Read the following passage, then answer the questions below

Many teenagers today use social media every day. It has become an important part of their daily routine. Through social media, students can communicate with friends, share photos, and learn about events around the world. Some teachers even use online platforms to post homework and important announcements. However, spending too much time online can cause problems. Some students stay up late at night scrolling through their phones, which affects their sleep and concentration in class. In addition, comparing themselves to others on social media may make them feel unhappy or stressed. On the other hand, social media can be useful if it is used wisely. Students can follow educational pages, watch helpful videos, and join study groups. It allows them to exchange ideas and support each other with school projects. Experts say that balance is the key. Teenagers should set time limits for using their phones and focus on real-life activities such as sports, reading, and spending time with family. By managing their time carefully, they can enjoy the benefits of social media without harming their health or studies.

(Reading Comprehension) (101 Words)

Read the following passage, then answer the following questions

Should we work all the time without having rest or entertainment? The answer is that we cannot go on working without stopping. From time to time, we should stop to have some rest and some recreation to have fun. If we did not, we could make mistakes and our work might get worse.

An overworked person may end up by losing his ability to think clearly and by having no energy to go on working. Sleep is one way by which we can renew our energy. Sports and games are also important for brainworkers, who stay in closed offices and don't have a good chance to exercise their muscles. Swimming, walking and other outdoor activities are excellent and may be very good for all people, so we should not waste our weekends. People should make full use of them by being in the open air places. Having forgotten all about our work and the worries of life, we can then enjoy ourselves to the full and return the next day to work with our energy fully renewed
