Reading Comprehension

Read the following passage carefully, then do as required below:

A hat seller was going to the village market to sell his hats. He walked for a long time through the green forest and felt tired, so he decided to take a rest. He saw a tall tree. He sat under it and soon fell asleep. On the tree, lived many monkeys. They saw the man sleeping with a hat on his head. They all came down to see. They found a bag full of colorful hats next to him. Monkeys like to **imitate** what people do so, they took the hats and wore them on their heads just like the man. Then, **they** climbed up the high branches of the tree.

After some time, the hat seller woke up. He found his bag empty. All the hats were missing. He looked around, but he didn't find them. He was very sad. All of a sudden, he heard loud noises coming from above, so he looked up and for his surprise he saw ten monkeys in the tree wearing his hats.

The hat seller wanted to get his hats back but the monkeys were too fast he couldn't catch them. An idea struck his mind. He, at once, took off his hat and threw it on the ground and all the monkeys threw their hats on the ground, too. Monkeys are good imitators. The hat seller collected all the hats and went to sell them in the village market.
