(General)**Reading Comprehension****Date: / / 2022****Read the following passage, then do as required below:**

Banks are places where people can keep their money. Most people use banks to save money in their savings accounts and to pay money from their checking accounts. Today, when a person earns money from their job, their salary is often electronically **deposited** into their saving accounts. Then, he or she can pay their bills by writing cheques from their checking accounts or pay online where their bills are electronically connected to their bank accounts. Banks also give loans to people. They lend people to buy new houses, cars, or to start businesses. The bank makes money from lending by charging interest. In other words, people have to pay back more than **they** borrowed. This amount depends on how risky the bank thinks the borrower is and how fast the loan is paid back.
