- We can suggest **various** solutions to the problem of the city traffic.
- Success is the normal **consequence** of regular hard work .

B: Reading Comprehension (16 Marks)

Read the following text carefully then answer the questions below:

Have you ever heard of an animal called a leopard? Maybe you've seen one at the zoo or learned about it at school. These big cats have light-colored fur that is covered in dark spots. They are known for being the strongest of the big cats. Sometimes they are **mixed up** with cheetahs, but they are not the same!

Leopards can be found in many parts of the world like India, China, and Africa. They can live anywhere from deserts to tropical places. Their dark spots help them blend with their surroundings. This is good because leopards are hunters. Their spots help them hide while they search for prey. The leopard's main food source is meat. It hunts weaker animals in order to have food. It will even hunt for fish and crabs in the water because unlike most cats, leopards love the water.

Leopards are night animals. This means they prefer to sleep during the day and move around at night. They have amazing eyesight and can see much better in the dark than a human. While most leopards have light fur with dark spots, there is a different type called the black leopard. It has dark fur with dark spots. It can be hard to see the spots because **they** blend into the rest of the fur. Unfortunately, the leopard population has been going down in recent years. This means there are fewer leopards being born. This is especially true in the countries outside of Africa.

A) Choose the correct answer from a, b, c and d : (6X2=12 marks)

9. The best title for the passage is:

- a. **The Strongest Big Cat**
- b. Leopard Population
