## Reading comprehension / 1

**Read the following text carefully, then answer the questions below:**

Jamie Oliver wants to change peoples' lives and he is using food to do it. Oliver, a chef, is well-known for sharing his secrets of cooking healthy food through his magazine, cookbooks, and television shows. He is also changing lives through his Italian restaurant, Fifteen.

Fifteen started in London, England, as a place to train young adults to work in a kitchen. Oliver's idea was to create skillful chefs.

Every September, a new group of 18-24 year-olds start working at Fifteen. When they start, they are usually not **qualified** for a restaurant job, but that will change quickly. In the 12 months of training, the student chefs study cooking at college and get hands-on training at the restaurant. The student chefs also learn how to manage money and deal with difficult customers. Overall, the training programme encourages **them** to believe in themselves and enables them to look forward to a future in the restaurant business.

The restaurant's name, Fifteen, comes from the number of students the restaurant had when it started in 2002. Do you find yourself sleepy at school? What you do before you go to bed has a huge effect on how you feel the next day. If you spend time chatting to people on the social media, or reading books on your e-reader, you are not alone. However, you ought to reduce your screen time at night. Although scientists are only beginning to understand the full effects, the main message **they** find out is that using devices like phones or tablets before bedtime is not good for your health.

All screens give out a large amount of blue light. It can change your sleep patterns. So you can wake up several times during the night and have difficulty getting up in the morning. **Lack** of sleeping well can be a dangerous problem for anyone specially teenagers because their brains are still developing. When you don't sleep well, it can be difficult to concentrate at school, which makes it harder to learn and get good grades. It can also affect your mood; so you feel sad and unhappy.

So, it's clear. You shouldn't use your phone or tablet before you go to sleep. You mustn't worry about your friends. Nothing on the social media is so important that it can't wait a few hours. Rediscover paper books and enjoy feeling tired rather than wondering why your best friend hasn't liked your photo. Don't use the alarm on your mobile. Buy yourself an old-fashioned alarm clock.
