Reading Comprehension

Directions:

Read the following passage, then answer the following questions.

1. Have you ever thought about the benefits of reading? In the past years, the use of television and the internet has increased; this situation has caused many people to change their likes and the way they enjoy their free time. Because of television and the internet, many people spend less time reading, so the purpose of this essay is to present reasons why people should read more.
2. The first reason that I give you to enjoy reading is that when you read, you can expand your knowledge. There are several good books in which you can find history, tragedies, comedies, and a variety of other themes. You can see that people who read more often frequently have bigger knowledge of life.
3. The second reason to read more often is travelling through books. You can have fun, and even parents can read a lot of tales to evoke their children's imagination. Adults should try to keep this ability so they don't forget the importance to use imagination. Imagination represents a tool that could help you develop your professional career in a creative way.
4. The third and the most important reason is that you can always expand your vocabulary and the ways to express your ideas to the others in a simple and correct way. You can improve the communication by reading higher leveled books. This will allow you to gain greater fluency in your communication.
