.....
.....

• Expository { ايضاحي- تفسيري }– Writing

- in which author’s purpose is to inform or explain the subject to the reader.
- It includes definitions , cause -and-effect relationships , comparison and contrast , illustrations and examples

EXPOSITORY	
O	I. Introduction a. Hook b. Thesis Statement c. Preview Details
O	II. Body Write about each detail.
O	III. Conclusion a. Restate Thesis b. Restate Details c. Lasting Impression

Reading Comprehension & Summary Making

Read the following passage then answer the questions below:

If you have been reading fairy stories, you may believe that all wolves are harmful, and evil. They eat children, sheep and other small animals. They are aggressive and won't stop until they get what they want. There really isn't anything good to say about wolves. Or is there? Are wolves just misunderstood?

Wolves are actually nothing like the characters described in fairy stories. While it is true that their diet consists of deer, rabbits, and other small animals, wolves would never attack a child just for the sake of eating. Wolves have been known to attack people when they threaten them. This happens only **rarely**. Wolves are usually pretty shy animals. They stay within their own land and protect their own pack (group).

Wolves are meat eaters, and they must hunt to get their food. **They** are strong and fast and have sharp teeth. They use their sense of smell to find prey. Wolves hunt in packs and chase their prey until it gets tired. They usually hunt the weakest, slowest animal in a group. Wolves are not cruel; they are just good hunters.

Some wolves, such as the red wolf, are near **extinction**. Their homes are steadily disappearing as people spread their own homes further into the wilderness. Wolves have also been hunted extensively. Ranchers and farmers pose another threat to wolves. They become angry when wolves come onto their property and eat their chickens and sheep. This is a serious problem, because the farmers lose their animals, and the wolves get shot by the angry farmers. No one wins in this battle.

Wolves are an important part of the balance of nature. They hunt weak animals and help keep down the population of some animals such as deer. In many countries, it is now against the law to hunt wolves. Many zoos and scientists are working hard to protect wolves, because they understand just how important and misunderstood they really are.

A- Choose the correct answer from a, b, c and d:

1-A suitable title for the passage is:

- a. Wolves in the Jungle
- b. Wolves in Fairy Stories
- c. The Red Wolf
- d. True Facts about Wolves

2- The main idea in the last paragraph is:

- a. Reading fairy stories.
- b. The importance of protecting wolves.
- c. Wolves and angry farmers.
- d. Wolves as good hunters.

3- The word "**extinction**" in paragraph 4 means:

- a. being rare.
- b. being happy.
- c. being famous
- d. being shy.

4-The underlined word "**they**" in paragraph 3 refers to:

- a. ranchers and farmers.
- b. weak animals.
- c. Wolves.
- d. chickens and sheep.

5- According to the text, all the following sentences are true **except**:

- a- Wolves attack people in case of a threat.
- b- Wolves hunt animals for the sake of killing.
- c- Wolves are shy animals.
- d- Wolves prefer to hunt in groups.

6- People think that wolves are cruel and harmful because

- a. they are aggressive
- b. they are cute
- c. they are helpful
- d. they are generous

B) With reference to the passage answer the following questions:

7-How do wolves hunt?

.....

8- Why do farmers and ranchers kill wolves?

.....

C) Summary-making;

Researches show that people who do not smoke at all can suffer serious and life-threatening health problems, if they stay with smokers for long period of time. Scientists have proved that breathing passive smoke can be more dangerous than actually smoking cigarette. It can be dangerous because the smoke that is blown by the smoker in the air can affect the person standing or walking by the smoker. The non- smoker inhales smoke too without using a cigarette, passive smoking is very poisonous, and it has over four hundred chemicals.

In four sentences, summarize the paragraph to answer the following question:

Researches and scientists prove that smoking cigarettes cause health problems. Justify.

7- What qualities does a Marathon runner need to be successful?

.....

8- Why are Marathon runners usually modest?

.....

Summary Making

It wasn't until 1874 that the first truly modern bicycle appeared on the scene. Invented by another Englishman, H. J. Lawson, the safety bicycle would look familiar to today's cyclists. The safety bicycle had equal-sized wheels, which made it much less prone to toppling over. Lawson also attached a chain to the pedals to drive the rear wheel. By 1893, the safety bicycle had been further improved with air-filled rubber tires, a diamond-shaped frame, and easy braking. With the improvements provided by Lawson, bicycles became extremely popular and useful for transportation. Today, they are built, used, and enjoyed all over the world.

In four sentences of your own, summarize the paragraph to answer the following question:

*** How would the safety bicycle look familiar to today's cyclists?**
