a-unfairly b- effortlessly c- sincerely d- mostly

Reading Comprehension (120-140 words)

Read the following passage, then answer the following questions:

Friendship is one of the most valuable relationships in human life. A true friend understands your feelings, respects your opinions, and supports you during difficult times. Friends share secrets, celebrate success, and offer honest advice when problems appear. **They** listen carefully and try to solve disagreements peacefully. Trust and loyalty make their bond stronger and deeper over time.

Spending time together creates lasting memories and strengthens emotional connection. Although misunderstandings sometimes happen, real friends forgive each other and learn from mistakes. Friendship also teaches patience, kindness, responsibility, and cooperation. In addition, having close friends reduces stress and helps people feel safe and confident. As a result, strong friendships improve mental health and make life more meaningful, balanced, and enjoyable. They encourage positive habits and inspire each other to achieve goals with determination and hope every single day in their lives.

A-) From a, b, c, and d choose the correct answer:

1- The **best title** for the passage could be: ……

a) School Activities b) Healthy Food

c) The Value of Friendship d) Modern Technology

2- The pronoun "**They**" in line **4** refers to: ……

a) problems b) friends c) disagreements d) memories

a-fair b- generous c- necessary d- elderly

Reading Comprehension (120–140 words)

Read the following passage, then answer the following questions:

Chocolate has a long and fascinating history that began thousands of years ago in Central America. The ancient Maya and Aztec civilizations were among the first to discover cacao beans. They used them to prepare a bitter drink for special ceremonies and important leaders. At that time, cacao beans were so valuable that people even used them as money in trade.

In the sixteenth century, Spanish explorers brought chocolate to Europe. There, sugar was added to make it sweeter and more popular. Over time, chocolate factories were built, and new techniques improved its taste and **texture**. By the nineteenth century, solid chocolate bars were produced and sold widely. Today, chocolate is enjoyed all over the world in many forms, including drinks, candies, and desserts.

A-) From a, b, c, and d choose the correct answer:

1- The **best title** for the passage could be: ……

a) Healthy Food b) The History of Chocolate

c) European Trade d) Modern Factories

2- The word "**texture**" in line **8** means: ……

a) the way something feels or looks on the surface b) the color of something

c) the smell of something d) the price of something

B-) Answer the following questions:

a-believe b- admit c- weaken d- activate

Reading Comprehension (120–140 words)

Read the following passage, then answer the following questions:

Car production has changed greatly since the late nineteenth century. The first cars were built by hand, and making one vehicle took many weeks to complete. In the early twentieth century, factories introduced assembly lines to speed up the process. Workers stayed in one place while parts moved along a conveyor belt. This method reduced costs and made cars more affordable for ordinary people.

Over time, technology improved production even further. Robots now perform many tasks such as welding, painting, and installing engines. Engineers design safer and more efficient vehicles using advanced computer systems. Today, car factories operate in many countries and produce millions of **them** each year. As a result, transportation has become faster, easier, and more accessible to people around the world.

A-) From a, b, c, and d choose the correct answer:

1- The **best title** for the passage could be: ……

a) Road Safety Rules b) The Development of Car Production

c) Healthy Transportation d) City Traffic Problems

2- The pronoun "**them**" in line **9** refers to: ……

a) engineers b) systems

c) millions d) vehicles

B-) Answer the following questions:

3- How did assembly lines change car production?

……

4- What has made modern car factories more efficient?

……

Quiz (Four)

Vocabulary

A-) Choose the correct answer from a, b, c, and d:

1- My father …… the parts of the machine last night.

a-realised b- persuaded c- established d- put together

2- That rich woman gave a/an …… donation to charity.

a-elderly b- training c- generous d- environmental

3- Many teenagers follow their favorite …… on social media daily.

a- honesty b- influencer c- pressure d- wealth

4- Nour …… eats healthy food at home.

a-unfairly b- effortlessly c- sincerely d- mostly

Reading Comprehension (120–140 words)

Read the following passage, then answer the following questions:

Climate change is one of the most serious challenges facing the world today. It happens mainly because of human activities such as burning fossil fuels and cutting down forests. These actions increase greenhouse gases in the atmosphere, which trap heat and raise the Earth's temperature. As a result, weather patterns become unpredictable and extreme events occur more frequently.

Rising temperatures cause glaciers to melt and sea levels to **increase**. Many animals lose their natural habitats, and some species face extinction. In addition, droughts and floods affect agriculture and food supplies. Governments and organizations are working to reduce pollution and promote renewable energy sources. Individuals can also help by saving energy, recycling waste, and using public transportation. If people cooperate, they can slow climate change and protect the planet for future generations.

A-) From a, b, c, and d choose the correct answer:

1- The **best title** for the passage could be: ……

a) Natural Disasters b) Healthy Living

c) Modern Technology d) The Causes and Effects of Climate Change

2- The **opposite** of "**increase**" in line **6** means: ……

a) reduce b) fasten

c) widen d) weaken

B-) Answer the following questions:

3- How does climate change affect animals?

……

4- What can individuals do to help reduce climate change?

……

Quiz (Five)

Vocabulary

A-) Choose the correct answer from a, b, c, and d:

1- The teacher …… the experiment clearly to students.

a-realised b- persuaded c- established d- demonstrate

2- Students learned about …… problems at school.

a- environmental b- training c- generous d- elderly

a-edits b- hides c- defines d- appears

4- The boy complained that he was punished ……

a-unfairly b- effortlessly c- sincerely d- mostly

Reading Comprehension (120–140 words)

Read the following passage, then answer the following questions:

Human values are principles that guide people's behavior and decisions in daily life. They include honesty, respect, kindness, responsibility, and cooperation. These values help individuals build strong relationships and create peaceful communities. When people act honestly, others trust **them** and feel safe. Respect allows people to accept differences and live together without conflict. Kindness encourages support and understanding during difficult times.

Moreover, responsibility teaches individuals to fulfill their duties at school, work, and home. Cooperation strengthens teamwork and helps people achieve common goals. Societies that promote positive values often experience stability and progress. Parents and teachers play an important role in teaching these values from an early age. If young people grow up with strong moral principles, they become responsible citizens. As a result, human values contribute to a balanced, respectful, and successful society.

A-) From a, b, c, and d choose the correct answer:

1- The **best title** for the passage could be: ……

a) School Subjects b) Modern Inventions c) Human Values d) Social Media

2- The pronoun "**Them**" in line **4** refers to: ……

a) values b) people c) relationships d) differences

B-) Answer the following questions:

3- How do human values help communities?

……

4- What role do parents and teachers play in teaching values?

……
