Read the following passage, then answer the questions below:

Most people would agree with the definition of good health as being a state where you are free from sickness. Despite this, there are many different opinions about how a person can actually have good health. People used to only think of their health when they were sick. But these days more and more people are taking measures to make sure that they don't get sick in the first place. In this article I will describe a few of the most common things that you can do to stay healthy.

One of the best things you can do for your body is exercise. But how much is enough? Not everyone agrees on exactly how much people should exercise each day. Some people think that doing simple things like cleaning the house are helpful. Other people do heavy exercise everyday such as running or swimming. One thing experts do agree on is that any kind of exercise is good for you.

Along with exercise, having a healthy diet can help promote good health. Foods like vegetables and fruits should be eaten several times each day. It is also important to eat foods high in fiber such as beans, grains, fruit and vegetables. Fiber helps your body to digest the food you eat. It also helps your body in other ways such as decreasing the chance of getting some cancers, heart disease and diabetes. Avoiding foods with a lot of sugar, salt and fat is a good idea. Eating these kinds of foods can lead to a variety of health problems. The main one being obesity. **Obesity** means having so much fat on your body that you are risking your health.

In today's modern world, we all have some level of stress in our life. Different things cause stress for different people. Money problems, work and relationships with other people can all cause stress. **It** can also be caused by good things like getting married or moving into a new house but you can avoid stress by changing the way you think and doing exercises.

A) Choose the best answer from a, b, c or d:

- 1- The underlined word "it" in the last paragraph refers to:
 - a. money problems.
 - b. work and relationships with other people
 - c. getting married or moving into a new house
 - d. stress that is caused by all the pressures of life
- 2- The underlined word "obesity" in the third paragraph means:
 - a. fatness and chubbiness
 - b. weakness and disability
 - c. durability and strength
 - d. ability and power
- 3- The best title for this passage is :
 - a. stress in life is so harmful
 - b. good things like marriage cause stress

SUMMARY MAKING التلخيص

In four sentences of your own , summarize the passage below in answer to the following question :

" How can you manage your money sensibly?"

When you're away from home, your parents expect you to be responsible for yourself and this includes taking care of your own finances. To manage your money sensibly, you need a plan to work with. Write down your allowance and expenses for the month. What you are doing is actually budgeting your income. Make sure that you set aside a small amount for your savings. One way of cutting cost is eating in. It is cheaper than eating out Moreover, when you shop for household items, compare prices from one shop to another before making your purchase at the same time sales where prices are marked down incredibly can sometimes tempt you to buy things which you don't really need so take care and buy your needs only .

Reading Comprehension

Tom Drakes had strange ideas of fun. His favourite way of amusing himself was to annoy other people. But the day of the fire was the day he learnt his lesson. In some parts of the town where Tom lived there were fire alarms in the streets. You had to break the glass and turn a handle; that was all, and then the firemen came to put out the fire. Tom would start one of these alarms and then enjoy watching the fire engines as they raced down the street looking for the fire. He used to hide behind a wall at the corner of the street and laugh as the firemen discovered that there was no fire and got back angrily on to their engines.

Tom told some of his friends at school about the fun he was having and the result was that there were soon boys all over the town who went about starting false alarms of fires.

In the holidays Tom liked to do chemistry **experiments** in his bedroom. One day there was an accident He was using a burner to heat some liquid, when suddenly he knocked it over, and in a few moments his bed was on fire. Tom saw immediately that firemen would be needed to put the fire out. At top speed he ran downstairs and out of the house and along the street to the corner where the fire alarm stood. There for a moment his heart stopped beating; it was broken. Tom turned to look back at his house.

Black smoke was beginning to climb up from his bedroom window. He stood by the fire alarm, not knowing what to do. It seemed that his home was about to be burnt down perhaps because of a trick which some other foolish boy had learnt from him!

At the sound of a clanging bell his fear changed suddenly to hope. Yes, it really was the fire engine that came racing down the road! Although he never discovered who started the alarm, he knew he was luckier than he deserved to be: by chance, an unknown boy's silly trick had had useful result.

Summary making

One day he stopped to examine the glass dishes on which he had grown some microbes in a special liquid. In one dish, he was surprised to notice a greenish mould. That meant a tiny seed, too small to see, must have floated on the dish when the lid was off. Fleming took a closer look and then made a careful examination. He saw that a strange thing had happened. Where the greenish mould was growing, the disease microbes had disappeared. He began to grow enough of the mould to make from it a clear liquid, which tests showed could kill microbes or stop them in both animals and human beings without harming their white blood cells. He called the liquid penicillin.

In four sentences, summarise the paragraph in answer to the following question: How did Fleming discover the existence of penicillin?
