Read the text then answer the questions:-

Brown bears are big animals that live in North America, Europe, and Asia. They live in a variety of *habitats,* especially forests. Brown bears eat a mixed diet, including fruit, plants, leaves, and small animals. Babies stay close to their mothers. Other bears spend most of their time alone.

Habitat	Diet	Behavior
Forests and mountains	.....	.....

Spotted hyenas are the largest of all hyenas. They look like large dogs. However, they are more similar to cats. They live in different habitats around Africa in large groups of up to 80 members. Hyenas are meat-eating animals, but will eat almost anything. They are sometimes called "laughing hyenas" because of the sounds they make.

Habitat	Diet	Behavior
.....	.....	.....

Giraffes are over five meters tall. This makes them the tallest animals in the world! They live in grassland habitats in Africa in groups of around six. They are plant-eating animals and eat a diet of leaves that they get from the tops of trees.

Habitat	Diet	Behavior
.....	.....	.....

- **Diet** → what an animal eats
- **Habitat** → where an animal lives
- **Behavior** → how an animal acts or what it does

Meat-eating animals	Plant-eating animals
They eat meat only. 👉 We call them **carnivores**. **Examples:** lions, tigers, sharks, wolves.	They eat plants only. 👉 We call them **herbivores**. **Examples:** cows, giraffes, elephants, rabbits.

Omnivores

Meaning:
Animals that eat **both plants and meat**.

They can eat fruits, vegetables, and also other animals or insects.

We call them: *Omnivores*

Examples of omnivores:

- **Humans** — eat meat, fruits, and vegetables
- **Bears** — eat fish, fruit, and plants
- **Pigs** — eat roots, plants, and meat
- **Raccoons** — eat fruit, eggs, and small animals
- **Chickens** — eat seeds, worms, and insects
- **Monkeys** — eat fruit, leaves, and small insects

2. **What do brown bears eat?**
   a) Only meat
   b) Only fruit
   c) Only fish
   d) Fruit, plants, leaves, and small animals
3. **What are spotted hyenas sometimes called?**
   a) Laughing hyenas
   b) Happy dogs
   c) Big cats
   d) Wild hunters
4. **What do giraffes eat?**
   a) Grass
   b) Fruit
   c) Leaves from the tops of trees
   d) Flowers
5. **Where do spotted hyenas live?**
   a) In different habitats around Africa
   b) In forests in Asia
   c) In cold mountains
   d) In the Arctic
6. **How many members can be in a group of spotted hyenas?**
   a) 60
   b) Up to 80 members
   c) 30
   d) 100
7. **What do giraffes use to get food?**
   a) Their legs
   b) Their tails
   c) Their long necks
   d) Their teeth only
8. **How tall can giraffes grow?**
   a) Two meters
   b) Three meters
   c) Four meters
   d) Over five meters
9. **What kind of animals are giraffes?**
   a) Plant-eating animals
   b) Meat-eating animals

Question	Answer
Which habitat do horses live in?	They eat fish, invertebrates, and marine mammals.
What do sharks eat?	They live in African rainforests, woodlands, and grasslands.
Which habitat do chimpanzees live in?	They live in communities of up to 150 members.
How do chimpanzees behave?	They eat deer, cows, horses, buffalo, and goats.
What do tigers eat?	They live in almost every country and on almost every continent.
How do tigers behave?	They spend most of their time alone.
Which habitat do sharks live in?	They eat grass, hay, carrots, and apples.
What do rabbits eat?	They live mostly in oceans.

Vocab (Exercise) :

1. **Elephants eat grass, leaves, and fruits. That is their _____.**
   a) water b) size c) color d) diet

Winners Academy Fatma Ayman Winners Academy

2. A lion lives in the grasslands. That is its _____.
   a) habitat b) noise c) speed d) job
3. A dog wags its tail when it's happy. That is part of its _____.
   a) diet b) behavior c) food d) fur
4. The tiger is a very strong _____ animal.
   a) lazy b) weak c) wild d) funny
5. A cow gives us milk. It's a _____ animal.
   a) big b) wild c) fast d) farm
6. A dolphin lives in the sea. That's its natural _____.
   a) habitat b) pet c) farm d) home
7. Monkeys climb trees and eat bananas. That's their _____.
   a) fur b) behavior c) color d) job
8. Lions usually hunt at night. That's part of their _____.
   a) food b) fur c) behavior d) home
9. Rabbits eat carrots and lettuce. That's part of their _____.
   a) fur b) color c) home d) diet
10. Polar bears live in very cold _____.
   a) habitats b) diets c) fur d) groups
11. Bees work together in big _____.
   a) diet b) groups c) jobs d) leaves
12. Birds fly high in the sky. It's part of their _____.
   a) diet b) habitat c) behavior d) fur
13. Lions eat meat. They are _____ animals.
   a) farm b) wild c) shy d) carnivorous
14. A forest is home to many animals. It's their _____.
   a) habitat b) diet c) color d) group
15. Cows live on farms and eat grass. That's their _____.
   a) home b) behavior c) hobby d) color
16. Giraffes eat leaves from tall trees. That's part of their _____.
   a) home b) fur c) diet d) sound
17. Wolves move together in packs. That's their _____.
   a) food b) color c) size d) behavior
18. Sharks live in the ocean. It's their _____.
   a) habitat b) group c) color d) job
19. Cats clean themselves every day. It's part of their _____.
   a) home b) behavior c) fur d) food

9. Deer eat plants and leaves. That's part of their _____.
   a) fur b) color c) diet d) behavior

Winners Academy Wafaa Ayman

10. Lions eat meat, so they are _____.
a) herbivores b) plants c) fruits d) carnivores

11. Cows eat grass and leaves, so they are _____.
a) herbivores b) carnivores c) fish d) birds

12. Giraffes are _____ because they eat only plants.
a) birds b) herbivores c) hunters d) carnivores

13. Tigers eat other animals, so they are _____.
a) herbivores b) fish c) carnivores d) farmers

14. Elephants eat plants, fruit, and leaves. They are _____.
a) hunters b) carnivores c) omnivores d) herbivores

15. Sharks eat fish and seals, so they are _____.
a) carnivores b) herbivores c) omnivores d) farmers
