B) Reading Comprehension: (16 Marks)

Read the following passage carefully, then answer the questions below:

16

Tea is one of the most popular drinks in the world. Tea is prepared from the leaves. Over three million of kilograms are grown yearly worldwide. They grow on high lands in India, China, Japan and Sri Lanka. Tea plants provide us with different types of tea such as black, white, yellow, and green tea.

In India, there are many tea gardens in a town called Darjeeling. Darjeeling tea is special for its fine flavour and nice taste. It's best enjoyed during the morning or early afternoon, but not in the evening because it has a lot of caffeine.

Tea plants are planted by the farmers in lines with **gaps** of one to two metres from one another. They grow about two-metre tall and sometimes can reach 9 metres. The leaves of the plant are about 5 centimetres long, and its colour is dark green. They usually grow in oval shape.

The tea leaves are pulled from plants three or four times a year. The leaves are put in baskets in the sun to dry for many hours, and then heated over fire. After heating, the leaves become very dry, hard and ready for drinking. **They** are then packed in wooden boxes and sent to the market for selling.

B: Reading Comprehension (16 Marks)**Read the following text carefully then answer the questions below:**

Penguins are special birds. Though they have wings and feathers, they cannot fly. Penguins get around by **sprinting** on their large feet. These feet help make them good swimmers. Penguins also get around by sliding across snow and ice on their large tummies. Most penguins live in cold places. A thick layer of fat and their oily feathers help them stay warm. Not all penguins live in cold places, but some live on warm islands.

Penguins eat fish or shrimps. Most of them are black and white, but some types have other colours. They might have yellow or orange feathers on their heads and faces. Some have blue feathers. These fun birds come in all shapes and sizes. Some are short, less than 30 centimeters tall. **Others** can reach 122 centimeters tall. Smaller penguins can weigh one or two kilograms, while the large ones can weigh almost 45 kilograms.

Some penguins can live up to thirty years! Some live only five or six years. Like other birds, penguins lay eggs. The males keep the eggs warm until it is time for the eggs to hatch. Penguins travel in large groups called colonies. Inside the colony, the penguins live together as a family. This makes them very special birds.

B) Reading Comprehension (16 Marks)**Read the following passage carefully, then answer the questions below: (199 words)**

Have you ever visited a lighthouse? Lighthouses can be symbols of many different things. For tourists, they can be interesting places to visit, and photograph. For people who love history, they are windows to the past. For sailors, they are signs of safety. Lighthouses are located along the coasts of oceans. They project a strong light that tells sailors that the land is near and warns them of dangers.

Lighthouses are built with a living part for the lighthouse keeper. He looks after the lighthouse and ensures that it is always working properly. Although it can be lonely at times, it is an important job. Lighthouse rays can be used differently to help sailors identify the lighthouse and their location. Each lighthouse has its own patterns, lengths and flashes that make it unique. Sailors can observe them and then look them up in a reference book that will tell them which lighthouse **they** have found.

During the day, sailors can identify lighthouses simply by their looks. Some lighthouses are painted in special colours. Others are known by their shapes. Many lighthouses are no longer working. They are sometimes **converted** into museums, educational centers, or even private homes.

- Read the following passage carefully, then answer the questions that follow:

Mario owns a restaurant called 'A Taste of Rome'. It serves Mario's famous spaghetti with meatballs. It also offers lasagna and other dishes that his mother cooked for him when he was young. It's on a busy street with no parking spaces. It has been open for five years. Now, it's a huge success. But things were not always this great.

When he first opened the restaurant, business was very slow. Mario was the only worker. He **greeted** guests at the door and seated them. Then he would start cooking. Each meal took about 60 minutes to prepare. Once Mario finished cooking, he would bring the food to the table. Most guests never returned, but often ordered takeaway.

Mario hoped to bring in more business. He asked customers about their opinions after each meal. Lately, the restaurant has gone through big changes based on customers' suggestions. Today, Mario's restaurant has two greeters at the front door. **They** welcome guests and show their seats. The kitchen has two more chefs. Now they can serve a meal in less than fifteen minutes. Lastly, it now offers free parking. This allows guests to drive right up to the door.

B. Reading Comprehension (16 marks)

Read the following passage then answer the questions below:

Banks are places where people can keep their money. Most people use banks to save money in their savings accounts, and to pay money from their checking accounts. In the past, people used to receive their salaries by hand. They also used to save their extra money at their homes. This was not safe, and people couldn't make use of their savings. Yet, things have changed greatly nowadays. Today, when a person earns money from their job, his salary is often electronically **deposited** into his saving accounts.

People nowadays can pay their bills by writing cheques from their checking accounts or pay online where their bills are electronically connected to their bank accounts. Banks also give loans to people. **They** lend people to buy new houses, cars, or to start businesses.

The bank makes money from lending their customers by charging interest. In other words, people have to pay back more than they borrowed. This amount depends on how risky the bank thinks the borrower is and how fast the loan is paid back. The riskier the borrower is, the more charging interest he or she would pay the bank.

B: Reading Comprehension (16 Marks)

Read the following text carefully then answer the questions below:

Water is the most important source of life on Earth. We can't live without it. Without water we would die of thirst. Three - quarters of the planet is covered by water. Most water is in oceans, seas and rivers. Water is frozen and forms ice caps at the North and South poles because it's very cold there. Then, it turns back to be fresh water when it melts in summer.

Water goes round in a **process** called the water cycle. Clouds in the sky contain water as a gas-water called vapour. This gas becomes liquid and falls to Earth as rain or snow. The rain brings water to seas, rivers and lakes. Water also goes into the soil then plants take it.

You need water to stay alive. Your body loses water when you breathe or sweat. You can stay for more than a week without food, but if you stay without water for three or four days you may die. Plants need water to live. We have to use water carefully. We should also use water wisely so that there will be enough of it left for our future life.

A) Choose the correct answer from a, b, c and d : (6X2=12)

B) Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions below:

Children and adults are alike. They enjoy flying a kite on a windy day. However, kites are not always the bright and pretty toys we think of today. Kites started as tools for war. The Chinese flew kites around 3,000 years ago. **They** used them to get information and send messages.

Since then, kites have become more than just pieces of flying art. They have played significant roles in discoveries. Perhaps the best-known use of a kite was in a scientific experiment described by Benjamin Franklin in 1752. Franklin hoped to prove the connection between lightning and electricity. Another important use of kites was by the Wright brothers in the early 1900s. They used kites to test their ideas about flying, which helped them invent the world's first aeroplane.

Even now, kites are still an essential part of religious and cultural celebrations, and they have become a part of festivals around the world. The planes that allow us to travel worldwide have all **descended** from the simple kite. They all have the same basic idea.

B- Reading Comprehension (16Marks)

Read the following passage carefully, then answer the questions below:

There is a friendly kind of fish in the sea. These are the dolphins. They are wonderful in many ways. They look after other dolphins when they are ill. They care for mothers and protect babies. Dolphins are very intelligent. They live in groups of family members. There are also stories of them helping people and sailors.

One day, a lifeguard called Rob took his daughter Nancy and her friend, Helen on a trip by boat. The two girls went swimming in the sea. Rob was about 50 meters away from the girls. All of a sudden, a big dangerous white shark appeared. A dolphin quickly swam straight to the girls' location. It dived down into the water in front of the girls. Then a group of dolphins came and swam around the girls. The dolphins made a circle around the swimmers and kept moving their tails in the water to push the shark away. The father came quickly to save the girls.

Dolphins know when it is dangerous for them and for people. They are known for helping those who are in need. The way they save humans from animal attacks is similar to mothers when they save their young children.
