VI. Reading Comprehension (16 Marks)

16

Read the following passage carefully, and then answer the questions that follow.

Try to think of some countries you know in Asia. Japan might be one of them! It is an island country located in East Asia, surrounded by the Pacific Ocean. Japan is made up of four main islands and many smaller ones. Because it is surrounded by water, it has beautiful coastlines, mountains, and forests. Many tourists visit Japan to see its modern cities, peaceful countryside, and unique traditions.

Japan has a long and rich history. Archaeologists have discovered tools underground that show people lived in Japan more than 30,000 years ago. Over time, different leaders ruled the land. One of the most important figures in Japanese history is the emperor. Samurai warriors also played a major role in protecting the country from its enemies and serving powerful leaders called shoguns. **They** controlled the government and held real political power in Japan for many years.

The name "Japan" also has an interesting meaning. In Japanese, the country is called "Nihon" or "Nippon," which means "origin of the sun". This is why Japan is often called "The Land of the Rising Sun". The name comes from its location east of China, where the sun appears to rise.

Today, Japan is a highly developed and modern country. Tokyo, the capital city, is one of the largest and busiest cities in the world. Tall buildings, bright lights, and fast trains fill the city. People **rush** through the streets, trying to reach their destinations on time, and technology is used everywhere in daily life. Unlike many cities, Tokyo is known for being very clean and well organised, even though it is crowded.

Japanese food is famous around the world. Popular dishes include sushi, ramen, and tempura. Rice is the main ingredient of most meals, often served with fish, vegetables, or soup. Because Japan is surrounded by the sea, seafood is very common. Fishing is an important industry, and many families depend on it for their daily income.

Japan is also known for its rich culture. Kyoto, an old capital city, is famous for its temples and traditional buildings, while Mount Fuji is a symbol of the country. Overall, Japan is a place where ancient traditions and modern life exist together in a special and fascinating way.
