- share information and opinions

What are the disadvantages of mobile phones?

- overuse of mobiles can waste our time.
- bad for health and affect our study
- affect the social relationships.
- using it while driving can cause accidents

Festivals

What could be more exciting than spending time with your beloved people in a special occasion. Last month I had the opportunity to attend one of the most dazzling festivals in Kuwait 'Hala February festival'. I enjoyed many things and activities. Also, I discovered the importance of such events.

During the festival I was amazed with the delightful atmosphere everywhere. fantastic decorations are everywhere. Streets are full with large balloons that had the Kuwaiti flag colours. Houses are decorated with huge flags. Dazzling lights are shining all nights. The Kuwait Towers shined with lights. Everyone is happy by the patriotic feelings. It was fantastic to take part in one of the marches and I enjoyed the fireworks display so much. I tried many new things and I was so excited. The shopping extravaganza is one of the features of the festival.

The benefit of festivals is not only for people, but for the whole country as well. These celebrations reflect a good image of the country and its culture. They flourish the economy and tourism. Social relations become strong in festivals and people come together socially. Festivals are dazzling occasions.

To sum up, it was a special experience for me to attend that festival. I advise everyone to attend festivals and get yourself a memory that will last forever.

A Family celebration

What could be better than spending nice time with family members and friends? Family celebrations are the best chance to meet with your beloved ones. Last week we had our brother's birthday party and it was really fantastic.

Before the party, we sent the invitations to our family members and our close friends. During the day of the celebration, me and my brother decorated the house with balloons. Of course, my mother prepared the food, the drinks and the birthday cake. During the party, we all enjoyed wonderful time; playing games, singing and dancing. My father showed us a short video about my brother's life and it was so funny. We blew the candles and gave my brother some gifts and he was so excited. The party was really wonderful and we enjoyed every moment of it.

Family celebrations add a lot of fun to life. As we celebrate, we allow the stresses of life to fall behind and we spend our time doing things we love with the people we love. Family celebrations are a great way for family members to catch up on relatives' lives and develop friendship.

To sum up, I want to say that it was a special experience for me to attend that party. I advise everyone to attend festivals and get yourself a memory that will last forever.

My favourite meeting place

What could be more exciting than spending nice time with your beloved people in your favourite meeting place? I want to share you my description of my favourite meeting place “Marina Mall”.

Whenever we have much time, me and my friends find ourselves in this fantastic place. What I like most about Marina Mall is that we can do many things there. Having a rest in one of the famous cafes is a good idea. We sit and enjoy watching TV, playing games or chatting about different issues. In Marina Mall you can’t get bored. If you are interested in shopping, you can go and wander in the shopping area where you can buy whatever you want or just enjoy the window shopping.

Crossing the bridge and walking on the beach area is something special for Marina Mall. There, you can enjoy the beautiful landscape and free your mind from all your worries. There are many restaurants and cafes by the sea where you can get some rest.

Finally, whenever I go east or west, this place remains the best for me and my friends. I hope to go there forever and enjoy the beauty of this unique place.

My dream cell phone

From the iconic Nokia 3310 of the early 2000s to the latest versions of Galaxy and I-phone, smartphones sure have come a long way. However, we believe the best is yet to come. In this essay I want to describe my dream cell phone and the different uses of such device.

My mobile will have unique features. First, my dream phone will be as small as watches. With Nano technology, the battery can be charged from 0 to 100 percent in less than a minute. The design of the future mobile will be amazing and attractive with high-resolution screen. Such phones will make calls based on users’ thoughts. Mirrorless cameras will have amazing 4K capabilities that they can really challenge cinema cameras.

Future mobiles won’t be just to communicate with people or sending messages. Smart phones will be the remote control of our life. We can use them as a portable computer. We can pay for things and operate everything at home by just a click. Mobiles will be our learning window and help people travel into space.

To sum up, in our modern life, mobiles are in the hands of all people, but in the future cell phones will become an anytime, anywhere tool to control our life.

My dream college

Everyone's dream since young age is to join his dream college. Joining your college is a milestone in all students' life. There are many things that we dream to have in our college.

Most students prefer quiet places, but for me I want my college in a big city near all the services. The building must be spacious and modern. We need green spaces between areas and the lecture rooms. A big library is important to get books and well-equipped labs are important for experiments.

A college is not a place for studying only; we need other facilities to keep students interested and avoid boredom. We need a nice cafe, playgrounds and theatre. We need some activities such as competitions, so that students can express their talents.

Finally, in a college we spend a very important phase of our life, so we need to enjoy every moment we spend there. It is not just lectures and exams, it is the memories that we will remember forever.

Picnic with Family (Camping trip)

What could be better than spending nice time with family members and friends? Last week, my family went to a picnic at a park. In the following lines, I'm going to describe what had happened on that amazing picnic.

The happiness that filled the place amongst the family was at its highest while preparing for the picnic. All family members were excited for this outdoor adventure. Finally, the day had arrived. We all set off for the picnic. The car was full of equipment and foodstuff. As soon as we reached our park, the beauty of the park welcomed us with a cool breeze on our faces. Upon arrival, the children started crying with excitement.

When we arrived, we laid the mats on the grass. The kids scattered in the place, playing and shouting merrily. I engaged in taking photos. After spending some time playing in the play area, we had to struggle a lot to take the children out because it got dark. Men and women were sitting on the mats talking, eating and drinking all the time. What a happy time it was during a picnic with my family. Spending such times with the family brings happiness, enjoyment and fun. Moreover, our family relationships got stronger and children learn to share responsibility.

Ultimately, though the picnic was over, it is still vivid in our memories. All the good times we spent together will be there in our memories. So, try to plan your next picnic with family to rejoice your love, bonding, and happiness together.
