Reading comprehension / 1

Read the following passage carefully, then answer the questions below:

Cleanliness is important in protecting us from dirtiness. Much dirtiness of the stomach passes from one person to another because of bad purification and your own cleanliness. You should always wash your hands before a meal.

You should bathe more often in hot weather or when you have been running or in the gym. You ought to be very careful about the food you eat and the water you drink. Make sure that flies and other insects don't land on your food. Insects eat dirt and there are **germs** in dirt. When insects land on your food, they may pass their germs on to you.

You mustn't leave pieces of food or dirty dishes lying around because they will attract flies. You can protect food from flies and germs by covering it. You should always boil water before you drink it. Finally, you must never eat food that smells bad because **it** may be poisonous.

a) Choose the suitable answer from a, b, c and d :

1. The **best title** for the passage could be:

- a) Running b) Hot Weather c) Dirtiness d) Cleanliness

I. Reading comprehension/2

Read the following passage, then answer the questions below:

Scientists have been inventing things for years. Those inventions have made life easy and simple. Life is better and more comfortable than before. In the past, people lived a **hard** life. There weren't any air conditioners to keep their homes cool in summer or to keep them warm in winter. There were no washing machines or fridges. Before inventing the plane, most people traveled by cars, boats, and trains. Today, airplanes help people travel long distances faster and easier.

Before inventing the telephone, people kept in touch by writing letters or talking to each other face to face. Today, they can send messages using mobiles. They can chat with other people all over the world through the Internet. Computers have made it easy for people to get information, do research, play games, or take photos. Inventions have made our life easy, simple, and more comfortable. The Internet has made the world as a small village. It is useful and harmful at the same time.

Wilbur Wright was born in 1867 and his brother Orville in 1871. Both brothers were good pupils but because of problems at home, they did not finish high school. They learned by reading many books in their house and they used to ask questions about whatever they thought was interesting.

As they were **bright** mechanics, they decided to open a bicycle shop to sell and repair bicycles. In their free time they first built kites. The brothers' dream was to build the first engine-powered flying machine. **They** designed and built their own engines and fans. Then they did many experiments until the historical date of December 17, 1903, on which Orville was the first person to fly an airplane called "Flyer 1". The flight lasted only 12 seconds and covered just 120 feet.

In 1909, the brothers opened a factory to make aircrafts. Unfortunately, Wilbur died in 1912. He did not live long enough to see how planes improved, but Orville lived till 1948 and saw how the airplane changed the world and our lives.

Reading comprehension / 1

Read the following passage carefully, then answer the questions below:

Cleanliness is important in protecting us from dirtiness. Much dirtiness of the stomach passes from one person to another because of bad purification and your own cleanliness. You should always wash your hands before a meal.

You should bathe more often in hot weather or when you have been running or in the gym. You ought to be very careful about the food you eat and the water you drink. Make sure that flies and other insects don't land on your food. Insects eat dirt and there are **germs** in dirt. When insects land on your food, they may pass their germs on to you.

You mustn't leave pieces of food or dirty dishes lying around because they will attract flies. You can protect food from flies and germs by covering it. You should always boil water before you drink it. Finally, you must never eat food that smells bad because **it** may be poisonous.

a) Choose the suitable answer from a, b, c and d :

Wilbur Wright was born in 1867 and his brother Orville in 1871. Both brothers were good pupils but because of problems at home, they did not finish high school. They learned by reading many books in their house and they used to ask questions about whatever they thought was interesting.

As they were **bright** mechanics, they decided to open a bicycle shop to sell and repair bicycles. In their free time they first built kites. The brothers' dream was to build the first engine-powered flying machine. **They** designed and built their own engines and fans. Then they did many experiments until the historical date of December 17, 1903, on which Orville was the first person to fly an airplane called "Flyer 1". The flight lasted only 12 seconds and covered just 120 feet.

In 1909, the brothers opened a factory to make aircrafts. Unfortunately, Wilbur died in 1912. He did not live long enough to see how planes improved, but Orville lived till 1948 and saw how the airplane changed the world and our lives.
