Reading

1 Read the article and answer the questions below.

What the future holds for jobs

Ever wondered about the future of jobs? Which jobs will still be here and what new jobs might emerge? A street lamp lighter used to be a job not long ago but now it's obsolete and is only seen as part of tourist heritage attractions. Here's what experts think:

Disappearing jobs

Fast food cooks – Fast food cooks are slowly being replaced by machines. Not very long from now, burgers and chips will be fried and packed by machines. Experts also hope that the demand for fast food will diminish for health reasons, causing many fast food chains to close down.

Agricultural workers – Harvesting machinery is becoming more advanced every day. It's predicted that in the near future, fields filled with crops will be harvested by large machines. Agricultural workers won't be needed anymore.

Postmen – When is the last time you sent a letter? Yes, it's very rare to write and send a letter these days; people use email. Experts think that in the next decade, the number of postmen will drop by 28%. Messages will almost all be delivered electronically.

Librarians – If you've recently studied on a course that involves research, you've probably used an online library. Yes, librarians are very helpful at recommending books and articles quickly, but the Internet is much faster. For the next generation, almost all library needs will be fulfilled using the Internet.

Growing jobs

Registered nurses – Experts predict a growth of 21.9% in the number of nurses. Why? As people live longer there will be a great demand for healthcare services. Nurses are very important in any hospital or healthcare establishment, as they carry out minor procedures and support patients in their recovery. It is also expected that new career paths will rise for nurses, such as travel nurses, flight nurses and most importantly research nurses who will contribute to the science and discovery of new medication and treatment.

New jobs

Productivity consultants – In the future, people will need to multitask even more than they do now in order to survive in the workplace. Analysts think that productivity consultants will be needed to help people organise their time and tasks.

Space workers – Many missions to Mars and the moon have already been successfully completed. Space travel for humans is becoming more efficient. Why not send workers to help the astronauts by doing mechanical and clerical tasks? Some people think non-specialist jobs in space will be taken on by space workers.

READING COMPREHENSION COURSEBOOK P.43

Ex 1

1 What three groups of jobs does the article mention? Service industry/Farming industry/Space industry
2 For what reason do experts hope that fast food will become less popular? Health reasons
3 What does 28% represent for postmen? The drop in postmen required in the next decade
4 What kind of work could space workers do? Mechanical and clerical tasks

PRONUNCIATION
WORKBOOK P.43

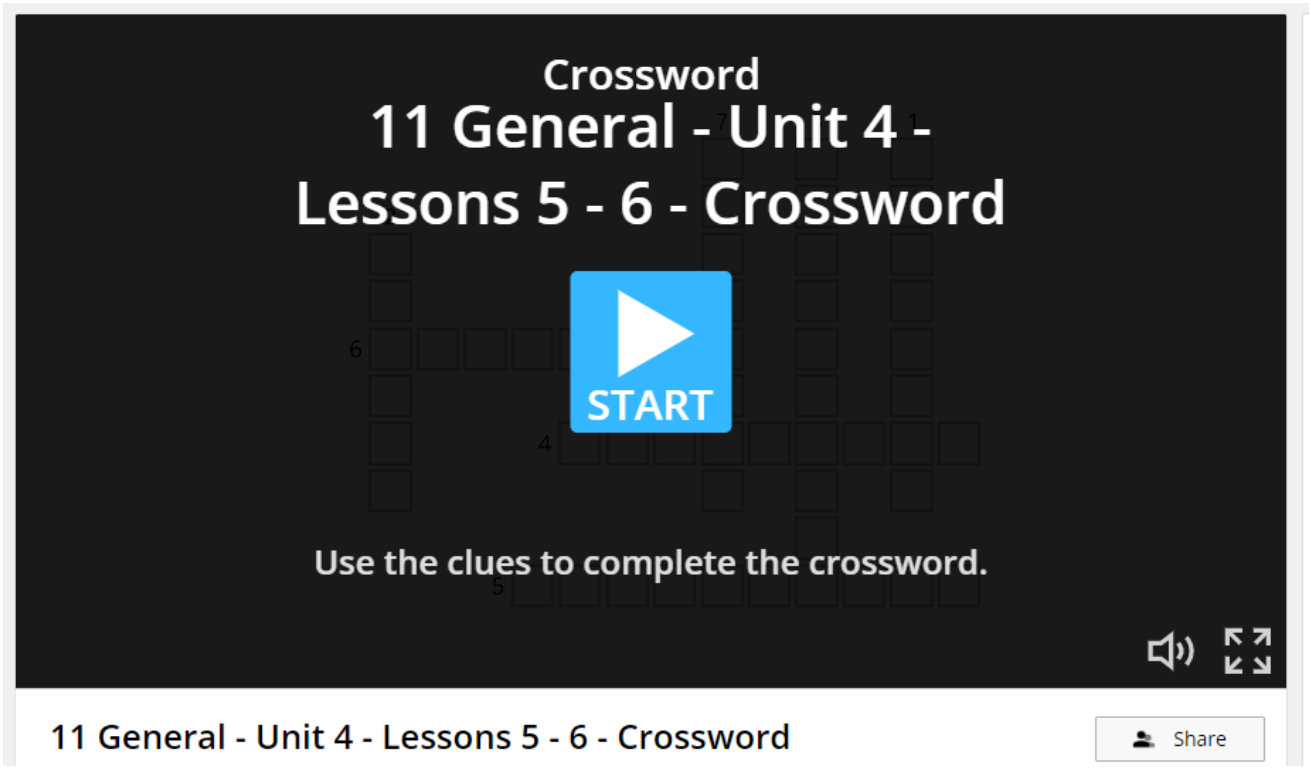

- **Ex 2**

2 In pairs, practise saying the words and underline the stressed syllable.

clerical	multitask	decade	harvesting	diminish	obsolete	consultant

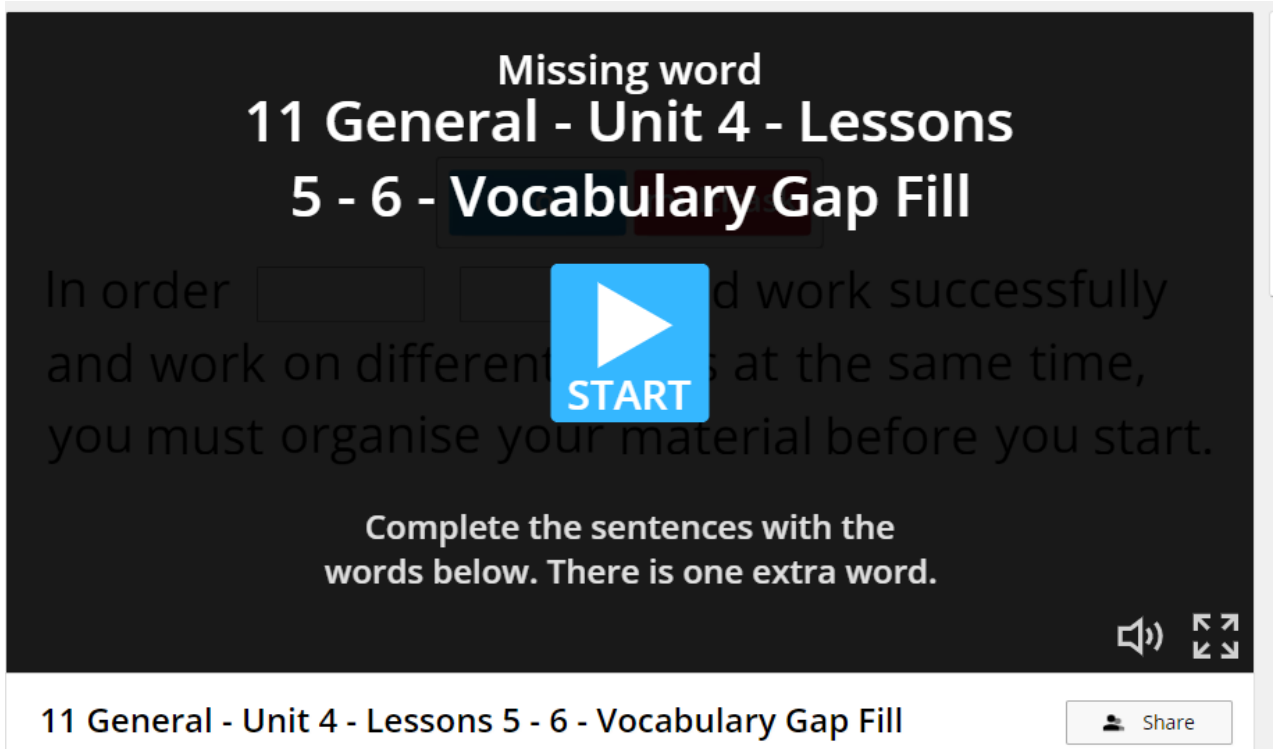

clerical multitask decade harvesting diminish obsolete consultant

VOCABULARY GAP FILL
WORKBOOK P.43

- **Ex 3**

3 Complete the sentences with the words below. There is one extra word.

clerical | multitask | decade | harvesting | diminish | obsolete | consultant

1 In order to multitask successfully and work on different things at the same time, you must organise your material before you start.

2 When it's fruit harvesting season, a lot of workers are needed to gather all the fruit before it goes bad.

3 I've been living here for around nine years, almost a decade!

4 Public pay phones are almost obsolete because everyone has a mobile phone.

5 We hired a consultant to help us with our new project. He knows a lot about computers and should be able to give us some great advice.

6 The new secretary needs to do clerical work; typing letters, filing documents and arranging meetings.

TODAY'S LESSON

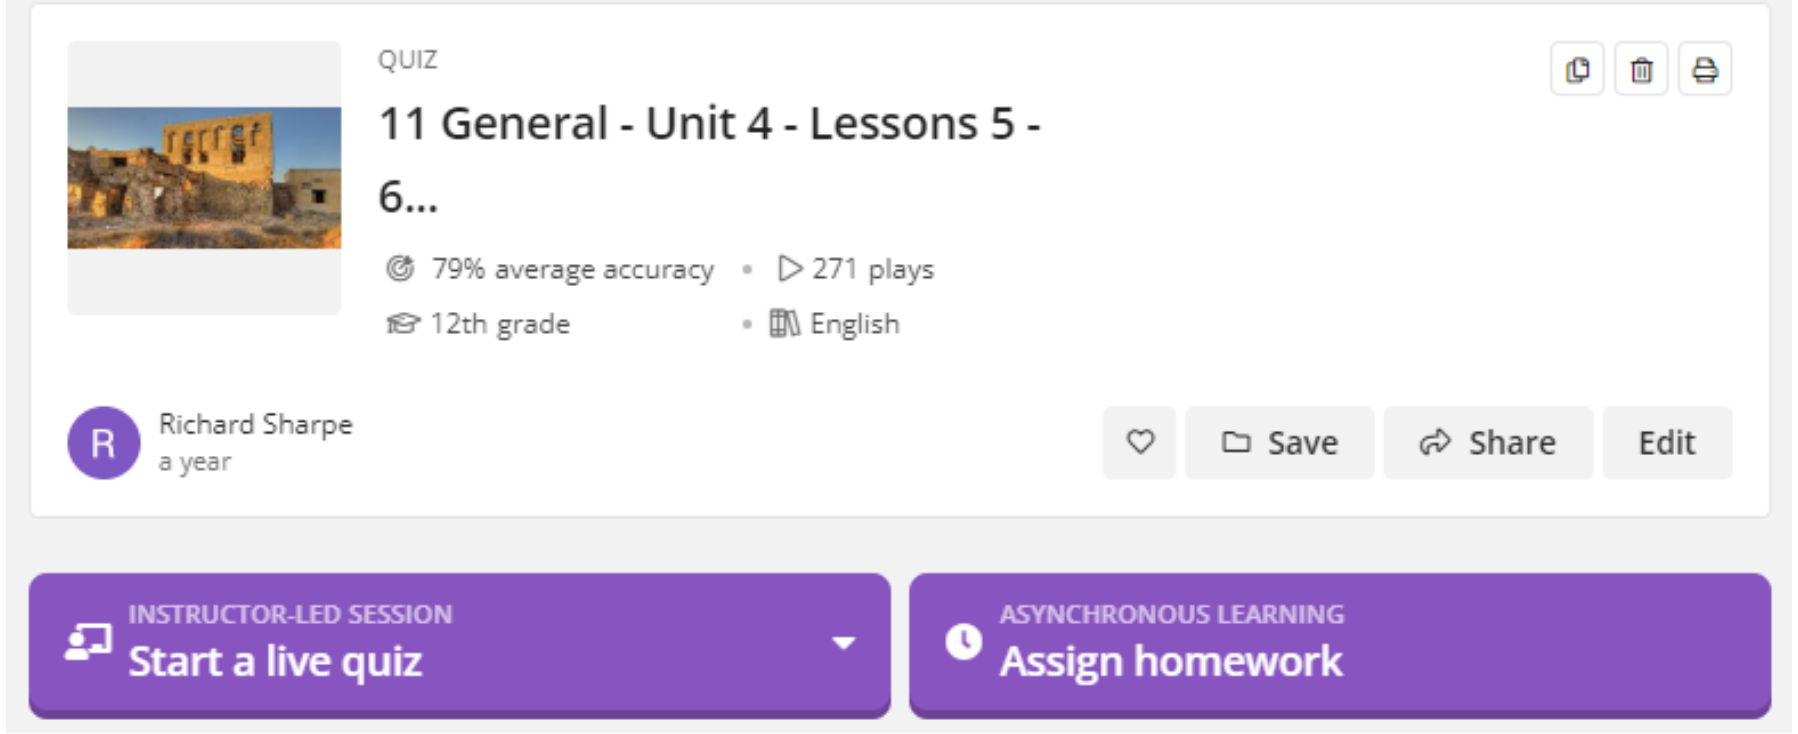

- DATE: 22nd November 2022
- Unit 4 Lesson 6
- Coursebook p.42
- Workbook p.43
- Jobs of the future

LEARNING OBJECTIVES

- Future passive

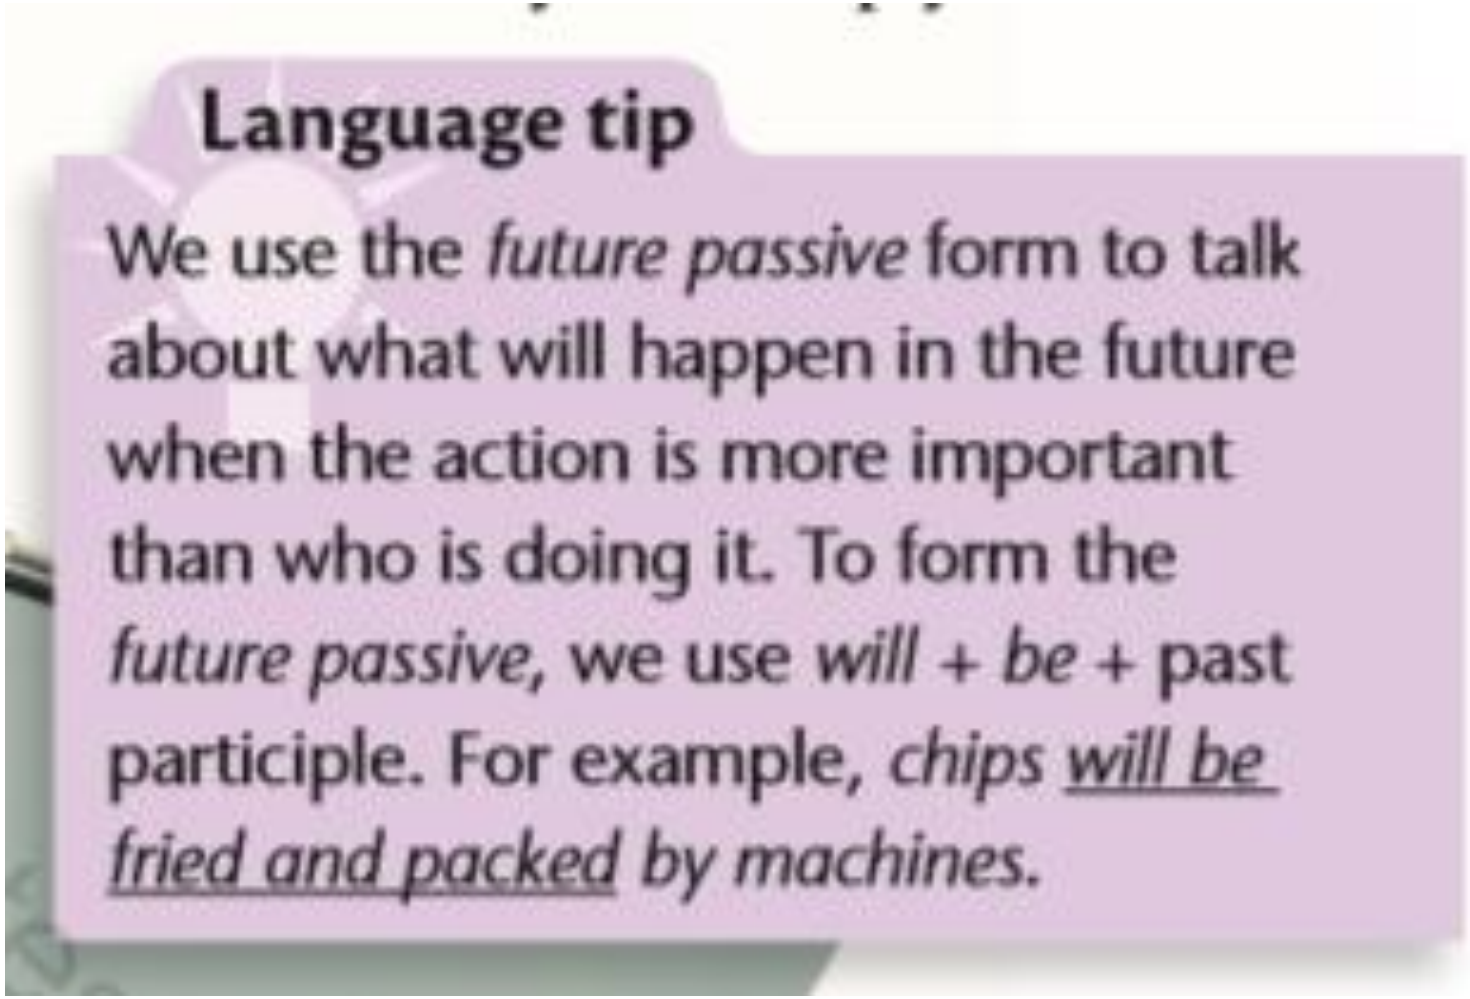

STARTER

https://quizizz.com/admin/quiz/6185888b39d56b001dd7eac1/11-general-unit-4-lessons-5-6-vocabulary-quiz?selfCreated=true

LANGUAGE TIP

Language tip

We use the *future passive* form to talk about what will happen in the future when the action is more important than who is doing it. To form the *future passive*, we use *will* + *be* + past participle. For example, *chips will be fried and packed by machines.*
