6-The opportunity was small but …… important.

7-With …… and hard work, he finally passed the difficult test.

8- Greenhouses use ……. lights to help plants grow during dark winter months.

B-Reading comprehension (16 Marks)

Read the following passage, then answer the questions below:-

Some kinds of animals are endangered species. This means there are very few animals of that kind left on Earth. These animals could disppear. Extinction is when all the animals of that kind die. When a type of animal is extinct, we can not see them on Earth anymore .

There are many reasons that lead to the extinction of animals. One reason is that their habitat is spoiled by humans. Without a habitat, the number of some animals begins to reduce. As human populations increase, more space is needed for people. Building new areas for people to live pushed animals out of their natural homes. Cutting trees to make room for homes and factories also spoiled animals' natural habitat. A **major** cause why animals disappear is hunting by human. Hunting animals as a sport can reduce their number and make some animals rare to find. Another reason is pollution. Throwing rubbish on land or in .the sea may kill animals and also break their homes

Humans need to think before they act and understand that their actions can make a difference. First, people should plan carefully when building cities. Second, governments should make people understand how their actions can save animals. Third, countries around the world must work together to make special laws that stop hunting animals. Various organisations are working hard to create natural reserves for endangered animals, and **they** are planning programmes to help their numbers grow.

a) Choose the best answer From a, b, c and d: (6x2=12 Mark)

B- Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions that follow:

Many inventions have changed the world throughout history. These inventions have improved our lives and made some tasks much easier. The following are some of the inventions that have affected our lives deeply.

The airplane's invention has changed the way people travel. It has made travelling fast, easy and more comfortable. Before, people travelled by ships to far places, but it took months to complete a journey. Then, the first airplane was invented in the 20th century. After the invention of the airplane, travel became faster and more comfortable. Today, airplanes can carry hundreds of passengers, and can travel long distances around the world in a short time.

The smartphone is another great invention that plays an important part in our daily lives. **It** has made it easy and more **convenient** to get information and connect with family and friends around the world. The smartphone is also used for many things. For example, it is a calculator, a calendar and a camera. It has also been a lifesaver for a lot of people in case of emergency.

Many of the tools and products we use in our daily life were invented by normal people. You can be an inventor, too, by thinking about simple things people need and trying to come up with a new idea. Your idea may become a useful invention and you may become a famous inventor.

a) Choose the correct answer from a, b, c and d: (6 x 2 = 12 Marks)

9. What is the main idea of the 1st paragraph?

a) There are many famous inventors.
b) Travelling has become easier than before.
c) It is easy to connect with people around the world.
d) Inventions have affected our lives and made things easier.

10. The underlined word ‘convenient’ in the 3rd paragraph means:

a) boring
b) funny
c) suitable
d) different
