A robot is a special invention. It can walk and talk. It follows orders from a computer. It does not make mistakes. Robots do not get tired or bored. They can work all the day in different places without money or food.

Scientists in Japan built a "friendly robot". They made it to help and serve people in a caring and clever way. It looks like a man. It has got two eyes that could recognise faces. It knows about 10,000 words and can use them to talk to people about the weather and other subjects. It can help you at home. Also, it can send e-mails and messages.

Robots are everywhere. There are many kinds of them. People use robots to do hard work quickly. Some robots are used to work in dangerous places to keep people safe. Spacemen also send robots to far planets to collect information about space. Robots are also found in planes to help the pilots during the flights. Robots are useful but they are not smart enough as people.

Camels live in the desert, where it is hot and dry. They have thick hair that protects them from the heat of the sun in summer and the cold weather in winter. They have wide, soft feet that help the camel to walk a long time in the hot sand.

The camel is called; "The ship of the desert." because it can live for days in the desert without food or water. It has a long neck to reach high palm trees. Camels live in groups, with one male, several females, and their young are called calves.

In the desert, people feed camels with grass. When camels are travelling in the desert, food is often very hard to find. If there is not any food or lack of food, they can adapt and help themselves well. People have been using camels for about 5000 years. They are used for riding, for carrying things, getting their meat, milk and wool.
