Read the following passage then answer the questions below:

All spiders make webs. That's because webs are good for spiders. They help spiders do three things. Webs help spiders hide, catch food and hold eggs. Many spiders like to lay their eggs in their webs. The webs keep the eggs together. They help spiders keep their eggs safe. Most spiders are dark. They are brown, grey, or black. But spider webs are light. They are white and cloudy to help spiders hide. When spiders hide in their webs, they are harder to see.

16

Webs help spiders catch food. Spider webs are sticky. When a bug flies into the web, it gets stuck. It moves around. It tries to get out but it can't because it is trapped! Spiders can tell that the bug is caught. That's because spiders feel the web move. When the spider is hungry, it goes to get the bug.

As you can see, webs help spiders hold eggs. They also help spiders hide and catch food. Without webs, spiders would not be able to live. They need their webs to survive!

A: Choose the correct answers from a, b, c and d: (6 x 2 = 12 Marks)

7. Why do spiders make webs?

8. How can spiders tell when something is trapped in their web?

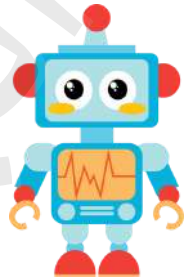

Read the following passage then answer the questions below:

16

A robot is a special invention. It can walk and talk. It follows orders from a computer. It does not make mistakes. Robots do not get tired or bored. They can work all the day in different places without money or food. Scientists in Japan built a "friendly robot". They made it to help and serve people in a caring and clever way. It looks like a man. It has got two eyes that could recognise faces. It knows about 10,000 words and can use them to talk to people about the weather and other subjects. It can help you at home. Also, it can send emails and messages.

Robots are everywhere. There are many kinds of them. People use robots to do hard work quickly. Some robots are used to work in dangerous places to keep people safe. Spacemen also send robots to far planets to collect information about space. Robots are also found in planes to help the pilots during the flights. Robots are useful but they are not smart enough as people.

A: Choose the correct answers from a, b, c and d: (6 x 2 = 12 Marks)

Read the following passage then answer the questions below:

16

When Julia came back from school on her last birthday, she saw a big box in her room. She walked around it wondering what it was. "Could it be the Teddy Bear I saw in the toyshop last week?", she thought. "Is it the bike I asked my father to buy or the new TV which mom told me about?" "What is it?", She asked herself. Then, suddenly she heard a noise from the box. Julia was amazed what kind of gift that would make a noise like that.

She tried to open the box slowly and carefully. To her surprise, there was an animal in the box. She always wanted to have a pet. She didn't know what kind of animal it was. She asked her mum for a bunny but her mother told her that they smell bad. She asked her mom for a kitten but she told her that they scratch. She asked her dad for a parrot but he told her that they make noise. Out of the box, jumped a puppy. It barked happily. It was excited to be in a new home.

Read the following passage then answer the questions below:

16

Japan is a group of islands in the south east of Asia. It is not a very big country but it has a large population. Tokyo is the capital city. The sea is important for the Japanese. They cultivate pearls in the warm water around the islands. They also grow rice and vegetables. Japan is mainly an industrial country. Some of the best products like radios, televisions, computers, cameras and cars come from Japan and they are famous all over the world. So, "Made in Japan" is a trustful label.

The Japanese are very polite and active people. They work hard. They don't sit on chairs when they eat, they kneel on the floor. They don't use knives, forks or spoons. They use wooden chopsticks. Their favorite food is raw fish and rice. The Japanese writing is very strange. It has no alphabet as in Arabic or English. It has a system of pictures and their writing goes from top to bottom. Japan is a good model of a modern country.

A: Choose the correct answers from a, b, c and d: (6 x 2 = 12 Marks)

- The doctor should any broken leg or arm in a car accident.
- We give poor people money in Ramadan. It's one way to help.
- The mother should her children fresh fruit and vegetables.

B) Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions below:

16

Have you ever seen fireflies? Fireflies are small insects. You can't see them in any season except summer. The lights made by fireflies are one of the most amazing things to see on a summer night. There is a part that can make light under a firefly's stomach. Fireflies take in air and use it to make light with special parts in their bodies. Different kinds of fireflies have their own special light patterns, just like people have different languages. They use these light patterns to find other fireflies in their group. Fireflies mainly use light to get friends' attention. They also use light to frighten other insects.

If you haven't seen many fireflies lately, you are not alone. The number of fireflies is becoming less because of some reasons, such as factories' smoke and bad weather. Another important reason is that fireflies don't have many safe living places. Luckily, Chinese scientists found three new firefly kinds in Yunnan a few years ago. Yunnan might have the best place for these insects to live in.

a. Choose the correct answer from a, b, c and d: (6 x 2 = 12 Ms)

9. The best title for this passage is:

- a) Summer Nights
- b) Chinese Scientists
- c) Amazing Insects
- d) Different Languages

10. The **opposite** of the underlined word safe in the 2nd paragraph is:

- a) dangerous
- b) high
- c) small
- d) boring

II. Writing (30 Marks)
A. Grammar (12 Marks)

12

a. Choose the correct answers between from a, b, c and d: (4 x 2 = 8 Ms)
