.....

Reading comprehension

Read the following passage then answer the questions below:

Everyone has his / her own dream. Children dream of having certain jobs when **they** grow up at a very early age. They start thinking about that even if they are still young. Some of them dream of being doctors, wearing the white coats, working in hospitals and helping the sick people. They always act and play the role of doctors doing their jobs. They imitate them as their ideal heroes.

Others think of being pilots, flying planes, travelling from one country to another and going to different destinations all over the world. They are happy meeting new people and making friends everywhere. Many other children think of being engineers working in building sites, factories or in companies. They build houses and very tall buildings for people. A lot of children dream of being teachers in the future, working in schools and teaching children of different ages.

Whatever your dream is, you should work hard. It is not hard to fulfill your dreams. Always **remember**: " Nothing is impossible, never give up and do your best to make your dreams true. "

.....
15. Ali went to school yesterday . (Negate)
.....

B: Reading Comprehension

Read the following text carefully then answer the questions below:

Crocodiles are large animals that look like lizards but bigger in size. There are more than 10 types of crocodiles around the world. **They** also come in different sizes. These dangerous animals can be found in some parts of Asia, Africa and Australia. They live near swamps, lakes and rivers. They prefer living in hot and warm places.

Crocodiles spend most of their time in the water but they can also travel on land. The skin of crocodiles is very strong. The eyes and the ears of a crocodile are on its head. This will help it see and hear better when most of its body is under the water. It also helps it to surprise and catch animals to eat them.

Crocodiles mostly feed on fish, birds, turtles and other small animals by catching them and pulling them to the water. When a female crocodile is ready to lay eggs, it builds a small nest from mud and dead plants. Some types of crocodiles can lay more than 100 eggs. When they **hatch**, it stays with its babies for weeks to protect them.

A) Choose the correct answer from a, b, c and d: (6 x 2 = 12 Marks)

9-What is the best title of this passage?

- | | |
|----------------------|----------------------|
| a- Types of Animals | b- Dangerous Animals |

B) Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions below:

16

Cobras are one of the most dangerous types of snakes. They are poisonous. They live in the southern parts of Asia and Africa. Some of them live in grasslands, forests or deserts. Some others live in trees or along the shores of lakes. Cobras usually come in a single colour or with spots. **They** also come in different sizes. Cobras change their skin around 4 to 6 times per year.

Cobras usually raise their heads when they are scared and ready to attack. They hunt and look for food in the evening and at night. They feed on birds, other snakes, lizards and frogs. When Cobras lay their eggs, they build a nest to put them in and protect them until they hatch.

There are more than 40 kinds of Cobras. King Cobra is one of the deadliest. It is extremely **venomous** and have enough poison that can kill 20 people. The longest one can reach 18 feet long. They usually live for 20 years and are found mostly in India.

B: Reading Comprehension (16 Marks)

Read the following text carefully then answer the question below:

Sharks are amazing animals that live in the ocean. They are known for their sharp teeth and **powerful** mouths. Sharks have different shapes and sizes, the largest is the whale shark and the smallest is the dwarf shark. They all have a simple shape and strong muscles that allow them to swim very fast. They don't have bones like other fish; instead, their bone skeletons are made of cartilage.

Sharks are one of the oldest kinds that have been living in the oceans for millions of years. Sharks are excellent hunters with a great sense of smell that helps them find their food easily.

Scientists found that sharks are not careful eaters. They eat fish, seals, and other sharks! Some sharks like the whale shark eat sea turtles and dolphins. **They** also found that not all sharks are dangerous to humans. In fact, most sharks are not interested in hunting humans at all.

Sadly, sharks are in danger today. So, it's important for us to save these wonderful animals. We should stop fishing them or damage their homes.

a) Choose the correct answer from a, b, c and d: (6x2=12 marks)
