2 Comprehension

Read the emails below and complete the table.

Name	Age	Country	City	Family	Favourites
Ahmed	Two sisters
Dan	Australia
Lucy	Zoo

Dear Mark,
 How are you doing? I hope you are doing well. I'm Ahmed. I'm from Al-Jahra, Kuwait. I'm thirteen and I've got two sisters. Their names are Eman and Noura. Eman is eight and Noura is fourteen. I like school and love sports. My favourite football team is the Kuwait National Team. I've got a personal tablet which I use for reading about sports and doing other school tasks. Have you got any brothers or sisters?
Yours, Ahmed

Hi Ali,
 I'm Dan. I'm twelve. I'm from Melbourne, Australia. I had a car accident when I was seven. I was with my parents, my baby brother and my older sister. I broke my left hip, and although I had three operations, I still can't walk so I use a wheelchair. Being in a wheelchair didn't limit my abilities; it rather helped me to see the world in a completely different way. I have many hobbies; my favourite is listening to audio stories.
Best wishes, Dan

Hello Fatma,
 I'm Lucy from Kansas in the USA. I'm twelve. I've got two brothers and a sister. My brothers' names are Alan and Richard. Alan is fifteen and Richard is only five. My sister, Noreen, is twenty, she is a chess champion. I love animals and enjoy going to the zoo. I've got a pet goldfish! My favourite place to visit is the zoo.
Kind regards, Lucy

Mud Houses

Old Kuwaiti houses were made using rocks and mud. They had a spacious courtyard in the middle where the family would usually get together. The roof was made of 'Jandal' which is strong wood.

Igloos

An igloo is a temporary home for Inuit people in the Arctic. It is easy to build out of ice blocks, and has got a fire in the middle. It is warm, comfortable and very safe, especially against storms.

Wooden Houses

In Poland, the tradition of wooden homes is 1,000 years old. Wooden homes are easy to build with trees. They are eco-friendly and healthier to live in. They are naturally warm in winter and cool in summer.

Read the article and write a sentence about each type of houses.

2 Comprehension (Cave Diving)

 Read the story and decide if the sentences are true (T) or false (F).

1. Yaser plays tennis, but Ahmed does not. ()
2. Yaser wants to try cave diving. ()
3. Ahmed's equipment is very heavy. ()
4. Ahmed feels cold in the water. ()

Ahmed loves all kinds of sports. He plays in the school football team. His best friend, Yaser, plays in the team, too. Both of them can play tennis. Ahmed is also very good at swimming.

One day, Ahmed and Yaser saw a programme on TV. It is about a new sport called cave diving.

Ahmed: I want to try that!

Yaser: It looks dangerous to me.

Ahmed: I need good equipment and a good teacher, that's all.

It is the day of Ahmed's first cave dive. His diving equipment is very heavy. He holds a coloured blue line to show him where to

swim. He follows his teacher. He dives down into a very big cave.

The water is warm. The cave is quite dark. He can see his teacher's light in front of him. Then, suddenly, he can't see the light. Ahmed is afraid! Does he follow the teacher? No! He holds the blue line and waits. He waits for five minutes, but it feels like a long time. He remembers two important things. One: don't leave the line. Two: don't follow, think!

His teacher comes back. Ahmed is very happy. Together they swim out of the cave to safety.

Date of birth: 13 May 1994

Place of birth: Kuwait

Nationality: Kuwaiti

Sport: Wheelchair racing

Sky is the Limit

RIO DE JANEIRO, Sept 11, 2016 (KUNA):

Ahmad Al-Mutairi came first in the men's 100 m race at the Rio 2016 Paralympics.

Ahmad Al-Mutairi is a Kuwaiti para-sport athlete who has broken numerous world records in wheelchair racing. Al-Mutairi was introduced to sport while at school, playing wheelchair basketball. One of his PE teachers saw potential in Almutairi and suggested that he joined the Kuwaiti Sports Club for the Disabled. Initially he joined the basketball team, but after five months, one of the trainers advised him to try other sports. Almutairi tried out wheelchair racing and found that he excelled at the sport. In 2009 he entered his first track and field competition, held in the United Arab Emirates.

In 2011, he took part in the World Championships in New Zealand. In 2012, Al-Mutairi was selected for the Kuwait team at the Summer Paralympics in London. The next year, Al-Mutairi travelled to Lyon to compete in the 2013 Athletics World Championships. His first major medal success came the following year at the 2014 Asian Para Games in South Korea where he was able to win two silver medals. Throughout 2015, Almutairi continued to improve his times, and set a new world record in Switzerland. Later that year he represented Kuwait at his third World Championship, in Doha, Qatar. In the final he set a championship record of 17.53 to beat his nearest rival by over a second and a half.

7 Read the article and decide if the following sentences are true (T) or false (F).

1. Ahmad Al-Mutairi first played wheelchair basketball. ()
2. He received two silver medals in 2014. ()
3. He won the 200 m race at the Rio 2016 Paralympics. ()
4. He started taking part in competitions when he was 14. ()

School Life

Reading

Before you read

Think of your regular school day. What do you do every day?

@ Tom is 13 years old. He's from England. Look at his school day and decide whether these sentences are true (T) or false (F). Correct the false ones.

- 1. Tom gets up at five o'clock. ()
- 2. His father takes him to school at 6:30. ()
- 3. He has lunch in the school canteen. ()
- 4. He goes to painting classes in the afternoon. ()

05:30 The alarm clock rings. I have to get up. I take a shower. Then I go to the kitchen to prepare my breakfast. I read the local newspapers and check my school bag.

06:30 I set off for school. I sometimes go to school by bus. However, I normally go by bicycle. It all depends on the weather.

07:30 Classes begin. We usually have five classes and a twenty-minute break between the third and fourth classes.

13:30 Morning classes end, but we can't go home. After lunch in the school canteen, we spend half an hour in the school leisure hall where we can do different activities. I often play table tennis with my friends.

14:30 Afternoon activities begin. Although these classes don't determine our success, we have to take one. The school provides us with opportunities to learn poetry, painting, music, acting or any other activity we prefer. Personally, I go for reading classes where I learn a lot about the world.

16:30 I'm home again. This means I can have some time with my family before I do my homework. We watch TV or talk about the busy day. Most of the time I go to bed before midnight.

3  In groups, compare your school day to Tom's. What do you like about his school?

DESERT DELIGHTS: CAMPING IN KUWAIT

Kuwait: One of the joys of life for Kuwaitis is to spend time in the desert. Desert camping is a popular old Kuwaiti tradition. It's ideal between November and March when temperatures go down and the weather is cold.

In the past, camping required only a tent. At night, lights were provided by oil lamps, and cooking was done over the campfire.

Today's modern camping experience involves so much more. There are modern appliances and facilities available in the camps. People use small

tents as sleeping places and large family tents as family gathering places which are supplied with lights, satellite television and couches. There is usually a kitchen that is made of aluminum and may include a gas stove for cooking.

People spend a day or a week in camps. They enjoy many desert activities.

During the day, children and young people enjoy playing different ball games, board games and kite flying. Family members and friends have Arabic coffee and dates, walk in the desert, watch TV and finish with barbecue dinner. At night, they all sit around the campfire and tell stories.

2 Read the newspaper article, then match the headings with the paragraphs.

- ▶ Camping Nowadays ()
- ▶ An Old Kuwaiti Tradition (1st)
- ▶ Camping Activities ()
- ▶ Camping in The Past ()

3 Ask your partner three questions about camping in Kuwait. (*What, When, Who ...ect*)

Shopping

1 Look at the pictures. What do you see?

Make sure you visit the Avenues, one of Kuwait's largest malls, which will definitely take your shopping experience to a different level.

It was officially opened in April 2007 and is located in Al Rai area. The Avenues has been designed to reflect the natural lines of the Arabian Desert.

The mall has been divided into four phases which include the world's famous stores and international high fashion and luxury brands from across Europe, the United States, Asia and Africa. The roof of the 2nd Avenue is made of glass to allow the sun to light up the internal area giving an outdoor feel. The Souk, which is located in Phase III, brings back the feeling of old Kuwait as it is similar to a traditional Kuwaiti souk with many small shops.

The Avenues Cinema has multi-screen movie Theaters with 11 screens (including a VIP cinema).

The Avenues is the house to a wide variety of the finest outdoor and indoor restaurants in Kuwait. Furthermore, some of the greatest cafés in Kuwait are located in this mall.

The Avenues stands as an iconic symbol of development and modern civilization.

2 Read the passage and decide if the following statements are true (T) or false (F):

festivals & celebrations

1.

This Eid celebrates the end of Ramadan, in the ninth month of the Islamic calendar. It is a religious festival of happiness and joy. It's not always on the same date because it follows the calendar of the new moon.

In the morning, people go to Eid Prayer. They wear new clothes and young people receive gifts and money. It is a time when Muslims think about the poor and help them, and a time for forgiveness. The celebrations last for three days and schools and offices close.

By: Jassim Hussein

2.

This celebration happens in late January or early February in China and follows the calendar of the new moon. It celebrates spring and lasts fifteen days.

People clean their homes and decorate them with red decorations, flowers, fruit and sweets. People wear new clothes and visit their family and friends. Red is a lucky colour and young people receive gifts of money in red envelopes. On the fifteenth night, a lantern festival is held in the streets. There is a huge lion parade with dancers and musicians playing loud drums.

By: Yi Lina

3.

Kuwaitis celebrate this day every 25th of February. It is a mark of the historic struggle for independence and the wonderful past of the country.

This day is celebrated with great activities. Public gettogethers are held. Official buildings as well as modern hotels are magnificently decorated with lights and flags.

Journey to the Past

Reading

1 Before you read

Think, pair, share

What questions would you like to ask about life in Kuwait in the past?

My history teacher asked me to write a report about life in Kuwait before and after oil, so I decided to pay my grandpa a visit and ask him to help me write the report.

Abdurrahman: Grandpa, can you tell me what you know about Kuwait before oil?

Grandpa: Sure dear, what do you want to know?

Abdurrahman: Was life easy? Were people happy?

Grandpa: No, life wasn't easy at all but people

were happy. Let me tell you that things weren't as easy or fast as they are nowadays. Our homes were made of mud. We didn't have electricity, so for cooling we slept on the roofs of the houses.

Jobs weren't as varied as nowadays. People worked in pearl diving, fishing and spice trading. We didn't have schools, we went to Al-Katatib where we learned reading, writing and basic arithmetic.

Let me tell you another thing, we weren't privileged with things like refrigerators or stoves. We rather had fresh preserved food and all things were made by hand such as Sadu.

Abdurrahman: That's amazing grandpa, but I have one more question. Are you happier now with all the things you have like cars, modern houses and technology?

Grandpa: Oh, Abdurrahman happiness has nothing to do with cars, oil or money. When you come to be my age you will realise that happiness is health, family, and good friends.

2 Read the dialogue and answer the following questions:

- Why did people sleep on the roofs of the houses?
- What did people do before oil?
- What did Kuwaitis study in Al-Katatib?
- Can money buy happiness? Why?

3 Grammar in context *past simple; negative; (regular/irregular verbs)*

What did *I* didn't people do in the past? *People didn't watch TV.*

- | | |
|-------------------|-----------------|
| watch TV | work in the sea |
| make Sadu | phone friends |
| sleep on the roof | surf the net |

4 In your notebook, write a short paragraph about what you did last weekend.

5 *Last weekend, I didn't play computer games but I went shopping.*

Write the missing words. Use the past simple of the verbs in brackets.

Last year, Abdurrahman went to a beautiful nature reserve in Kuwait called Sabah Al Ahmed. This is the report he wrote about his visit:

A Visit to a Nature Reserve

In March 2004, His Highness the Amir Sabah Al Ahmed (open) **opened** a new wildlife reserve. During the opening ceremony, he (release) some endangered animals and birds into the wild. The reserve (encourage) the cultivation of many plants, and (help) restore the local ecosystem. 1 In groups, name some historical places around the world.

ANTONIUS and JULIA lived with their family in Jerash, in 75AD. Jerash used to be an important ancient Roman town.

They had a big house and servants. They didn't have much furniture. They used to sit on beds during the day and slept on them at night.

Antonius was 14. He studied a lot of subjects, including history, geography, astronomy and philosophy. Julia was 12. She studied reading, writing and mathematics and how to look after a home.

People in Jerash used to go to the South Theatre. It held 3,000 people. When gladiators fought wild animals, people were watching **them** cheerfully. There were **chariot** races too at the Hippodrome.

Antonius loved the races but he didn't like the fights. So, while the fights were taking place, he went to his father's office. The family had a simple but interesting life.

2 Read the article, then choose the correct answer from a, b, c and d:

- The best title for this article could be
 - Chariot Races
 - Gladiators Fights
 - Ancient Jerash
 - Historical Subjects
- Jerash is located in
 - Saudi Arabia
 - Syria
 - Jordan
 - Iraq
- The underlined word '**them**' in the 4th paragraph refers to
 - people
 - gladiators
 - wild animals
 - races
- The meaning of the underlined word '**chariot**' is
 - subject
 - horse
 - fight
 - carriage

3 Grammar in context *past continuous (when, while)*

a. Read the article and complete the following sentences:

When gladiators fought wild animals,

While the fights were taking place,

b. Complete the following sentences with '*when*' or '*while*':

- I was watching a movie, the screen went blank.
- The sun was shining I woke up this morning.

'**While**' or '**When**' is used when a continuous long action in the past was interrupted by a short action.

While I was doing homework, my mother knocked at the door.

I was doing homework, **when** my mother knocked at the door.

4 Speaking and Writing:

a. Are you **For** or **Against** the following statement:

"Life in the past was much better than now."

Hold a debate in your group, decide if you agree or disagree with the statement, then select a member to represent your thoughts to the class.

b. In your notebook, write a short paragraph summarising your opinion and supporting it with reasons or examples then revise and edit it in groups.

Search the internet or other sources for a historical place in Kuwait. Use your tablet or personal computer to prepare a short power point presentation about it. Then present it to your class.

1  Look at the pictures, how do they relate to the title?

MEDIEVAL SPAIN

In the MEDIEVAL PERIOD, most of Spain was under Islamic rule. The Umayyad dynasty ruled for over 300 years. They made Spain the cultural centre of Europe.

1 Cordoba was an important city with a population of over one million. The great library of Cordoba had 500,000 manuscripts. There were many gardens too. Students from all over Europe came to Islamic Spain to study.

2 Most of the musical instruments played in medieval Europe came from the Arab world. These included the flute and the 'oud (the lute).

3 The arts included beautiful calligraphy and painting. Arabs made glass objects and taught glassmaking to Europe. They also taught Europeans new techniques for working with wool, silk and cotton.

4 Scholars in Islamic Spain studied science. They curiously studied ancient texts and made new discoveries. Many astronomical words came from the work of Arab scholars. Muslim astronomers such as Al-Farghani and Al-Battani built observatories and studied the stars.

5 Arab mathematicians brought numbers from India. With these numbers, they could do difficult calculations. Muslims in Europe were very advanced in medicine. They knew a lot about how the body works.

2 Read the article, then match the paragraphs with their main ideas:

- a. Arab scholars were interested in science.
- b. Many musical instruments had an Arabic origin.
- c. Muslims were advanced in Medicine.
- d. Cordoba was important for students.
- e. Art was taught by Arabs.

3 Read again and find these things:

- 1. an improvement in mathematics *Arabic numbers*
- 2. the names of two Islamic astronomers
- 3. three sorts of material we use to make clothes
- 4. two musical instruments introduced into Europe

1 Before you read

Describe the picture and guess what the story is about.

Reading

A hard-working farmer had three sons. They were very lazy. They rarely agreed on anything. The farmer was worried about their future. He wanted them to work in the field and earn their living by growing vegetables.

One day, he fell ill. He was on his death-bed. He called his sons and said, "There are hidden treasures in the field." Then, he advised them saying, "You must work hard. You must live in peace and you mustn't disagree." Then, the old farmer died.

The sons went to the field. They dug up every inch of the field to find the hidden treasures. They did not find anything. After a few days, it rained hard. One of them suggested they should sow seeds in the field. And that's what they did. They grew good crops. They sold them and got a lot of money. They were really happy. Now they understood the value of hard work. The real treasures were the good crops in the field.

2 Read the story and answer the questions:

1. Why was the farmer unhappy?
2. What did he tell his sons when he fell ill?
3. How did they become rich?
4. What did you learn from the story?

3 Retell the story in your own words.

Travels and Exploration

Reading

1 Before you read

Name some famous inventors and their inventions.

Great Inventors

Muhammad Al-Idrisi was a great scientist and geographer. He was born in 1099 in Morocco. He travelled a lot in Europe, Asia and Africa. Al-Idrisi collected information about different places, and in 1154 he wrote an important book, Roger's Book. It had a beautiful map made of silver. He also collected and studied plants to make medicine.

Willbur and Orville Wright were two ambitious and clever inventors. They were called the Wright Brothers. They were born in the USA. Wilbur was born in 1867 and Orville in 1871. They invented the first aeroplane. They had a bicycle repair shop. They wanted to fly, so they decided to make a bicycle with wings and an engine. On 17th December 1903, their plane travelled for 12 seconds.

Leonardo da Vinci was a great artist and inventor. He was born in Italy in 1452. He wanted to understand how things worked. He invented many machines such as an aeroplane, a submarine and a helicopter. He painted the Mona Lisa; it is probably the most famous painting in the world.

To: Omar

Here we are in India. Last week we travelled to Agra in the north. We visited the Taj Mahal, built in 1653. It's an amazing mausoleum. We listened to a wonderful concert of Indian music and watched an Indian dance. People there were friendly. India is a huge country. The population is over 1,000 million here. It has one of the world's largest Muslim populations. Yesterday we spent the night on a boat – it was a boat hotel! I loved it. The food was really good – I love Indian curries and rice. The weather was lovely all last week. At the moment, we're in the Himalayas. Tomorrow, we are having a walk in the mountains. I'm waiting impatiently for it.

Energy and Recycling

Reading

1 Before you read

Look at the picture and guess what the story is about.

There was a small village on top of a mountain that didn't have any water. The closest river was in the valley below. The people had to walk up the steep hill from the river cautiously, with heavy buckets of water for the vegetable fields. They were tired from such difficult work.

One day, the mayor telephoned Jim Gibb, an engineer. He asked him to find a solution to the water supply before the village gets into more trouble. Jim said that he would build a pump that takes water out of the river and brings it up to the village.

Three parts were needed to make the pump: pipes to carry the water from the river and some old lorry parts to make the pump itself. But Jim had a problem with the third thing. 'How am I going to make energy to operate the pump?' he thought. Then his wife Emma had a brilliant idea. 'Attach a bicycle to the pump,' she said. 'If someone rides it, they will make energy for the pump.'

The pump was built and it worked well. People from the village rode the bicycle on the pump and water flowed up into the village. The vegetable fields were full of delicious food and everyone was very happy.

B: I don't know. I think I'm going to surf the net.

b. In your notebook, write a short paragraph about your plans for the weekend.

Look at the old objects at home. Choose one and think of how you are going to make it useful. Explain to your class.

1 Look at the pictures. Describe what you can see.

There are several different kinds of energy. Some are renewable. This means that we can go on using these sources of energy again and again. Other kinds of energy are non-renewable. This means that the supply of energy is limited.

Coal is a non-renewable source of energy. We find coal under the ground. It is made of very old trees. It gives a lot of energy when we burn it.

Oil is another non-renewable source of energy. Oil is a thick, black liquid. It is made of tiny pieces of very old dead animals and plants. We usually find oil deep under the ground. We make fuels like petrol and diesel from oil. Kuwait is one of the biggest producers of oil in the world.

Natural gas is a third kind of non-renewable energy. We often find natural gas above deposits of oil.

One example of renewable energy is the heat from the sun, or solar energy. We can collect solar energy using very big mirrors to make electricity.

Wind power is also a renewable source of energy. We can use special windmills to make electricity. Wind energy is free and does not damage the air around us. Water can also give us energy. Like solar energy and wind power, flowing water is another renewable source. Water flowing powerfully along a river can turn a big wheel, called a turbine, and make electricity, just like a windmill.

2 Read the text and answer the following questions:

1. Give one example of the use of each of the sources of energy.
2. Which of these sources of energy will we use in the future? why?
3. What is the main idea of the text?

a. In groups, discuss and fill in the spidergram with notes about sources of energy we are going to use in the future.

Listenina and Writina:

11. b. Now, listen to the experts talking about the sources of energy we are going to use in the future and add more information to your diagram.

In your notebook, develop the notes in the spidergram to write a paragraph about the future sources of energy. Work in groups.

Tip

To write a good paragraph, start with a topic sentence that states your main idea clearly. Follow with supporting details to develop and explain the topic sentence, and finish with a strong, concluding sentence.

Make a poster to encourage people to save energy.

- The weather **will** be cloudy in Kuwait, but it **won't** rain.
- The temperature **will** be 12 degrees.

b. What do you think the weather will be like tomorrow? In your notebook, write your prediction and compare it with yesterday's.

Download a weather application on your tablet or smartphone and check the weather forecast for the next 7 days. Discuss with your friends.

1  What environmental problems does our planet face nowadays?

Scientists now agree that the world's climate is changing.
Here are some things they predict.

The ice in the polar icecaps and in glaciers is turning into water. This will increase the sea level and it may go up by two metres. Glaciers in Switzerland, Italy and Austria are also melting and soon there won't be snow for skiing.

When the sea gets warmer, the sea level gets higher. In the USA and India, parts of the coast will go under water and many islands will flood. It also means that the river plains of the Nile Delta in Egypt will disappear.

In the world's drier nations, wells will be empty, lakes will become polluted and it will rain less. And forest fires will happen more often as regions become drier.

Without enough water, some hot countries won't be able to grow plants at all. World food levels will fall by about 20%.

2  **Read the article and write a list of some of the problems caused by climate change.**

- Glaciers will turn into water.

3 **Vocabulary** *Environment*

Match the words with their definitions:

glaciers wells floods coast regions

1. When large amounts of water cover a place and cause damage. **Floods**
2. Enormous pieces of ice that move slowly in the mountains.
3. The part of a country where the land meets the sea.
4. Deep holes in the ground from where people get drinking water.

4  **Speaking and Writing:**

The world's climate is changing and the temperature may rise by six degrees over the next 100 years.

a. In pairs or small groups, discuss the causes of climate change.

b. Write your ideas in your notebook, then present them to the class.

5 **Grammar in context** *Modals*

Look at the underlined phrases. Do they mean this is certain (**C**) or this is possible (**P**)?

1. The sea level may go up by two metres. ...P...
2. Farm lands in the Nile Delta will disappear.
3. More regions could become deserts.
4. Some hot countries won't be able to grow food at all.
5. In China, 30 million people could become homeless.

Suggest ways to save our environment. You can:

- a. present them to your class using your tablet,
- b. write an article to one of your local magazines or
- c. design a poster calling for the protection of the environment.

How will we live in 50 years? In pairs, talk about the future.

Downloading Your Memory

You will be able to download all your memories and experiences to a computer in a way that allows you to recall them later. This would give you the chance to have a collection of all your thoughts and life memories.

Weather Modification

Scientists predict that in the near future, they will be able to modify the weather. This will help stop global warming, reduce flooding and drought and prevent disasters and hurricanes from ever reaching land.

Future Cities

People will be able to live and work in 'Bubble cities' underwater and 'Earth-scrappers' deep under the ground. Preparing food will become easier, as recipes from our favourite chefs will be downloaded and 3D printed, ready to eat within minutes.

2 Read the notes on the previous page, then complete the following sentences with suitable words.

1. It will be nice to be able to easily download and memories from favourite events.
2. Scientists will be able to predict and stop before they happen.
3. We will live in which go deep underground.
4. Different dishes from our favourite chefs will be easily by 3D food printers.

Listening:

12.2 Listen to the interview. Tick (✓) the predictions you hear, and cross (✗) the ones you don't.

1. One in four students won't have an education. (✗)
2. Doctors will visit their patients at home. ()
3. There won't be a cure for cancer. ()
4. There will be enough water for everybody. ()
5. China will be the country with the biggest population. ()

3D Printer

Writing:

4 Write a short paragraph about life in the future. Work in pairs or small groups.

LIFE IN THE FUTURE

I think the future world will be ... (Write a sentence introducing your ideas.)

Some things will be much better. (Write two of your ideas.)

I would like to live in my future world because ...

Choose either Project 1 or 2

Project 1

An Award Winner

Work in pairs or small groups

1. Go to the Nobel Prize winner website www.nobelprize.org and choose a prize winner you are interested in, OR select a famous award winner.
4. Do research about this person in books or other websites and take notes.
5. Design a poster about this person; draw diagrams and put photos. Use your notes to write about his/her achievements.

Dr. Souad Al-Sabah : An Influential Author

Dr. Souad Muhammad Al-Sabah is a Kuwaiti economist, writer and poet and a member of the ruling family. She was born in 1942 in Kuwait. She has published several books and works in poetry and literature and established a literary prize that carries her name. She also has written a lot of economic and political articles in Arabic local and international newspapers and magazines. She was honoured in many countries for her publications and literary achievements.

Project 2 *A Time Capsule*

Work in pairs or small groups

A time capsule is a container with objects inside it. They represent your life today. Later generations can open the time capsule and learn about the way you lived.

- Plan a time capsule to be opened in the year 2250.
- Choose 4 objects that represent your life today and write about them; explain why they are important.
- Write a short letter to people in the future. Talk about your home and family, your interests and the things that you use in your life.

This is my video game console. I spend my leisure time playing games online against my friends; It's great fun!

This is a mobile phone. I use this device to speak to my friends and family. I can also take photos and watch videos.

This is a school book. We study English from this book. It contains a lot of interesting information.

This is a photo of my family. I'm the one on the left. There is my mum and dad and my brother and sister.

Dear future people,

I would like to tell you about my life. I live in the 21st century, in Kuwait. I live with my mum, dad, my sister and brother in a villa.

In the 21st century, people use a lot of technology. In my house, there are a lot of machines that we can't live without. I like to play games in my free time and my favourite subject is English.

Work is What You Make It

"What a wonderful world!" thought Tom Sawyer as he lay in the tall, cool grass. "Look at the wide, blue sky with its little white clouds drawing pictures as they hurry by. See the green hills cut by fast-moving rivers. It's good to be alive," he decided, "C(on a day like this when there's no school and no work." Then he rolled over and went to sleep.

"Tom! Oh, Tom! Where are you, boy? There's work to be done!" Tom's ears moved at the loud voice of his Aunt Polly, but his eyes did not open. Neither did his body move.

"Tom!" Her voice was getting closer and louder. "I'm coming after you, Tom. It is foolish to hide from me, because I'll find you."

In a moment the boy was face to face with his aunt, who was looking very angry, even behind her thick glasses. "I knew I'd find you, lazy boy," she said. "Now get up and try to do some work for a change.

This fence needs painting and the sun is bright. You can do it all

today if you try really hard."

"But, Aunt Polly, I have other things to do," said Tom sadly. She turned her back and went away to the house. Suddenly Tom's sunny world had turned very dark indeed.

He looked at the fence that now seemed to climb higher and wider than the sky above him. Then he saw the pot of paint and decided that it was not so good to be alive after all. "It's no good," he cried. "I'll be here for the rest of my life! It would take ten people to paint this fence in one day."

He started to paint. Suddenly he thought of a plan to get his friends to help him do the work. "Aunt Polly told me to try very hard, and that is what I'm going to do." He smiled and began singing.

Just then his friend Ben came past. He laughed when he saw Tom painting. "What's the matter, Tom? Does your aunt want you to work on such a nice day?"

Tom did not stop painting. "Work? Oh no, Ben. You see, painting is an art. First you must choose the right day, then you must get the best paint and brush. But most important of all, you must have the right person. Aunt Polly says that there isn't a boy in town who can paint this fence like me!"

Ben's eyes opened wider. "Really, Tom? Let me try a bit."

"Oh that isn't possible," said Tom. "My Aunt Polly is *very* certain of the way she wants her fence painted. Remember, she chose me."

"Come on, Tom. I'll give you half *my* apple if you let me paint," Ben promised. "Your aunt will never know the difference!"

"Oh, you're wrong about that, Ben," answered Tom. "She has *very* good eyes. And think how I would feel. After all, she asked ME to paint her fence."

"You may have *my* whole apple," Ben said. "Give me the paintbrush now."

"Well, if you really think you can do it – here, take the brush, but do be careful the way you paint." Tom took a bite into the red apple.

Half an hour later, when his friend had painted four boards of the fence, Tom said, "You're doing it quite well, Ben, but of course you need to do much more before you can really call yourself a painter." As each hour passed, Tom's painting became more complete. Each friend who happened to walk past took his turn at painting a few boards – all for a price, of course. "You have to make them think it's something wonderful," thought Tom. "They'd never want to do it without paying for it."

By the end of the day he had quite a business going. When a boy got tired of the new "art", Tom had other friends waiting to have a turn. They gave him objects like a ball, a bag of sand, a small coin, sugarbread and wooden soldiers- just to try the paintbrush.

"Work?" he wondered. "You can turn work into play if you only know how." And he ran to the house to show Aunt Polly his shining white fence.

Life that Kills

Today we can protect ourselves against many illnesses that once meant death to thousands of people. This is because of the work of a famous French scientist who suffered much in his own life so that others might live.

Louis Pasteur was a bright boy, although his teachers said he was slow and always behind the rest of his class. The reason for this was simple: Louis was very careful in everything he did. He wanted to understand all that he studied and he asked many questions.

"Listen," shouted an angry teacher one day. "You're supposed to answer the questions, not ask them!"

But he never stopped asking questions. There was one special question he asked: What were illnesses caused by? In time, he discovered the answers that have helped people to live longer ever since. He worked very hard to keep life going on, both in animals and people.

When the silkworms began dying, and France's silk-makers were losing money, they turned to Pasteur for help. He found the trouble. Certain living germs, called bacteria, attacked the silkworm eggs. "These same germs, or ones like them, can attack food, animals and even people," he said. "We must learn how to fight them. We must kill the germs without killing the animals or people."

Pasteur found a way to kill the germs on silkworm eggs and the whole country was thankful. But during his years of work three of his own children died. Even in his sadness he believed that other children's lives could be saved if he could stop germs from spreading.

Next he helped farmers to fight germs that were killing their chickens. He also went one step further: he made the germs weak and fed the chickens with the weak germs. They did not become ill; their own bodies went to work against the germs. Then they were safe from any more attacks from the same germs.

Life that Kills

Thus began Pasteur's plan of vaccinations to stop illness. It was a success with animals. "But what about people?" Pasteur wondered. While he was asking himself this question he had a chance to answer it.

A woman brought him her son, who had been bitten by a mad dog. In those days, such a bite meant slow and painful death. But the child's mother heard of Pasteur's work with such dogs; he took the germs from the dog's mouth and made a weaker form of the same germ. Pasteur put these weak germs into the boy's body fourteen times and he lived!

Doctors heard of Pasteur's work. They began to be more careful. They stopped putting people with different kinds of illnesses in the same room. Germs could be carried, they thought, from one person to the other. They also took more time to clean their hands, the beds and the rooms, to kill germs before they spread. There were fewer deaths after Pasteur's discoveries.

He also studied different kinds of food and discovered new kinds of germs, so small they could only be seen through a microscope.

Pasteur's life was filled with working and waiting for answers. Because his answers were right, the world is a healthier place in which to live
