Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

Nowadays you can find fast food restaurants in almost every big city. Most people prefer fast food restaurants. Speed and price make them the favourite restaurants. Some people don't want to spend a lot of time preparing food. So, they can order what they want and eat it in about fifteen minutes. That's why they are called 'fast food restaurants '. The prices are also cheap because of the large number of meals sold every day.

People like to feel comfortable and enjoy their food. The famous fast-food restaurants like Hardee's make sure that a beef burger in Kuwait tastes the same as the one in New York and not different from the one bought in London. An example of fast food is beef burgers. They have too much salt, fat and spices. This mixture of fat, sugar and salt set off the pleasure chemicals in the brain. That is why people like having fast food. But, some people say that they are not good for health. They don't have the important food elements **which** our bodies need.

Food experts advise us not to eat tinned food because it is not fresh. Sometimes, fast food is not well protected from dirt, dust, and insects, especially flies. Such food doesn't also have enough proteins and vitamins. So, eating fast food every day leads to **horrible** fatness and causes many dangerous diseases like heart attacks and high blood pressure.

A) From a, b, c and d choose the right answer: (6×2=12Marks)

- c. food elements
- d. pleasure chemical

3- The underlined word (horrible) in paragraph (3) means:

- a. dirty
- b. healthy
- c. very bad
- d. very slow

4- According to the passage, Fast food restaurants are favourite for most people because....

- a. people have much time
- b. people like speed and price
- c. people have a lot of money
- d. people like to prepare their own food

5-One of the following statements about fast food is NOT true:

- a. Fast food is full of fats
- b. Fast food is full of spices
- c. It's advisable to eat fast food daily
- d. Beef burgers contain unhealthy food elements

6-In this passage, the writer is trying to.....

- a. warn us of eating fast food
- b. encourage people to eat less
- c. protect us from dust and dirt
- d. tell about the advantages of fast food

B-Answer the following questions: (2x2=4Ms)

7- Why are the prices of fast-food meals cheap?

.....

8-What does eating fast food everyday lead to?

Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

Have you ever travelled in a plane? Have you ever thought about the history of flying? The dream of flying like birds is too old. A lot of people tried several times to imitate birds, but they failed. They did not have the required technology to fly. Ibn Firnas tried to fly but his effort was in vain and he didn't succeed because he thought that feathers and wings would make him fly. Leonardo da Vinci was more realistic. He knew that he needed a new device to help him fly so he designed a model of a helicopter, but he could not make it or bring it to real life.

The first successful **attempt** was done by The Wright Brothers. They invented the first airplane which is still developing until the recent time. Nowadays, planes are used in different fields such as travelling, carrying goods, rescue processes and even in war. During the Second World War, planes were widely used. **They** caused great damage to whole countries. But modern planes have a complex technology behind them. These kinds of planes cost a lot of money, effort and time. Now, we can't travel without planes as they are fast, safe and comfortable especially in long distances.

Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

Twenty years ago, kids in schools had never even heard of the internet. Now, I will bet you cannot find a single person in your school who has not at least heard of it. The 'net' in internet really stands for network. A network is two or more computers connected together so that information can be shared or sent from one computer to **another**.

The internet is a **vast** resource for all types of information. You may enjoy using it to do research for a school project, download your favourite songs or communicate with friends and family. Information is accessed through web pages that companies, organizations and individuals create and post. Anyone can put anything on the internet, so you have to be careful and use your judgment and common sense. Therefore, you have to be sure that whoever posted the information knows what they are talking about, especially if you are doing research! If you are just emailing people, you still have to be very careful. If you have never met the person that you are communicating with online, you could be on dangerous ground! You should never give out any personal information to someone you do not know, not even your name! And just like you can't believe the information on every website out there.

A. Choose the correct answer from a, b, c and d:-

1. The best title for this passage is:

- | | |
|-----------------|--------------|
| a. Websites | c. The world |
| b. The internet | d. Friends |

| a. person | c. information |
| b. school | d. computer |

3. The underlined word " vast" in the 2nd paragraph means:

- a. safe
- b. huge
- c. different
- d. dangerous

4. The purpose of the writer in this passage is to:

- a. persuade us to join the internet.
- b. inform us about web pages.
- c. explain how internet works.
- d. give advice on how to use the internet carefully.

5. When you send personal information to someone you do not know, then you are:

- a. standing on dangerous ground.
- b. downloading songs.
- c. doing research.
- d. accessing information.

6. All the following sentences TRUE except:

- a. we can share information on the internet.
- b. anyone can put anything on the internet.
- c. all the information on the internet are true.
- d. never give personal information on the internet.

b) Answer the following questions:

7 .What is a network?

B) Reading Comprehension (16 Marks)

Read the following passage, then answer the questions that follow.

Pizza is certainly one of the world's favourite foods. But where does pizza come from? And who made the first one? In fact, people have been making pizza for a very long time. In the Stone Age, people cooked grains on hot rocks to make dough- the basic ingredient of pizza. Over time, people used the dough as a plate, covering it with various other foods, herbs, and spices. **They** had developed the world's first pizza.

In the early 16th century, European explorers brought back the first tomatoes from the Americas. Tomatoes are a standard ingredient in many pizzas today. At first, however, most Europeans thought tomatoes were **poisonous** (in fact, only tomato leaves and roots are). For about 200 years, few people ate tomatoes because it was thought they would die if they ate them.

Slowly, people learned that tomatoes were safe to eat, as well as tasty. In the early 19th century, cooks in Naples, Italy, started the tradition of putting tomatoes on baking dough. The flat bread soon became popular with poor people all over Naples. In 1830, cooks in Naples took another big step in pizza history-they opened the world's first pizza restaurant.

Today, up to five billion pizzas are served every year around the world. In the U.S. alone, about 350 slices are eaten every second! People may not know it, but every piece is a slice of history.

B) Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions below:

In Bangladesh, many students cannot get to school regularly because of the common floods in the areas where students live. What can be done for students who cannot go to school as a result to the common floods? One solution is to bring the school to them.

Floating schools are schools on boats that travel to different areas in Bangladesh. Floating schools mean that even when students' houses are surrounded by water, students can still go to school. **They** can swim to the boats and then climb aboard. These boats are equipped with desks, books, and even computers. The computers are powered by solar energy- this is the energy that comes from the sun and is used to create electricity.

Floating schools maybe only the beginning for changes for this area in Bangladesh. The man who created these schools **intends** to create all types of floating stations: floating libraries, floating hospitals, and even floating gardens. As a result of common floods, experts predict that 20 % of the land in Bangladesh could be underwater by 2050. People who are living in these areas cannot move to a different part of the country because the country is already very crowded and there is not enough room for all those people. Since the flooding in Bangladesh will likely get worse, some people have decided it is time to find out how to live on water.

a) From a, b, c and d, choose the best answer. (6x 2= 12 Marks)
