| Animal                                                                              | Group     |
|-------------------------------------------------------------------------------------|-----------|
|  | Amphibian |
|  | mammal    |
|  | Fish      |
|  | Bird      |
|                                                                                     | Reptile   |
|                                                                                     | mammal    |
|                                                                                     | Bird      |
|                                                                                     | Amphibian |

### Question 3: Animals and their offspring

Match the animal to its baby.

## Question 4: Animal Behaviour

Identify the behaviours below and say if it is protect, feed, comfort

|         |                                                                                   |         |                                                                                   |         |                                                                                     |
|---------|-----------------------------------------------------------------------------------|---------|-----------------------------------------------------------------------------------|---------|-------------------------------------------------------------------------------------|
| protect |  | feeding |  | comfort |  |
|---------|-----------------------------------------------------------------------------------|---------|-----------------------------------------------------------------------------------|---------|-------------------------------------------------------------------------------------|

## Question 5: Animal Communication

Say if the following form of communication is sound signal or movement

|       |        |          |
|-------|--------|----------|
| sound | Signal | movement |
|-------|--------|----------|

|       |        |          |
|-------|--------|----------|
| sound | Signal | movement |
|-------|--------|----------|

|       |        |          |
|-------|--------|----------|
| sound | Signal | movement |
|-------|--------|----------|
