Final Revision
Reading Comprehension(1)

Read the following passage then answer the questions below:

In Bangladesh, many students cannot get to school regularly because of the common floods in the areas where students live. What can be done for students who cannot go to school as a result to the common floods? On solution is to bring the school to them.

Floating school are schools on boats that travel to different areas in Bangladesh. Floating schools mean that even when students' houses are sounded by water, students can still go to school. They swim to the boats and then climb abroad. These boats are equipped with desks, books, and even computers. The computers are powered by solar energy-this is the energy that comes from the sun and is used to create electricity.

Floating schools may be only the beginning for changes for this area in Bangladesh. The man who created these schools intends to create all types of floating stations: floating libraries, floating hospitals, and even floating gardens. As a result of common floods, experts predict that 20% of the land in Bangladesh could be underwater by 2025. People who are living in these areas cannot move to a different part of the country because the country is already very crowded and there is not enough room for all those people. Since the flooding in Bangladesh will likely get worse, some people have decided it is time to find out how to live on water.

A. Choose the correct answer from a, b, c and d:

1- The best title for the passage could be

- | | |
|---------------------|-------------------------|
| a. Stusents' Houses | b. Floating School |
| c. Hospital by 2050 | d. Swimming Under Water |

2. The underlined word "intends" in the 3rd paragraph means.....

- | | | | |
|----------|--------------|----------|-------------|
| a. lacks | b. overcomes | c. plans | d. achieves |
|----------|--------------|----------|-------------|

3. The underlined pronoun “**They**” in the 2nd paragraph refers to

- a. areas b. houses c. students d. schools

4. Experts predict 20% of the area in Bangladesh could be underwater by 2050 because of:

- a. floods
b. boats
c. electricity
d. solar energy

5. According to the passage, all the following statements are True except.....

- Floating schools can travel to different areas.
- Some houses in Bangladesh are always surrounded by water.
- Computers on floating boats are powered by solar energy.
- Teachers will swim to students' houses when it is flooding.

6. The purpose of the writer is to.....

- Persuade readers to study abroad.
- Predict why people travel to different places.
- encourage readers to build houses in Bangladesh.
- Inform readers about floating schools in Bangladesh.

B. Answer the following questions, according to the passage:

7. What equipment do students need in floating schools?

.....

8. How do students reach their floating schools?

.....

Reading Comprehension(2)

Read the following passage then answer the questions below:

Have you ever entered a rainforest? it is a special, dark place where trees grow very tall and millions of animals, insects, and plants live and grow there. A rainforest is found in hot and humid parts of the world. It rains a lot there. Trees grow so closely that their branches and leaves slow the rain to reach the ground.

Rainforests are about 6% of Earth's surface. The largest rainforest and the most enormous is the Amazon in South America. It covers almost five million square kilometers. The second largest rainforest is in Western Africa. There are also rainforests in America, Asia, Australia, and pacific Islands.

Rainforests provide us with many things. Half of the world's species of animals and plants live in the rainforests. Eighty percent 80% of the food we eat first grew there. Twenty- five percent 25% of the medicine we take when we are sick is made of plants that grow only in rainforests. The Amazon Rainforests is called the "lungs of our planet" because (1/5) of the world's fresh water.

With all the good things we get from rainforests, we are destroying them. People cut them down to make fields for cows or to grow plants. Destroying rainforests will result in more pollution , less rain, and less oxygen for the world.

A. Choose the correct answer from a, b, c and d:

1. What is the **best title** for this passage?

- a. Rainforests b. pacific Islands c. Western Africa d. Species of Animals

2. The underlined pronoun "**their**" in the 1st paragraph refers to :

- a. trees b. parts c. insects d. animals

3. The underlined word "**enormous**" in 2nd paragraph means very:

- a. calm b. huge c. happy d. noisy

4. The Amazon Rainforests is called the "lungs of the planet" because it:

- a. makes us feel sick b. uses much oxygen
b. provides us with oxygen d. gives us all the water we drink

5. **ONE** of the following statements is **Not True** about rainforest.

- a. Tens of kinds of animals live there
- b. 80% of the food we eat first grew there.
- c. 25% of the medicine is made of plants from there
- d. They are found in America, Asia, Australia, and Pacific Ocean.

6. The purpose of the writer in the passage is to:

- a. Inform us about the Earth's surface.
- b. tell us some facts about rainforests.
- c. entertain us with a story about forest animals.
- d. advise us to grow plants instead of rainforests.

B. Answer the following questions, according to the passage:

7. Why do people cut rainforests down?

.....

8. What are the bad results of destroying rainforests?

.....

Answers

Reading Comprehension (1)

Read the following passage then answer the questions below:

In Bangladesh, many students cannot get to school regularly because of the common floods in the areas where students live. What can be done for students who cannot go to school as a result to the common floods? One solution is to bring the school to them.

Floating schools are schools on boats that travel to different areas in Bangladesh. Floating schools mean that even when students' houses are surrounded by water, students can still go to school. They swim to the boats and then climb aboard. These boats are equipped with desks, books, and even computers. The computers are powered by solar energy-this is the energy that comes from the sun and is used to create electricity.

Floating schools may be only the beginning for changes for this area in Bangladesh. The man who created these schools intends to create all types of floating stations: floating libraries, floating hospitals, and even floating gardens. As a result of common floods, experts predict that 20% of the land in Bangladesh could be underwater by 2025. People who are living in these areas cannot move to a different part of the country because the country is already very crowded and there is not enough room for all those people. Since the flooding in Bangladesh will likely get worse, some people have decided it is time to find out how to live on water.

A. Choose the correct answer from a, b, c and d:

1- The **best title** for the passage could be

- a. Students' Houses
- b. **Floating School**
- c. Hospital by 2050
- d. Swimming Under Water

2. The underlined word "**intends**" in the 3rd paragraph means.....

- a. lacks
- b. overcomes
- c. **plans**
- d. achieves

3. The underlined pronoun "**They**" in the 2nd paragraph refers to

- a. areas
- b. houses
- c. **students**
- d. schools

4. Experts predict 20% of the area in Bangladesh could be underwater by 2050 because of:

- a. **floods**
- b. boats
- c. electricity
- d. solar energy

5. According to the passage, all the following statements are True except.....

- e. Floating schools can travel to different areas.
- f. Some houses in Bangladesh are always surrounded by water.
- g. Computers on floating boats are powered by solar energy.
- h. **Teachers will swim to students' houses when it is flooding.**

6. The purpose of the writer is to.....

- e. Persuade readers to study abroad.
- f. Predict why people travel to different places.
- g. encourage readers to build houses in Bangladesh.
- h. **Inform readers about floating schools in Bangladesh.**

B. Answer the following questions, according to the passage:

9. What equipment do students need in floating schools?

They need desks, books and even computers.

10. How do students reach their floating schools?

They swim to the boats and then climb aboard.

Comprehension 2

Read the following passage then answer the questions below:

Have you ever entered a rainforest? it is a special, dark place where trees grow very tall and millions of animals, insects, and plants live and grow there. A rainforest is found in hot and humid parts of the world. It rains a lot there. Trees grow so closely that their branches and leaves slow the rain to reach the ground.

Rainforests are about 6% of Earth's surface. The largest rainforest and the most enormous is the Amazon in South America. It covers almost five million square kilometers. The second largest rainforest is in Western Africa. There are also rainforests in America, Asia, Australia, and pacific Islands.

Rainforests provide us with many things. Half of the world's species of animals and plants live in the rainforests. Eighty percent 80% of the food we eat first grew there. Twenty- five percent 25% of the medicine we take when we are sick is made of plants that grow only in rainforests. The Amazon Rainforests is called the "lungs of our planet" because (1/5) of the world's fresh water.

With all the good things we get from rainforests, we are destroying them. People cut them down to make fields for cows or to grow plants. Destroying rainforests will result in more pollution , less rain, and less oxygen for the world.

A. Choose the correct answer from a, b, c and d:

1. What is the **best title** for this passage?

- a. Rainforests b. pacific Islands c. Western Africa d. Species of Animals

2. The underlined pronoun "**their**" in the 1st paragraph refers to :

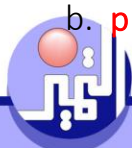

- a. trees b. parts c. insects d. animals

3. The underlined word "**enormous**" in 2nd paragraph means very:

- a. calm b. **huge** c. happy d. noisy

4. The Amazon Rainforests is called the "**lungs of the planet**" because it:

- a. makes us feel sick b. uses much oxygen
b. **provides us with oxygen** d. gives us all the water we drink

5. **ONE** of the following statements is **Not True** about rainforest.

- a. **Tens of kinds of animals live there**
- b. 80% of the food we eat first grew there.
- c. 25% of the medicine is made of plants from there
- d. They are found in America, Asia, Australia, and Pacific Ocean.

6. The purpose of the writer in the passage is to:

- e. Inform us about the Earth's surface.
- f. **tell us some facts about rainforests.**
- g. entertain us with a story about forest animals.
- h. advise us to grow plants instead of rainforests.

B. Answer the following questions, according to the passage:

9. Why do people cut rainforests down?

People cut down to make fields for cows/ or to grow plants.

10. What are the bad results of destroying rainforests?

It will result in more pollution/ It will result in less rain. /It will result in less oxygen for the world.
