Reading comprehension / 1

Read the following passage carefully, then answer the questions below:

People often have to use a vehicle of some kind to travel great distances. Some people now use bicycles, motorbikes, or cars. A car has an engine called a combustion engine. That means it gets the power to move by burning gas or petrol as fuel. That car runs on tyres filled with air. Most people however probably travel by buses that also have combustion engines like cars. However, vehicles, like cars, with combustion engines burning fuels, give off gases that are dangerous for your health. They **pollute** the air and create a risk for us.

In most countries now, there are electric trains which use electricity and do not pollute the air. They go at great speeds on their rails. In some countries, **they** go almost as fast as some planes. Ships and boats have propellers to move them. A propeller causes a ship or aircraft to move, it consists of two or more blades that spin at high speed. The propellers turn very fast in the water and that pushes the ship. A rudder, like the tails of a fish, is used to guide it.

Some planes use propellers that turn in the air. However, most planes have jet engines. They push the plane with great force. If you go to an airport where the planes land you can see the jet engines on the wings of the plane, though on some planes they are near the tail.

I. Reading comprehension/2

grade 8/ period 2

Read the following passage, then answer the questions below:

Off the west coast of Scotland, there are many small island communities. Life in these communities is very different from life in big cities. People who live in cities often say that life in the islands is slow and boring. But the island people tell a different story.

Many families live by fishing or farming, and people usually have more than one job. Many families have rooms for tourists who come to visit the islands in summer. The tourists go walking and fishing and play sports. Sometimes **they** study Gaelic, the local language of those islanders. And they stay in a 'bed breakfast' with local family or in one of the small island hotels. In the long summer evenings, tourists and the islanders happily meet and talk together. They tell interesting stories of where they live and what they do.

The children on the islands go o small local schools. They have their classes in English and Gaelic. Sometimes there are only eight or ten children in one school. When they are twelve years old, they go to a secondary school in a bigger town on the island. When they finish that school, they **decide** whether to go to the university in a big city, or to stay and work on the island.

B) Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

Do you find yourself sleepy at school? What you do before you go to bed has a huge effect on how you feel the next day. If you spend time chatting to people on the social

media, or reading books on your e-reader, you are not alone. However, you ought to reduce your screen time at night. Although scientists are only beginning to understand the full effects, the main message **they** find out is that using devices like phones or tablets before bedtime is not good for your health.

All screens give out a large amount of blue light. It can change your sleep patterns. So you can wake up several times during the night and have difficulty getting up in the morning. **Lack** of sleeping well can be a dangerous problem for anyone specially teenagers because their brains are still developing. When you don't sleep well, it can be difficult to concentrate at school, which makes it harder to learn and get good grades. It can also affect your mood; so you feel sad and unhappy.

So, it's clear. You shouldn't use your phone or tablet before you go to sleep. You mustn't worry about your friends. Nothing on the social media is so important that it can't wait a few hours. Rediscover paper books and enjoy feeling tired rather than wondering why your best friend hasn't liked your photo. Don't use the alarm on your mobile. Buy yourself an old-fashioned alarm clock.

Reading comprehension / 1

Read the following passage carefully, then answer the questions below:

People often have to use a vehicle of some kind to travel great distances. Some people now use bicycles, motorbikes, or cars. A car has an engine called a combustion engine. That means it gets the power to move by burning gas or petrol as fuel. That car runs on tyres filled with air. Most people however probably travel by buses that also have combustion engines like cars. However, vehicles, like cars, with combustion engines burning fuels, give off gases that are dangerous for your health. They **pollute** the air and create a risk for us.

In most countries now, there are electric trains which use electricity and do not pollute the air. They go at great speeds on their rails. In some countries, **they** go almost as fast as some planes. Ships and boats have propellers to move them. A propeller causes a ship or aircraft to move, it consists of two or more blades that spin at high speed. The propellers turn very fast in the water and that pushes the ship. A rudder, like the tails of a fish, is used to guide it.

Some planes use propellers that turn in the air. However, most planes have jet engines. They push the plane with great force. If you go to an airport where the planes land you can see the jet engines on the wings of the plane, though on some planes they are near the tail.

I. Reading comprehension/2

Read the following passage, then answer the questions below:

Off the west coast of Scotland, there are many small island communities. Life in these communities is very different from life in big cities. People who live in cities often say that life in the islands is slow and boring. But the island people tell a different story.

Many families live by fishing or farming, and people usually have more than one job. Many families have rooms for tourists who come to visit the islands in summer. The tourists go walking and fishing and play sports. Sometimes **they** study Gaelic, the local language of those islanders. And they stay in a 'bed breakfast' with local family or in one of the small island hotels. In the long summer evenings, tourists and the islanders happily meet and talk together. They tell interesting stories of where they live and what they do.

The children on the islands go o small local schools. They have their classes in English and Gaelic. Sometimes there are only eight or ten children in one school. When they are twelve years old, they go to a secondary school in a bigger town on the island. When they finish that school, they **decide** whether to go to the university in a big city, or to stay and work on the island.

B) Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

Do you find yourself sleepy at school? What you do before you go to bed has a huge effect on how you feel the next day. If you spend time chatting to people on the social

media, or reading books on your e-reader, you are not alone. However, you ought to reduce your screen time at night. Although scientists are only beginning to understand the full effects, the main message **they** find out is that using devices like phones or tablets before bedtime is not good for your health.

All screens give out a large amount of blue light. It can change your sleep patterns. So you can wake up several times during the night and have difficulty getting up in the morning. **Lack** of sleeping well can be a dangerous problem for anyone specially teenagers because their brains are still developing. When you don't sleep well, it can be difficult to concentrate at school, which makes it harder to learn and get good grades. It can also affect your mood; so you feel sad and unhappy.

So, it's clear. You shouldn't use your phone or tablet before you go to sleep. You mustn't worry about your friends. Nothing on the social media is so important that it can't wait a few hours. Rediscover paper books and enjoy feeling tired rather than wondering why your best friend hasn't liked your photo. Don't use the alarm on your mobile. Buy yourself an old-fashioned alarm clock.
