A Day of Weather Changes

Mariam goes to the park with her family in the morning. The sun is in the sky, and the day feels hot and sunny. She sits under a big tree and sees the green grass around her. Later, dark clouds come. The weather becomes windy and cloudy. Soon, it starts to be rainy, and the children run to sit under the tree again. In the evening, the air feels cold. A little fog covers the park, and Mariam cannot see very far. At night, there is a loud storm, and the weather becomes stormy. Mariam goes home and says, "Today I saw many kinds of weather!"

1. In the morning, the weather is ____.

- A. cold B. hot C. stormy

2. Mariam sits under a big ____.

The Four Seasons in the UAE

UAE Spring

- Spring (March until May) features steadily climbing temperatures.
- At the beginning of spring in March, it is fine to play outdoors.
- By the end of spring in late May, it is too hot to play outside. Temperatures reach 40°C!

UAE Summer

- The longest days and most extreme temperatures happen during this time.
- Children only play outdoors after nightfall.
- Temperatures in Abu Dhabi and Dubai reach up to 45 degrees Celsius with up to 100% humidity. (Humidity is the amount of moisture, or water, in the air.)

UAE Autumn

- Autumn (October until January) has shorter days than summer.
- In the UAE, cool autumn breezes mean many people go camping in the desert.
- The lower temperature causes more foggy days in the UAE, which means flights are cancelled and school begins later.

UAE Winter

- Winter (February through April) begins with cool breezes. However, temperatures begin to get warmer by April.
- Most of the time, it is fine to play outdoors during winter.

spring - summer - autumn - winter

- hot - cool - night - foggy

1. _____ is the season with the longest days and the hottest weather.
2. In summer, it is very _____ during the day.
3. Children only play outside at _____ in summer.

Winter Around the World

I live in Sydney, Australia, so winter in my country starts in June and finishes at the end of August. I like to play football at the beach in winter because there aren't a lot of people.

My family and I live in Dublin, so winter is from November to February. February is the coldest month of the year, but it's the most beautiful season because there is a lot of snow!

Winter can be really cold in my country, but it isn't a problem because I have a big coat that I can wear outside. I love making snowmen and having snowball fights with my friends. My sister doesn't like snowball fights because she thinks they're dangerous!

I love to visit New York during my winter vacation as there are lots of things to do. My favourite activities are ice skating and drinking hot chocolate with my friends! We like to put cream and marshmallows on top.

Winter lasts from May to September here. The temperatures aren't too cold, and you can still do lots of things outside. One day, I'd like to visit a cold country and see snow for the first time. I think it would be an exciting experience.

Choose True or False:

1. Aria says there are a lot of people at the beach in winter.

☐ True

☐ False

2. Sean thinks that winter is the most beautiful season.

☐ True

Plants Around Us

Every plant begins as a small seed. First, we plant the seed in soft soil. Then, we water the seed every day and place it where it can get sunlight. Water helps the seed wake up and start growing. Sunlight helps the plant make its own food. The roots grow under the ground and help the plant take in water and food from the soil. Soon, green leaves grow on the plant. The leaves help the plant stay healthy and grow strong. Finally, a beautiful flower grows on the plant.

1. Where do some plants grow?

- A. only in water
- B. in gardens and outside
- C. only in houses

2. What do plants need to live and grow?

- A. toys and games
- B. water, sunlight, and soil
- C. books and bags

3. What happens when plants get enough water?

- A. They stay green and healthy
- B. They become small
- C. They stop growing

4. What helps plants make their own food?

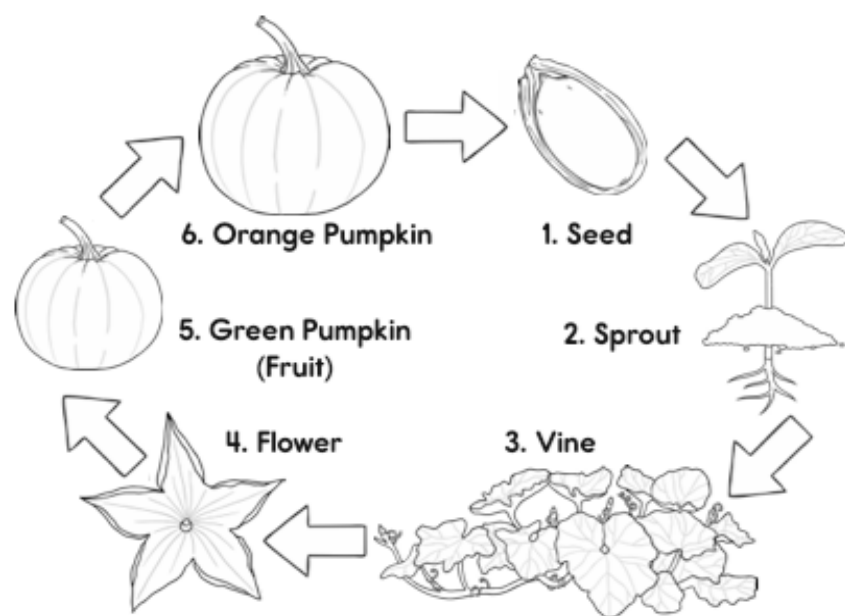

- A. soil
- B. water
- C. sunlight

5. What makes the plant look beautiful?

- A. roots
- B. soil
- C. flowers
