Mona doesn't like to ask people for help but it is hard for her to do daily activities on her own. She is almost 14 , but she has a serious problem . Mona has trouble keeping her balance and can't walk very far. When she uses a wheelchair, she can't bush it herself.

Fortunately, Mona has a wonderful service dog named Sam. A service dog is the dog that has been trained to help people someone who has a physical problem. Sam lets Mona lean on him when she walks. It also pulls her wheelchair and turns light on and off. When Mona drops something, Sam picks it up. It even pulls her socks off at night.

Sam also helps Mona with everyday tasks at school. It carries her books from class to class in a special backpack. It puts Mona's completed assignments in her teacher's homework trays. In the lunchroom it throws away her trash.

Besides making Mona less dependent on other people, Sam helps lead a fuller life. Mona’s classmates get around Sam as it is a star. This has helped her make friends. Sam also helps Mona be more active. With his aid, she raised over 500 pounds in a walk marathon for her local humane society.

Because of Sam, Mona doesn't have to ask people for help. Sam brings her closer to other kids. And it even helps her contribute to her community, Mona said" I think Sam is my best friend and helps me all time and lets him beside my bed all night"

1) Alexander Graham Bell was born in Edinburgh, Scotland, on March 1847. When he was only eleven years old, he invented a machine that could clean wheat. Graham studied anatomy and physiology at the University of London but *moved* with his family to Quebec, Canada, in 1870.

2) Bell soon moved to Boston, Massachusetts. In 1871, he began working with deaf people and published the system of Visible Speech that was developed by his father. Visible Speech illustrated how the tongue, lips, and throat are used to produce vocal sounds. In 1872, Bell founded a school for the deaf people, which soon became part of Boston University.

3) Alexander Graham Bell is best known for his invention of the telephone. While trying to discover the secret of transmitting multiple messages on a single wire, Bell heard the sound of a plucked string along some of the electrical wire. One of Bell's **assistants**, Thomas A. Watson, was trying to reactivate a telephone transmitter.

4) After hearing the sound, Bell believed he could send the sound of a human voice over the wire. After receiving a patent on March 7, 1876, for transmitting sound along a single wire, he successfully transmitted human speech on March 10. Bell's telephone patent was one of the most valuable patents ever issued. He started the Bell Telephone Company in 1877.
