Reading Comprehension

Read the following passage then answer the questions below:

Reading is an essential tool that enhances both personal growth and learning. **It** helps improve knowledge, vocabulary, and critical thinking skills. Whether it's fiction, non-fiction, or online articles, reading exposes readers to new ideas and different viewpoints. For students, reading is an important part of their education, while adults also benefit from it by expanding their knowledge and improving their cognitive abilities. However, it's crucial to choose reading materials carefully. Reading for pleasure, like novels or magazines, can provide relaxation and escape, but it's important not to get lost in social media or content that doesn't add value. Striking a balance between reading for enjoyment and reading to gain knowledge is key to making the most of this activity.

A) Choose the correct answer from a, b, c, and d:

1. The best title for the passage is:

a) The Importance of Reading b) Types of Books c) How to Enjoy Reading d) The Benefits of Social Media

2. The opposite of "misuse" in the passage is:

a) use properly b) ignore c) waste d) misuse correctly

3. In the passage, "it" refers to:

a) fiction b) reading c) vocabulary d) stress

4. The writer suggests that:

a) reading is only beneficial when done for enjoyment.

b) reading is important for both students and adults.

c) reading should be limited to books only.

d) social media is a better source of information than reading.

B) Answer the following questions:

5. How does reading benefit adults?

……

6. Why is it important to balance reading for enjoyment and for knowledge?

Reading Comprehension

Read the following passage then answer the questions below:

Education is very important for personal growth and success. Parents invest in their children's education to help them learn and achieve their dreams. With education, **they** can develop skills and knowledge that will help them in their future careers. Education can include learning subjects like math, science, history, and language. People gain education by attending schools, colleges, and universities. Even young children can start learning by reading books, watching educational videos, or playing learning games.

Education helps people to get jobs, earn money, and lead successful lives. There are different forms of education: formal education, which takes place in schools and colleges, and informal education, which happens through life experiences or self-study. Education is a great gift if people use it to improve themselves and others. However, it can be **misused** if people use it to manipulate or deceive others. Some people believe that only formal education matters, but many others find success with informal learning or practical skills.

A) **Choose the correct answer from a, b, c and d:**

1. The best title for the passage is:

a) Types of Education b) Jobs and Careers c) The Importance of Education d) Learning Methods

2. The opposite of the underlined word "misused" in the 2nd paragraph is:

a) ignored b) abused c) used correctly d) wasted

3. The underlined pronoun "they" in the 1st paragraph refers to:

a) children b) parents c) teachers d) schools

4. In this passage, the writer wants to say that:

a) education is only about attending schools.

b) education is important, but it is not the only key to success.

c) everyone must attend formal education to succeed.

d) education is useful only for earning money.

B) **Answer the following questions:**

5. When is education misused?

Reading comprehension

Read the following passage then answer the questions below:

The ocean covers about 71% of the Earth's surface and plays a crucial role in regulating the climate. It absorbs heat from the sun and helps distribute it across the planet, keeping temperatures stable. The ocean is home to millions of species, many of which are still undiscovered. Phytoplankton, tiny plants in the ocean, produce a large amount of the Earth's oxygen. The ocean also provides food and livelihoods for billions of people around the world.

However, the ocean faces many threats, such as pollution, overfishing, and climate change. These problems harm marine life and ecosystems like coral reefs. To protect the ocean, many countries have created marine protected areas (MPAs), where fishing and other harmful activities are restricted. By protecting the ocean, we help preserve the health of our planet and ensure a sustainable future for all living things.

A) **Choose the correct answer from a, b, c and d:**

1. What is the primary role of the ocean in regulating the Earth's climate?

   a) It produces oxygen.

   b) It absorbs heat from the sun and distributes it.

   c) It provides food for people.

   d) It helps create storms.

2. Why are phytoplankton important?

   a) They create food for marine life.

   b) They produce oxygen for the Earth.

   c) They help regulate the climate.

   d) They are a source of energy.

3. Which of the following is a threat to the ocean?

   a) Marine protected areas b) Pollution c) Phytoplankton d) Oxygen

B) **Answer the following questions:**

5. How does the ocean help regulate the Earth's climate?

……

Reading Comprehension

Read the following passage then answer the questions below:

Some sources of energy such as oil and coal cause pollution and many other health problems to people. That is why they are trying to have new sources of energy to find solutions to these problems. Scientists have found a lot of things that can help people live more comfortably.

It was a great discovery to use huge mirrors to get solar energy from the sunlight. Scientists could use sea water to produce electricity. **They** always say that the sun can provide us with a huge amount of energy which is clean and does not cause pollution. For these reasons, most countries all over the world are thinking seriously to get energy out of natural materials.

In the past, people in India and China used the dry animal waste for burning. Solar power could be one of the best sources of energy. It can be used for heating water, powering machines, and running factories. Solar energy is not expensive because it is produced from the sun as an **endless** natural source of heat and light.

Reading comprehension

Read the following passage then answer the questions below:

"It is too dark to read your book! Just switch on the light." It is hard to believe that only just over a century ago, *this* was not possible. There was no electric light to switch on. People used candles, gas and oil lamps to light their homes and to work and study.

The electric light bulb was invented in 1879 by Thomas Edison. He invented many other things which we take for granted today. He also invented things which helped other people develop their own inventions.

Edison was a brilliant inventor. However, when he was a child, his teachers thought he was stupid because he used to ask too many questions. His mother said he didn't ask questions because he was stupid, but because he was curious about how things worked. She educated him at home. He worked so hard day and night that he had little time for family and friends.

A) Choose the best completion from a, b, c & d:

1. This passage is most likely written to :-……

a) Entertain us with a nice story b)suggest a way to save energy

c) tells us about some modern inventions d)inform us about a great inventor
