined word "shallow" mean?

e. dangerous

f. not heavy

g. not deep

h. scary

3.Why don't the deepest parts have plants?

because the energy from the Sun cannot reach deep into the ocean.

4.What is a coral?

Coral is an animal of the ocean
