General Guidelines for Formative Assessment

Formative assessment is prepared by the teacher

Formative assessment tools are mainly performance tasks Individual discussions are graded, and assignments are recorded and quizzes

Questions in quizzes should all be non-Free Response Questions (non-FRQs); these include Multiple-Choice Questions (MCQs) with only one correct answer, or other types.

SwiftAssess and LMS provides many options for non-FRQs, other than MCQs, such as "Short Answer", "Matching", "Re-Order", "Fill in the Blanks", etc.

The teacher chooses the suitable day and time for implementation during the specified week

Guidelines for Quizzes

The total number of quizzes is 2

The duration of a quiz is 30 minutes

Every quiz should comprise (10 -15) non-FRQs

Every quiz is worth 30 points

Guidelines for Performance Tasks

The total number of tasks is 2

The teacher can choose from the activities of the student book or the Interactive Student Guide, or can choose something else (s)he finds suitable

Every task is worth 20 points
