Read the following then answer the questions:

A kangaroo is a beautiful mammals. There are many kinds of kangaroos in the world. The red Kangaroo is the largest one. It is as tall as a person. It's about 180 cm tall and 80 kg weight. It has got large and strong legs, but it has a small head. It has got a long tail. Its tail protects the kangaroo from falling. Also, a kangaroo can balance on its tail. Most kangaroos live in Australia. It is very important for most of Australian people.

Every kangaroo has got a pouch. A kangaroo keeps its baby in the pouch. Female kangaroos feed their babies milk. The baby kangaroo is called Joey. Many of the smaller species are endangered. Kangaroos eat only plants because they are herbivores. They can live to the age of eighteen years. Many people hunt them for their meat. We can see kangaroos only in the zoo.
