Reading /Comprehension 1

Directions: Read the following passage about “Jogging,” and then answer the questions.

Jogging

(1) My first piece of advice to people who want to start getting fit is: don't buy an exercise bike. Typically, people who buy them use them for a week or so and then forget about them. They are effective if they are used regularly but you need to be determined. Most people will find it much easier to go for a gentle jog around the park.

(2) As well as being easy to do, jogging is also relatively cheap compared to most other sports. You don't need to buy expensive clothes if you're just going running around the park or on the beach. The main thing is that they're comfortable, and that they keep you warm in the winter and cool in the summer.

(3) There is one piece of equipment, however, that you will have to spend time and money on, and that's your running shoes. Remember that you are not looking for a fashion item, but for something that will support your feet and protect you from injury. They can be expensive, but if they are good quality they will last you a long time. It's always best to get expert advice, and the best place for that is a sports shop.

As for the actual jogging, the secret is to start gently, and not to do too much at the beginning – especially if you haven't had any exercise for a long time. Try a mixture of walking and running for ten minutes about three times a week at first. Once you are happy doing that you can then start to increase the amount you do gradually. After a few months you should hope to be able to run at a reasonable speed for twenty minutes three or four times a week.

(4) It's important that you feel comfortable with whatever you do. If you do, you'll start to enjoy it and will probably keep doing it. If it makes you feel uncomfortable, you'll probably stop after a short time and return to your bad habits. In any case, training too hard is not very effective. Research has shown that somebody who exercises for twice as long or twice as hard as another person doesn't automatically become twice as fit.

1-There was an old man living in his village. He had four sons and they were very lazy. The old man fell sick and was counting his last days in bed. He worried a lot about his sons' future, so he decided to talk to his sons about their future. However, his sons did not listen to him. The old man played a trick to let their sons realize the importance of work.

2-One day, the clever old man called all his sons and let them sit near him in his bed. He said he had a treasure box with gold coins and expensive gems for them and wanted to share the treasure equally and lead a happy, prosperous life. The young men were very happy and asked where his father placed the treasure. The brilliant old man replied them 'I cannot exactly remember the place where I had hidden the treasure. However, the treasure box is buried in our land. I'm really not sure about the place where I had hidden the treasure box.'

3-Even though the lazy young sons were happy, they were sad that the old man forgot the place where the treasure was hidden. After a few days, the old man died. The sons decided to dig the land to find the treasure box.

4-They worked very hard and dug their land. They could not find any treasure box in the land. They decided to dig a spot in their land that remained a bit different from the rest of the area. The sons believed that the treasure was buried in that spot. They dug the specific spot so deeply, got nothing but water.

5-A passerby who noticed the dug land and water flowing from a spot talked to the sons about agriculture. They sowed vegetable seeds, planted greens, and flower plants in their land. Within a few weeks, the land became a fertile garden with nutritious vegetables and greens. The young sons sold the vegetables at a good price and earned a good amount of money.
