- All schools should **honour** and reward top students for their achievements.

**B) Reading Comprehension (16 Marks)**

**Read the following text, and then answer the questions below:**

Many people say that Usain Bolt is the world's fastest man ever. In 2008 he won three gold medals at the Beijing Olympic Games in the men's running races. He also broke three world records. He was the first person to win three events at the same Olympics. Then, at the London Olympics in 2012, he won three gold medals again in the same races!

Usain Bolt was born in Jamaica on August 21, 1986. He lived in a small town where his parents had a small food shop. When he was a child, Usain loved all sports and was one of the best runners at his school, but his sports trainer wanted him to be an athlete. So Usain started to run in competitions. He won many races and, when he was 15, he won a gold medal and two silver medals. His family was quite poor, but now he can help them and the people in his town.

Most young sportspeople all over the world admire him. So, how does he run so fast? Most athletes are around 182 cm tall, but Usain Bolt is 196 cm tall. He is taller and, his legs are longer, so he takes fewer steps.

**a-Choose the correct answer from a, b, c and d: (6 × 2 = 12 Marks)**

9. What is the **best title** of the text?

- a) **The Fastest Man in the World**
