Summary

Read the question

Underline the 4 answers

Paraphrasing

Paragraph

VII- Summary Making(60 Marks)

Read the following passage, then do as required:

Many students find that preparing for an individual class for 60-90 minutes per day, five or six days per week, will leave them well prepared at exam time. For some students, it does not work. That is why practitioners would recommend that students should not cram at the last second. All-nighters simply don't work for most people, and students experience declining returns on their efforts when they attempt to study for four and five hours straight. They would also recommend that students should keep their ears open in class. Their teachers will sometimes tell them about the exam study strategies. They should be in class every day to receive such help. This is particularly true as tests and final exams approach. They insist that students review their class notes on a regular basis.

In a paragraph of FOUR sentences ONLY, summarize and paraphrase the previous passage in an answer to the following questions :

How can students be prepared for the exam ?

1- Students should not cram at the last second .

2- Students should keep their ears open in class .

3- Students should be in class everyday .

4- Students should review their class notes on a regular basis .

First of all, students should never cram at the last time . Also, they should pay attention in the class . Moreover, they should attend class everyday . Finally, they should always review their class notes .

Have a good day
