2- READING WORKSHEET

GRADE 7

Read the passage bellow carefully, then answer the questions that follow

To my students,

My name is Fred and I am 50 years old now. For many years, I dreamt of my dream job of being a pilot and a doctor at the same time!

Dream job didn't mean having a high salary, being famous and having a high position. My friend Ali dreamt of being a manager in a big company so that he can buy a big house, own a car with a well-known brand name or have gorgeous meals in big restaurants. But having a comfortable life wasn't my life goal.

Unlike other people, I loved a job which is related to my interest, meaningful and challenging. I wanted to be a pilot. I wanted to be a doctor. I wanted to travel around the world, searching **the needy** who are struggling in poverty and diseases. My dream job was related to flying and medicine.

A pilot needs to be good at mathematics and mechanics. I was interested in both topics. On the other hand, being a doctor needs to be good at science. I could treat people and help them fight their diseases. At the same time, I will show my care and love to the patients.

Travelling around the world to help the sick people created challenges for me. I needed to learn a wide variety of languages and got used to the environment of other countries.

This was my dream when I was a student. Now, I work as a school teacher. I always tell my students that **they** must be hard-working and prepare for their future, because there are a lot of challenges in life. They need to be confident and courageous to face all the difficulties.
