Reading comprehension

Read the following passage carefully, then answer the questions below:

I used to work as a teacher in the north of England. It was not a bad job and I reallyliked my students, but I began to feel tired, so I needed a break.

I had always loved travelling, so one weekend I typed "international volunteering" into an internet search engine. At the top of the results page was the possibility to go and stay on an islandin the Indian Ocean and help protect the beaches and the sea animals. I began joking to friends about sending in an application. I had some diving experience, and the more I talked about it, the more I wanted to do it, so I contacted the organisers. One week later, **they** offered to send me to the island and I accepted.

The volunteer job was only for two months during the summer holiday. I thought after I had finished, I would come home. As soon as I got to the island, I was sure I had done the right thing. My first dive was **incredible**. I felt so lucky to be able to experience that every day. In fact, I lovedit so much that I never came home. I have now been on the island for ten years and I have a permanent job. I'm working as a marine educator, teaching volunteers about the sea life and taking them snorkelling and diving.

Of course, not everything about my new lifeis perfect. I work far harder than I used to. However, I cannot imagine going back to my oldlife.

Reading comprehension

Read the following passage, then answer the questions below:

Nowadays it is not difficult to find fast food restaurants in almost every big city. Most people prefer fast food restaurants. Speed and price make them the favourite restaurants. Some people don't want to spend a lot of time preparing food. So, they can order what they want and eat itin about fifteen minutes. That's why they are called 'fast food restaurants'. The prices are also cheap because of the large number of meals sold every day.

People like to be comfortable and enjoy their food. The famous fast food restaurants like Hardees make sure that a beef burger in Kuwait tastes the same as the one in New York and not different from the one bought in London. Beef burgers have too much salt, fat and spices. The mixture of fat, sugar and salt sets off the pleasure chemicals in the brain. That is why people like having fast food. But, some people say that **they** are not good for health. They don't have the important food elements which our bodies need.

Food experts advise us not to eat food conserved in cans. **Tinned** food is not healthy because it is not fresh. Sometimes, fast food is not well protected from dirt, dust and insects, especially flies. Such food doesn't also have enough proteins and vitamins. So, eating fast food every day leads to horrible fatness and causes many dangerous diseases like heart attacks and high blood pressure. It's better to avoid being addicted to fast food.

B) Reading Comprehension (16 Marks)

Read the following passage, then answer the questions below:

Thomas Alva Edison was an American inventor and businessman. He was born on February 11, 1847. His mother taught him at home. Edison had hearing problems at an early age. His deafness has been caused by a fever during childhood.

Edison developed many skills when he was young. He sold candy and newspapers on trains and sold vegetables to increase his income. He also studied analysis and did experiments on the train until an accident stopped further work. Later, Edison **obtained** the right to sell newspapers on the road. He discovered his talent as a businessman through all these jobs. This talent eventually ledhim to found 14 companies, including General Electric, **which**isstill one of the largest companies in the world.

He invented many devices that greatly influenced life around the world, including the phonograph, the motion picture camera, and the light bulb. He was one of the first inventors to apply the principles of mass production and teamwork to the process of invention. Edison died of complications of diabetes on October 18, 1931, in his home, in New Jersey, which he had bought in 1886 as a wedding gift for Mina, his second wife. He is buried behind the home.

B) Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions below:

People have very different ideas for their dream home. Some people dream of a simple house in a special place. Others want a large house with everything that makes life easy.

Ambani's dream house is 27 floors high. It has room for everything his family needs. Ambani owns a lot of cars, so the first six floors of his house are just for cars. Another floor has a movie theatre with seats for 50 people. Two floors are for a health centre with a gym and a swimming pool. The four floors at the top of the building are for the Ambani family. From there, they have a view of the sea.

Henry, an American writer, lived from 1817 to 1862. At the age of 28, he built his dream house. It was so special as it was a very small house—just 3 metres by 4.5 metres. Inside, there were just three chairs, a bed, a table, and a small desk. The <u>site</u> of his house was very important to Henry. He built it in the woods close to a wonderful lake.

Mutombo, a basketball player, built a very different type of dream home. Mutombo grew up in the Congo, but he moved to America to study. He wanted to be a doctor, but instead he became a famous basketball player. Mutombo's dream home is in the Congo, and it has beds for 150 people. It also has an emergency room, many exam rooms, and some beautiful gardens. Mutombo didn't build his dream home for himself. Instead, he built it for the people in his native country. Mutombo's dream home is a hospital.
