Text: Celebrating Traditions in a Modern World

In many cultures, celebrations are an important way to express identity and bring people together. Festivals often reflect the values of a community, showcasing their traditions and customs. For instance, during the New Year celebrations in various countries, families gather to enjoy meals, share stories, and participate in cultural activities. This occasion is not only about festivities but also about respecting family and community ties.

With the rise of technology, celebrations have transformed significantly. Electronic invitations and social media play a vital role in how people plan and attend events. However, some argue that the use of artificial intelligence in organizing events can lead to

a lack of personal touch. While technology can enhance efficiency and reduce expenses, it is essential to balance it with the human element to ensure that celebrations remain meaningful.

In this context, the role of people in maintaining cultural practices is crucial. As societies mature, it is important for representatives of different generations to guide younger members in understanding the significance of their customs. This guidance helps foster optimism about the future while acknowledging the challenges posed by rapid technological advancements.

Questions

1. What is the primary purpose of celebrations in many cultures?
   A) To showcase technological advancements
   B) To express identity and bring people together
   C) To reduce expenses
2. How has technology changed the way celebrations are organized?
   A) It has eliminated the need for traditions
   B) It allows for electronic invitations and social media use
   C) It has increased the cost of celebrations
3. What do some people argue about the use of artificial intelligence in organizing events?
   A) It is always beneficial for celebrations

B) It may lack a personal touch

C) It helps preserve cultural customs

4. Why is the role of people considered crucial in maintaining cultural practices?

   A) They are responsible for reducing expenses

   B) They guide younger generations in understanding customs

   C) They focus solely on technological advancements

5. What is the overall tone of the text regarding the impact of technology on celebrations?

   A) Pessimistic about the future

   B) Neutral, with a focus on efficiency

   C) Optimistic, while acknowledging challenges

Answers

1. B) To express identity and bring people together
2. B) It allows for electronic invitations and social media use
3. B) It may lack a personal touch
4. B) They guide younger generations in understanding customs
5. C) Optimistic, while acknowledging challenges

Text: Embracing Traditions in a Digital Age

In today's fast-paced world, many cultures celebrate their traditions through various festivals and gatherings. These events serve as important occasions for people to connect and reinforce their cultural identity. For example, during Diwali, families come together to light lamps, share sweets, and participate in rituals that honor their heritage.

Technology has also influenced how these celebrations are experienced. Social media allows families separated by distance to share their celebrations online, making it feel like everyone is part of the occasion. While some believe that this trend dilutes the experience, others argue that it promotes inclusivity, allowing more people to participate in traditions.

The challenge lies in finding a balance between embracing new technologies and preserving cultural practices. As the world continues to evolve, it is vital for younger

generations to learn from their elders. This guidance can foster a deeper appreciation for their customs while navigating the modern landscape.

Questions

1. **What role do festivals play in cultural identity, according to the text?**
   - **A) They help people forget their traditions.**
   - **B) They connect people and reinforce cultural identity.**
   - **C) They promote only new technologies.**
2. **How has social media impacted traditional celebrations?**
   - **A) It has made celebrations less inclusive.**
   - **B) It allows families to share their experiences, regardless of distance.**
   - **C) It replaces the need for in-person gatherings.**
3. **What is implied about the relationship between younger and older generations regarding cultural practices?**
   - **A) Older generations are resistant to change.**
   - **B) Younger generations should learn from their elders to appreciate traditions.**
   - **C) Technology makes cultural learning unnecessary.**

Answers

1. **B) They connect people and reinforce cultural identity.**
2. **B) It allows families to share their experiences, regardless of distance.**

3. **B) Younger generations should learn from their elders to appreciate traditions.**

   - A) Through face-to-face meetings
   - B) Through electronic platforms
   - C) By consulting mature traditions
3. **What is one positive view about the impact of technology on customs?**
   - A) It allows for a larger capacity of attendees.
   - B) It leads to a loss of identity.
   - C) It increases expenses.
4. **What concern do some people have regarding the transformation of traditions?**
   - A) That celebrations will become less practical
   - B) That cultural integrity will be compromised
   - C) That technology will become too artificial
5. **Which word best describes the attitude of those who view the changes positively?**
   - A) Pessimism
   - B) Optimism
   - C) Indifference
6. **What is necessary for people to navigate the changes in customs and traditions?**
   - A) Guidance from electronic sources

- B) Respectful engagement with old and new customs
- C) Celebration of all traditions equally

7. **What does the text suggest about the future of cultural identity?**
   - A) It will remain unchanged despite technology.
   - B) It is likely to evolve with the integration of new customs.
   - C) It will be completely lost due to modernization.

Answers

1. **B) Artificial intelligence**

As technology evolves, cultural customs are also transforming, impacting how people celebrate important occasions. For instance, many events are now organized using electronic platforms that increase the capacity for attendees, allowing for more inclusive celebrations. While this shift can be seen as a sign of optimism, there are concerns that the essence of these gatherings may be lost. Some people believe that reliance on artificial intelligence for planning can lead to interruptions in the personal touch that makes celebrations meaningful. It's important to approach these changes respectfully, ensuring that the identity and traditions of the culture are preserved.

Questions

1. **How has technology impacted cultural celebrations according to the text?**
    - A) It has decreased the number of attendees.
    - B) It has transformed how events are organized and increased capacity.
    - C) It has made celebrations less significant.
2. **What is one concern mentioned about using artificial intelligence in event planning?**
    - A) It makes celebrations too expensive.
    - B) It may lead to a loss of personal touch in gatherings.
    - C) It improves the efficiency of planning.
3. **What attitude do some people have towards the changes in cultural customs?**

○ A) Pessimism about losing traditions ○ B) Indifference to technology's role ○ C) A strong belief that technology should be embraced **Answers** 1. **B) It has transformed how events are organized and increased capacity.** 2. **B) It may lead to a loss of personal touch in gatherings.** 3. **A) Pessimism about losing traditions.**

Text 3: The Influence of Artificial Intelligence

Artificial intelligence (AI) is increasingly influencing various aspects of our lives, from agriculture to virtual reality. In farming, AI can analyze data to optimize crop yields, ensuring that food production meets the demands of a growing population. Additionally, virtual reality technology allows people to experience different cultures and customs without leaving their homes. This can inspire individuals to explore new traditions and foster a deeper understanding of diverse lifestyles. However, there is also a discussion about how AI may impact job markets, as some believe that it could replace traditional roles, leading to uncertainty in many fields.

Questions:

1. How is AI impacting agriculture? A) It complicates farming techniques.
   B) It helps optimize crop yields.
   C) It has no significant effect.
2. What does virtual reality allow people to do? A) Avoid learning about other cultures.
   B) Experience different cultures from home.
   C) Focus solely on their local traditions.

3. What concern is raised regarding AI's influence on jobs? A) It will create more job opportunities.

Writing Test: Essay Prompt كتابة مقال

Write a 200-word essay focusing on the following themes: Culture and customs, Technology, and People. Use the vocabulary words: traditional, data, confidence, venue, network, inspired, gather, telecommunications, loyal, host, code, passionate, tribes, social media, competitive, agriculture, virtual reality, modest, belief, artificial intelligence, and influence.

Instructions: In your essay, discuss how technology influences cultural practices and the way people connect. Reflect on the balance between preserving traditions and embracing modern advancements. Be sure to incorporate the vocabulary provided.

The Influence of Technology on Culture and Customs

In today's fast-paced world, technology has woven itself into the fabric of our cultural lives in ways we never imagined. Social media platforms have transformed how we connect,

allowing individuals and entire tribes to gather online and share their traditions. This digital landscape inspires a newfound confidence, encouraging people to express their beliefs and showcase their heritage to a global audience. Many feel a passionate drive to celebrate their roots, using telecommunications to bridge distances and foster connections.

Yet, while technology opens doors, it also presents challenges. The competitive nature of online platforms can leave some feeling modest about sharing their stories and achievements. Traditional customs may sometimes feel overshadowed by the allure of the digital world, raising concerns about authenticity. Virtual reality, for instance, offers exciting glimpses into different cultures but can also

create a disconnect from the genuine experience of those traditions.

Furthermore, advancements like artificial intelligence are reshaping sectors such as agriculture, providing essential data to improve practices. This shift can enhance our understanding of cultural nuances but risks sidelining age-old methods.

Ultimately, as we navigate this blend of tradition and innovation, it’s vital to stay loyal to our cultural roots. By balancing the richness of our customs with the opportunities technology provides, we can preserve our heritage for generations to come while embracing the future.

Reading Passage

The Impact of Technology on Communication

In the modern world, technology has drastically transformed how we communicate. With the rise of digital communication tools, people can connect with each other across vast distances in real-time. From instant messaging and social media platforms to video calls and emails, technology has made communication more accessible than ever before.

One significant development in this area is the emergence of smartphones. These devices not only allow users to make calls but also enable them to send text messages, share photos, and connect through social media. As a

17

result, communication has become more immediate and informal, with the use of emojis and memes enhancing the expression of emotions.

However, the shift to digital communication also has its downsides. The rise of cyberbullying and the spread of misinformation are pressing concerns in today's society. Furthermore, while technology allows us to stay connected, it can also lead to feelings of isolation, as face-to-face interactions may be replaced by virtual ones.

Despite these challenges, the impact of technology on communication remains largely positive. It has facilitated the sharing of information and cultural exchange, making it easier for people to connect, collaborate, and engage in discussions that transcend geographical boundaries.

12. Part 1

Khalid's Big Day

Although my alarm clock was ringing loudly, I was reluctant to drag myself from bed because it was ceremony day, and I was due to receive my diploma. Filled with enthusiasm, Mum banged repeatedly at my door, eager for me to wake up and get ready for the event which I had been fearing for days. Although I blocked my ears, I could still hear a familiar singing voice filling up the house like a cloud of thick smoke. I was quite certain it must be Aunt Maryam.

It was obvious by their behavior that they were more concerned about today's ceremony than I was.

"Leave me alone, please," I begged.

They deliberately ignored my request, and both continued banging aggressively at my door. Filled with a huge wave of frustration, I pulled open the door, shouting, “Mum, stop! You are being rude.”

“You don’t want to go do you? Khalid, this degree you completed is reported to be one of the most complex courses in the country and above all, your test scores, which you won a variety of trophies for, are among the best in the region. Your determination has resulted in you becoming a fully qualified medical professional. This certificate is the reward you so very much deserve,” she responded, in a startlingly direct manner.

I was certain, if the universities had sent the invitations earlier, giving us more notice, my father would have been able to book a flight in time and that’s what was causing me the most disappointment. My father is certainly more interested in my educational studies than any of his current work projects in Europe and would love to be here. I was heartbroken, but I wanted to please my mother, so I attended the ceremony anyway.

“Khalid Al Ali!”

I nervously approached the stage, guided by the bright lights, I felt a firm pat on my right shoulder.

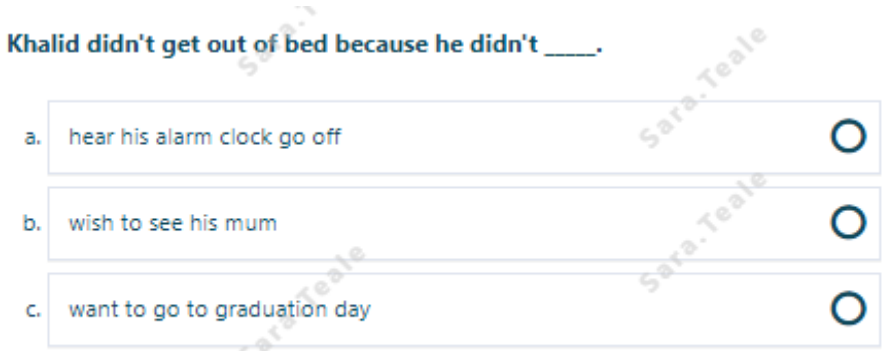

It must be Ahmed from biology. He is one of the most annoying boys in school and often hits people in class, I thought.

“Congratulations, my son.”

It couldn’t be. Could it? I thought.

“You made it!” My eyes lit up with delight. There he stood, the man who’d looked after me my whole life, teary eyed but bursting with pride.

26. Alternative Energy Now!

27. Alternative Energy Now! is being released to encourage global leaders to do more to tackle complex factors, such as overpopulation of urban developments, which are resulting in rising temperatures. The documentary looks at the alternative energy sources that are being employed by nations in order to battle the climate crisis and focuses mainly on the countries which are more interested in making real change than others. One of the most concerning aspects of the documentary is that a report stated some of those in global positions speak positively for change and share their innovative ideas during global climate meetings. However, when it comes to implementing these projects, they do very little. What shocked me the most was the report that suggested if countries had, in fact, studied the data in the early nineties when concerns were raised, we would have a much more positive outlook today. Spoiler alert: Experts predict a frightening future.

The documentary explains how wind energy is thought to be among the best and cleanest energy sources because it has little negative impact on the environment, and therefore, reduces the reliance on sources that create fossil fuels. In China and the US, wind turbines are being placed in coastal regions, open plains, and mountains areas, making them a constant source of energy from the continuing high winds. The turbines gather kinetic energy through air in motion and use it to generate electricity.

More good news! Roofs are being replaced with greener options across American cities to combat rising temperatures. In 2001, Chicago covered 20,000 square feet of its city hall roof with vegetation. It was reported to have made a 50-degree difference in temperature to the building, which resulted in a reduction in cooling and heating costs and overall energy demand in comparison to a nearby tar roof building.

Solar power is believed to be more popular with individual households today than other energy sources. This might be because it was reported by a European government that installing the panels can also make homes more cost efficient. Although solar panels are easily accessible, meaning people can take more control of their energy use rather than relying on large scale government projects such as wind farms, they are extremely costly and only produce energy for half the day due to reliance on sunlight.

28.

29.

The documentary states that cities are heating up at a faster rate due to the ____.

a. absence of climate change initiatives

b. lack of alternative energy sources

c. growth of the population

30.

A number of world leaders ____ when it's time to put climate initiatives in place.

a. are lazy and uninterested

b. appear enthusiastic and positive

c. often share their ideas

31.

*******BONUS*****The author was surprised by the report because countries didn't ____.**

a. review the statistics earlier

b. have a positive outlook

c. predict this negative outcome

32.

33. **What is the main focus of paragraph 2?**

a. the harmful emissions generated by China and the US
b. the actions taken to generate clean energy
c. the negative effect of a renewable energy technology

a. solar panels
b. roof vegetation
c. wind technology

35. **What is being installed on top of urban buildings to battle temperature increases?**

a. wind turbines
b. tar roofs
c. plants

According to the author, solar power is becoming more commonly known because ____.

a. solar panels are said to be more economical

b. government-run alternative energy initiatives are too slow

c. the panels are not expensive to buy

36.

According to the documentary, what is a significant difference between solar energy and wind energy?

a. Solar energy is more widely used in the US and China than wind energy.

b. Solar energy is less efficient than wind energy.

c. Solar energy makes homes more cost efficient, unlike expensive wind-powered homes.
