ثانوية جابر مبارك الصباح - قسم اللغة الإنجليزية

-Read the following passage carefully, then answer the questions below:

Happiness can be found in many different forms. It can be found with the purchasing of inanimate objects that better our living styles or it can be found with someone else that you associate with. In order to be truly happy, you need to be able to understand that everything is good within your own life and that you are able to be happy with the people that are in your life and the people that influence how you live your daily life.

Happiness is all of the good that someone experiences combined into one emotion. This **emotion** can, and usually does, bring out the best in people. For someone to be happy they need to know that everything that has happened in their past has happened for a reason and that it has happened for them in order to become a better person. Not only does it make them a better person but it also makes them realize how good they have it or can possibly have it.

Although things might be hard to deal with at the moment, people need to realize that they will be able to learn from their experiences and that **they** will learn to take the good from them all. The hard times will help people strive for happiness. Happiness isn't free. You have to earn it and work to keep it. The price for happiness is having to suffer and having to question events that occur during one's life. People need to be able to adapt to their surroundings so that they can get the best out of them.

This kind of happiness is the purest form. It is an unspoken agreement between people that says that each of you will do whatever they can to make the other person happy and that in this process you, yourself, will be able to be happy and enjoy the moment.

A) From a, b, c and d choose the right answer :

1. The main idea of the passage is:

a- The sources of happiness	b- Don't worry – be happy
c- The kinds of happiness	d- People learn from their experiences
2. The word **emotion** in line 8 means:
 - a- a strong feeling such as love, anger, fear, jealousy, etc.
 - b - the knowledge or skill that you get from seeing or doing something .
 - c- a scientific test or trial that is done in order to prove something or to get new knowledge.
3. In line 14, "**they**" refers to:

a- experiences	b- things
c- people	d- the moments

B) Answer the following questions:

4- Happiness can be found in many different forms, what they are.

5- Happiness isn't free. You have to earn it and work to keep it. Justify.

Summary Making

C) In three sentences of your own, summarize the first paragraph to answer the following question:
