Reading Comprehension (16 Marks)

Read the passage then answer the questions below:

There was a young boy named Reki. He liked one food the most in this world. It was pancakes. Reki could eat pancakes all day and he refused to touch any other food except for pancakes. He used to eat pancakes for breakfast, for lunch and for dinner. Reki was so much in love with pancakes that he would not eat anything healthy. His mother was worried about her son's getting fat. If Reki kept eating more pancakes, his health would be in danger.

One day, Reki's mom got a brilliant idea. She went to the kitchen and started preparing a new dish of yummy pancakes which is good for his health. When she served it to her son, he was so delighted that he quickly **gobbled up** all the pancakes and asked for more. Reki's mom laughed as she knew what special ingredient she had added to that dish. She added healthy veggies, fresh fruits and oils to his favourite food. She also mixed butternuts with the pancakes. Disneyland is known as “the happiest place on earth”. Disney was opened in 1955 in California. Walt Disney is the man who made the dream come true. He imagined making a big fun park to amuse people coming from all over the world, where families enjoy the shows and the games. As a child, Walt Disney enjoyed drawing and even sold pictures to his neighbours. He went to Hollywood and started making short cartoons there.

Disney began to enjoy success with his cartoons. He created “Micky Mouse”, the most famous cartoon character ever. Then in 1937, “Snow White and the Seven Dwarfs” was filmed and it was a great success too. Disney made many films that we still watch today like Pinocchio, Bambi, Peter Pan, and more. Disneyland Park has nine different lands inside. One of them is called “ Tomorrowland ”, it was mainly made for children to show science and inventions in the future. Did you know that there are twelve Disney Parks worldwide located in four countries? And that the park has amused more than 515 million visitors since opening!

B) Reading Comprehension (16 Marks)

Read the following passage carefully, then answer the questions below:

16

Have you ever seen fireflies? Fireflies are small insects. You can't see them in any season except summer. The lights made by fireflies are one of the most amazing things to see on a summer night. There is a part that can make light under a firefly's stomach. Fireflies take in air and use it to make light with special parts in their bodies. Different kinds of fireflies have their own special light patterns, just like people have different languages. They use these light patterns to find other fireflies in their group. Fireflies mainly use light to get friends' attention. **They** also use light to frighten other insects.

If you haven't seen many fireflies lately, you are not alone. The number of fireflies is becoming less because of some reasons, such as factories' smoke and bad weather. Another important reason is that fireflies don't have many **safe** living places. Luckily, Chinese scientists found three new firefly kinds in Yunnan a few years ago. Yunnan might have the best place for these insects to live in.

a. Choose the correct answer from a, b, c and d: (6 x 2 = 12 Ms)

B- Reading Comprehension (16 Marks)

- Read the following passage carefully, then answer the questions that follow:

Horses are beautiful animals. They have different colours and can run quickly. People like to watch horses because they are strong. Young horses are called foals. A baby girl horse is called a filly, and a baby boy horse is called a colt. After 4 years, a horse became an adult. Many people think a pony is a young horse, but that is not true. A pony is a kind of horse that does not grow very large.

Horses can live up to 20 or 25 years. Sometimes people can tell how old a horse is by looking at its teeth! Horses only need about three hours of sleep per day! Horse hooves are like our fingernails, which need to be clipped. For food, horses eat grass, corn, apples, and carrots. They sleep standing up, so they can run away quickly if a wild animal comes near or when they feel danger. They are herbivores, meaning they only eat plants. Their stomachs are small, so they need small feedings.

B: Reading Comprehension (16 Marks)

Read the following text carefully then answer the question below:

Sharks are amazing animals that live in the ocean. They are known for their sharp teeth and **powerful** mouths. Sharks have different shapes and sizes, the largest is the whale shark and the smallest is the dwarf shark. They all have a simple shape and strong muscles that allow them to swim very fast. They don't have bones like other fish; instead, their bone skeletons are made of cartilage.

Sharks are one of the oldest kinds that have been living in the oceans for millions of years. Sharks are excellent hunters with a great sense of smell that helps them find their food easily.

Scientists found that sharks are not careful eaters. They eat fish, seals, and other sharks! Some sharks like the whale shark eat sea turtles and dolphins. **They** also found that not all sharks are dangerous to humans. In fact, most sharks are not interested in hunting humans at all.

Sadly, sharks are in danger today. So, it's important for us to save these wonderful animals. We should stop fishing them or damage their homes.

Libraries are very important places where all people can get information and knowledge. They have different kinds of books, dictionaries and stories. The very earliest libraries were built five thousand years ago. School libraries play a great role in all school members' lives because they improve students reading and thinking skills. They help students be smart and creative. Libraries help students to learn better as they make learning programmes rich and interesting. They also help teachers get all kinds of information they need to teach their lessons well.

At the library there will always be someone to help you find what you want. This person is called the librarian. A library without a librarian is just a collection of books. It is the librarian who brings it all together. He can help you find different books about any subject you want or information you need from magazines, newspapers or even on the Internet.

Modern school libraries are different from old ones as they have comfortable furniture, beautiful decoration, technology and computers to make it easy for students to sit, relax, and read e-books too.
