Writing (1)

'E-sports and traditional sports are two popular types of competition enjoyed by people around the world'.

Plan and write a report of two paragraphs of not less than **(12 sentences)** about **E-sports** and **physical sports, explaining how they are similar and how they are different.**

NB: (Your writing should include a topic sentence, supporting details and a conclusion sentence for each paragraph.)

The plan

Introduction:

People around the world enjoy e-sports and physical sport.

Paragraph (1) similarities between e-sports and physical sports

Topic sentence:

They are similar in some points.

Supporting details:

* players need skill and practice
* need focus and teamwork
* have rules
* have fans

Concluding sentence:

Finally, players must work hard to achieve success.

Paragraph (2) differences between e-sports and physical sports.

Topic sentence:

However, there are many differences between them.

Supporting details:

* improve muscles
* improve thinking skills
* need space and equipment
* need computers or internet connection

Concluding sentence:

Although they are different, they are useful.

Conclusion:

Finally, we can enjoy playing physical sports as well as e-sports.

E-sports and physical sports

People around the world enjoy e-sports and physical sports. They are similar in some points. In both, players need skill and practice to improve. They also need focus and teamwork. Both types of sports have rules. Both e-sports and physical sports have coaches and fans. Finally, players must work hard to achieve success.

However, there are many differences between them. Physical sports make the body strong and improve muscles. They need space and equipment like balls, nets, or shoes. While e-sports use the brain and hands. E-sports improve thinking skills. Players need computers, consoles, or internet connection. Although they are different, they are useful. Finally, we can enjoy playing physical sports as well as e-sports.

Grade 9 - 2nd term 2025-2026

Writing (2)

‘ E-sports are popular types of competition enjoyed by people around the world’.
Plan and write a report of two paragraphs of not less than **(12 sentences)** about **the advantages and disadvantages of playing e-sports.**

(NB: (Your writing should include a topic sentences, supporting details and a conclusion for each paragraph)

The plan

Introduction:

People around the world enjoy playing e-sports.

Paragraph (1) the advantages of e-sports

Topic sentence:

Playing e-sports has many advantages.

Supporting details:

* improve thinking skills
* make quick decision
* teamwork and focus
* gain fame and money

Concluding sentence:

Finally, playing e-sports helps make new friends and enjoy time.

Paragraph (2) the disadvantages of e-sports.

Topic sentence:

However, playing e-sports has some disadvantages.

Supporting details:

* waste time
* cause some health problems
* forget about studying
* spend less time with family

Concluding sentence:

We should play e-sports wisely.

Conclusion:

Finally, it is important to balance between gaming and healthy activities.

Advantages and disadvantages of E-sports

People around the world enjoy playing e-sports. Playing e-sports has many advantages. They improve thinking skills. They help players to make quick decision. They also teach teamwork and focus. Players gain fame and money. Finally, playing e-sports helps make new friends and enjoy time.

However, playing e-sports has some disadvantages. Playing e-sports may waste time. It may cause some health problems. Players may lack sleep. They forget about studying. They spend less time with family. We should play e-sports wisely. Finally, it is important to balance between gaming and healthy activities.

Grade 9 - 2nd term 2025-2026

Writing (3)

'Around the world, smart cities are becoming popular because they help people live more comfortably, however, opinions differ. Some people are for smart cities, while others are against them.'

Plan and write a report of two paragraphs of not less than **(12 sentences) explaining both views** and **giving your own opinion.**

NB: (Your writing should include a topic sentence, supporting details and a conclusion for each paragraph)

The plan

Introduction:

There are two points of view about smart cities.

Paragraph (1) arguments for smart cities

Topic sentence:

Some people are for smart cities

Supporting details:

* easier and more comfortable
* smart traffic lights
* reduce pollution and save electricity
* use technology everywhere

Concluding sentence:

Finally, smart cities are the cities of the future.

Paragraph (2) arguments against smart cities.

Topic sentence:

However, some people are against smart cities.

Supporting details:

* worry about privacy
* hackers may steal important data
* technology is very expensive
* less jobs for workers

Concluding sentence:

Only rich people can access smart cities.

Conclusion:

In my opinion, smart cities are a good idea if they are managed carefully.

Arguments for and against smart cities

There are two points of view about smart cities. Some people are for smart cities. Life there is easier and more comfortable. Smart cities depend on modern technology. There are smart traffic lights and no traffic jams. Transportation is faster and more organized. Also, smart lights can save electricity. Finally, smart cities are the cities of the future.

However, other people are against smart cities. They worry about privacy. There are cameras everywhere. They think hackers may steal important data. Also, believe smart technology is very expensive. There will be less jobs for workers because of depending on technology. Only rich people can access smart cities. In my opinion, smart cities will be a good idea if they are managed carefully.

Grade 9 - 2nd term 2025-2026

Writing (4)

"Smart cities use advanced technology to make life more sustainable."
Plan and write a report of two paragraphs of not less than **(12 sentences) explaining how both the technology used in smart cities and individuals' personal actions can help create a more sustainable future.**
NB: (Your writing should include a topic sentence, supporting details and a conclusion for each pargraph)

The plan

Introduction:
Smart cities with advanced technology make a different future.
Paragraph (1) technology used in smart cities
Topic sentence:
Technology in smart cities makes life easier
Supporting details:
* makes life easier
* Solar panels
* smart traffic systems
* Robots can help
Concluding sentence:
All these technologies make cities cleaner and safer for people.
Paragraph (2) Personal actions people take.
Topic sentence:
Individuals' actions are also very important.
Supporting details:
* save water and electricity
* Using bicycles or walking
* Planting trees
* recycle things
Concluding sentence:
People can also recycle things to save the environment.
Conclusion:
Together with smart technology, these actions make a big difference.

Smart cities and the sustainable future

Smart cities with advanced technology make a different future. Technology in smart cities makes life easier. Smart traffic systems can reduce car traffic and save fuel. Solar panels provide clean energy. Robots can help recycle and manage waste. All these technologies make cities cleaner and safer for people.

Individuals' actions are also very important. People can save water and electricity every day. Planting trees, helps clean the air and save animals. Using bicycles or walking reduces pollution. People can also recycle things to save the environment. Together with smart technology, these actions make a big difference.

Grade 9 - 2nd term 2025-2026

Writing (5)

"Many countries encourage young people to start their own businesses."
Plan and write a report of two paragraphs of not less than (12 sentences) discussing the skills that teenagers need when starting a business, and the role of the local community in helping their businesses grow.

NB: (Your writing should include a topic sentences, supporting details and a conclusion for each paragraph)

The plan

Introduction:
It is important for young people to start their own businesses.
Paragraph (1) the skills that teenagers need when starting a business
Topic sentence:
Teenagers need many skills when they start a business.
Supporting details:
* need to be organized
* teamwork and good communication skills
* creative to make new ideas
* Time management
Concluding sentence:
Finally, planning and setting goals help them succeed.
Paragraph (2) the role of the local community.
Topic sentence:
The local community can help the teenagers.
Supporting details:
* buy their products
* provide advice and training
* show their business
* give money to start a business
Concluding sentence:
Experienced people can guide teenagers.
Conclusion:
When the community works together, teenagers feel motivated.

Teenagers start their own business

It is important for young people to start their own businesses. Teenagers need many skills when they start a business. They need to be organized and use technology. They need teamwork and good communication skills. They need to be creative to make new ideas. Time management helps teenagers finish tasks on time. Finally, planning and setting goals help them succeed.

The local community can help the teenagers. People can buy their products. Local organizations and schools can provide advice and training. They can show their business to more people in community events. Local banks may give money to start a business. Experienced people can guide teenagers. When the community works together, teenagers feel motivated.

Writing (6)

'Space exploration is a two-sided issue. Some people support it, while others believe it is a waste of money.'

Plan and write a report of two paragraphs of not less than **(12 sentences) explaining both views and clearly giving your own opinion.**

NB: (Your writing should include a topic sentences, supporting details and a conclusion fo each paragraph)

The plan

Introduction:

It is important for young people to start their own businesses.

Paragraph (1) arguments for space exploration

Topic sentence:

Some people support space exploration.

. Supporting details:

* learn more about the universe
* lead to new discoveries
* new medicines and devices
* understand climate change

Concluding sentence:

Exploring space makes the world smarter and more advanced.

Paragraph (2) arguments against space exploration.

Topic sentence:

On the other hand, some people are against space exploration.

Supporting details:

* It is a waste of money
* solve poor people problems
* can be dangerous
* lose their lives

Concluding sentence:

We can use money to solve poor people's problems

Conclusion:

In my opinion, space exploration is important, but it should be balanced.

Arguments for and against space exploration

There are two points of view about space exploration. Some people support space exploration. It helps us learn more about the universe. It can lead to new discoveries. We get new medicines and devices. Exploring space can also help us understand climate change. Space exploration can also inspire young people to study science and math. Exploring space makes the world smarter and more advanced.

On the other hand, some people think space exploration. Space exploration can be dangerous. Astronauts lose their lives. It is a waste of time and money. The cost is very high. We can use money to solve poor people's problems. In my opinion, space exploration is important, but it should be balanced.

Writing (7)

"Space exploration offers many benefits but also presents serious challenges.".

Plan and write a report of two paragraphs of not less than **(12 sentences) explaining the main difficulties astronauts face when living and working in space and describing some solutions being developed to overcome these problems.**

NB: (Your writing should include a topic sentences, supporting details and a conclusion for each paragraph)

The plan

Introduction:

Space exploration is very useful, but astronauts have some problems.

Paragraph (1) the main difficulties astronauts face

Topic sentence:

Astronauts face some difficulties in space.

. Supporting details:

* no gravity
* feel sick and their muscles get weak
* feel lonely and sad
* away from family and friends

Concluding sentence:

In addition, space is dangerous and they may lose their lives.

Paragraph (2) some solutions being developed to overcome these problems.

Topic sentence:

There are some solutions for these problems.

Supporting details:

* do exercise every day
* wear special suits
* eat tinned food
* drink through a straw

Concluding sentence:

Space stations are made to protect astronauts.

Conclusion:

These solutions help astronauts live and work safely in space.

Space exploration difficulties and solutions

Space exploration is very useful, but astronauts have some problems. Astronauts face some difficulties in space. There is no gravity. Astronauts feel sick and their muscles get weak. Astronauts live away from their families and friends for a long time. They feel lonely and sad. In addition, space is dangerous and they may lose their lives.

There are some solutions for these problems. Astronauts do exercise every day to keep their muscles and bones strong. They wear special suits. They eat tinned food and drink through a straw. Space stations are made to protect astronauts. These solutions help astronauts live and work safely in space.
