تنويه: تم تصميم المذكرة للدراسة والتدريب على أسئلة الاختبار

أونلاين مع الأستاذ إسلام طاجن

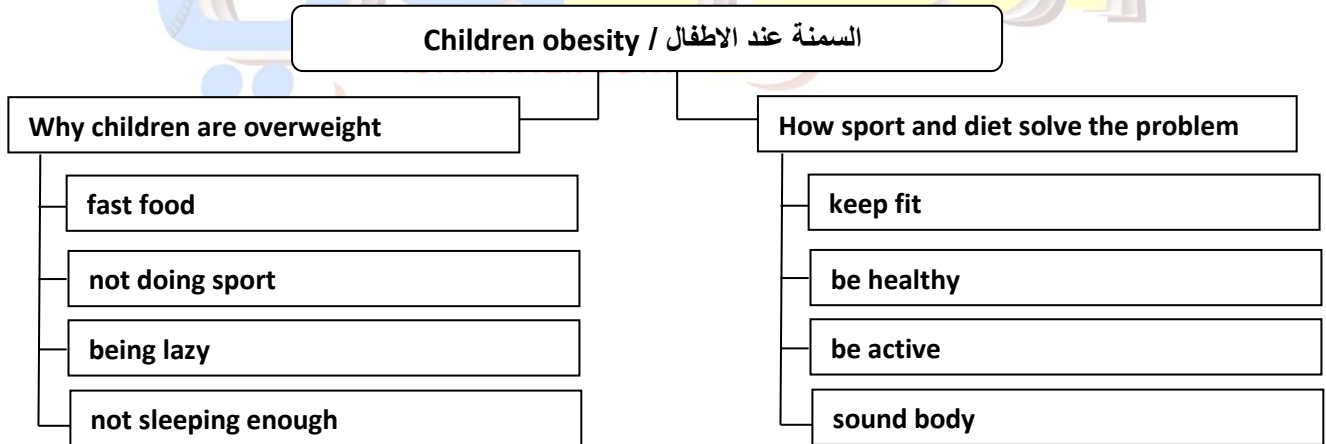

Sport is really important in our life. It keeps us healthy. It also keeps us fit. It helps us to be active all the day. It helps us to study better.

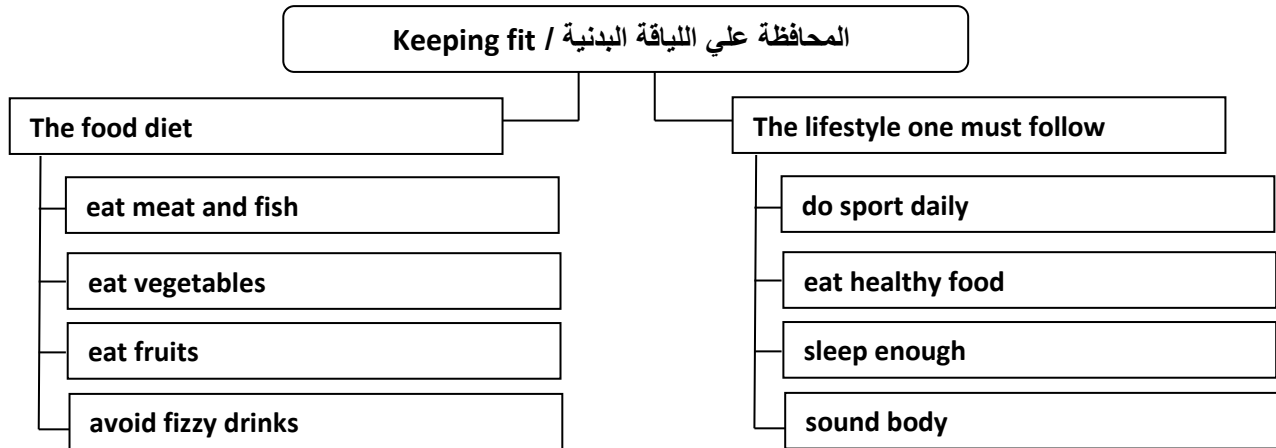

My favourite sport is football. I play with my friends weekly. We play at the club. We play twice a week. Really, doing sport is useful for our bodies.

**Writing / Unit 1 / Children obesity – السمنة عند الأطفال**

Some children suffer from obesity. They eat fast food. They don't practice sport. They are lazy. They also don't sleep enough.

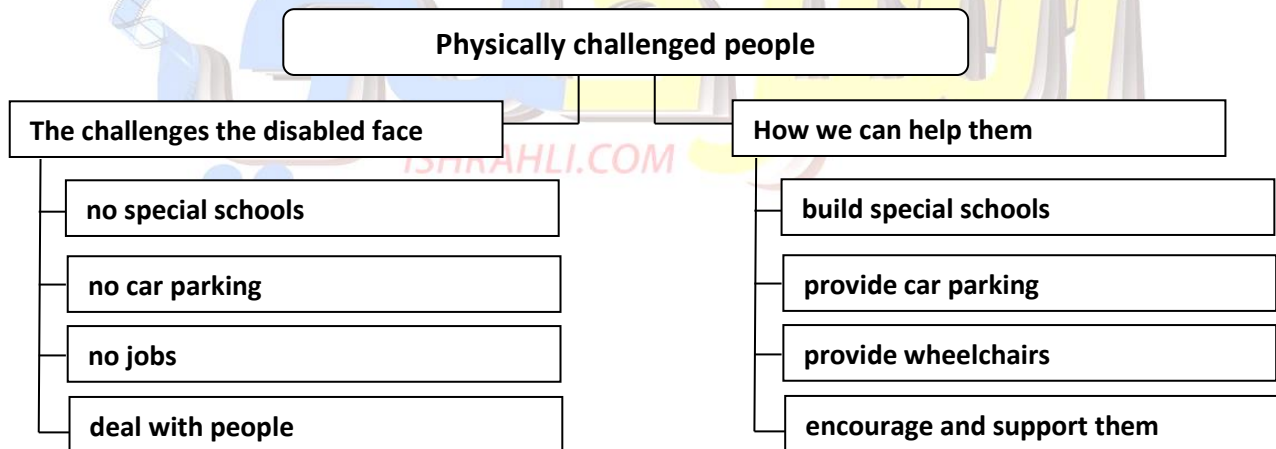

Keeping fit is not hard. They should practice sport. It helps them to be healthy. It also helps them to be active all the day. In short, a sound mind is in a sound body.

We are what we eat. To keep fit, we should eat meat and fish. We should eat fresh vegetables. We should eat different fruits. We should avoid drinking fizzy drinks.

We have to follow a good lifestyle to keep fit. We need to do sport daily. We should eat health food. We should sleep enough. In short, a sound mind is in a sound body.

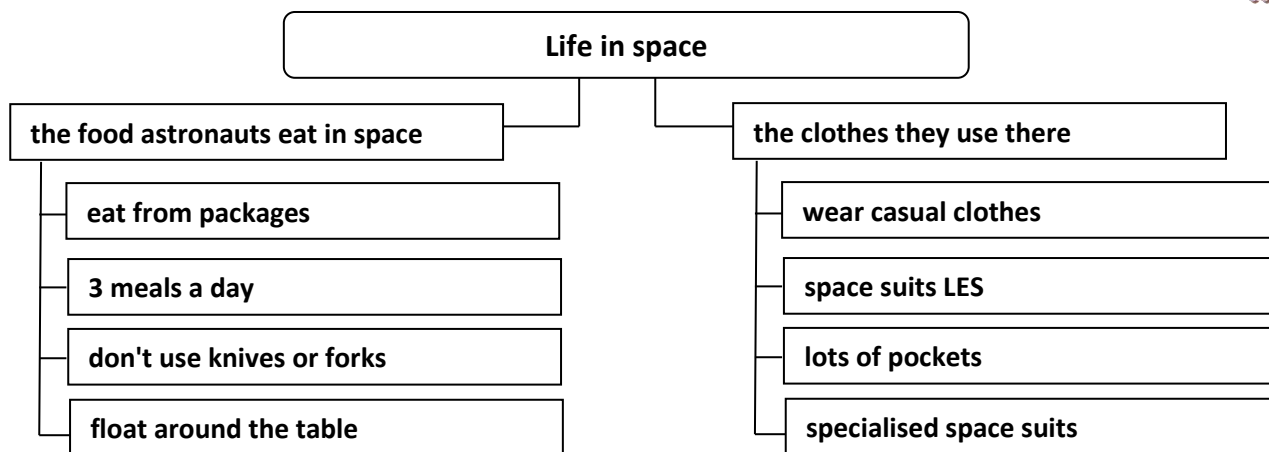

**متحدى الإعاقة – Writing / Unit 2 / Physically Challenged People (Disabled) (Handicapped)**

Physically challenged people are normal people with disability. They may face some challenges. They may not find special schools. Sometimes, there aren't special parking. They may not find suitable jobs.

We can help physically challenged people in many ways. We can build special schools. We can provide special car parking. We can provide them with wheelchairs. We should encourage and support them.

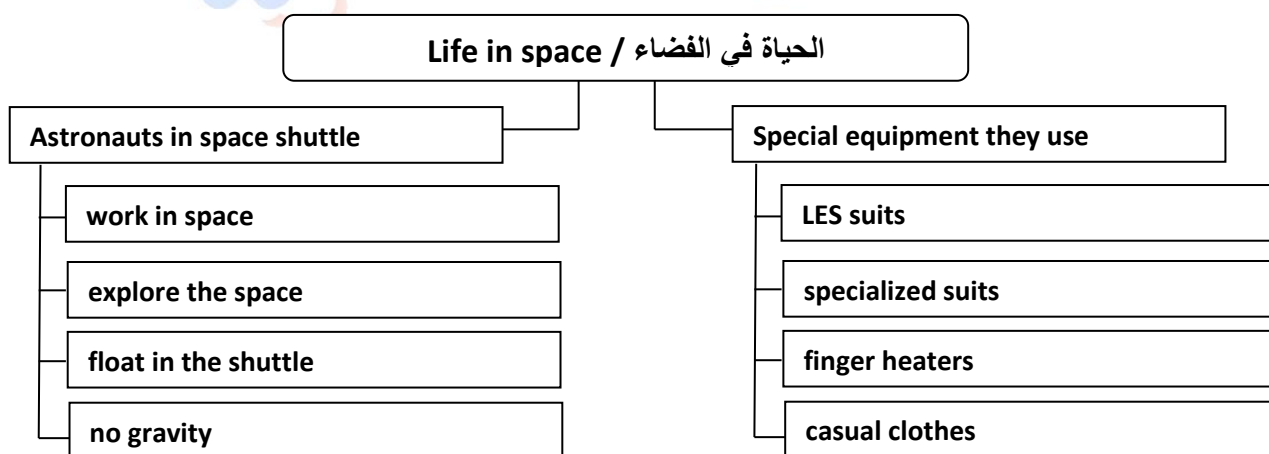

Being an astronaut is an interesting job. There are many kinds of food to eat in space. Astronauts eat three meals a day and a snack. They can eat soup, vegetables, nuts and fruit. Food floats around the table in zero gravity.

Astronauts wear special clothes in space. They use LES when they travel into space. They wear casual clothes inside space station. They use specialised space suits outside space station. Space clothes have lots of pockets.

رواد الفضاء – Writing / Unit 3 / Astronauts

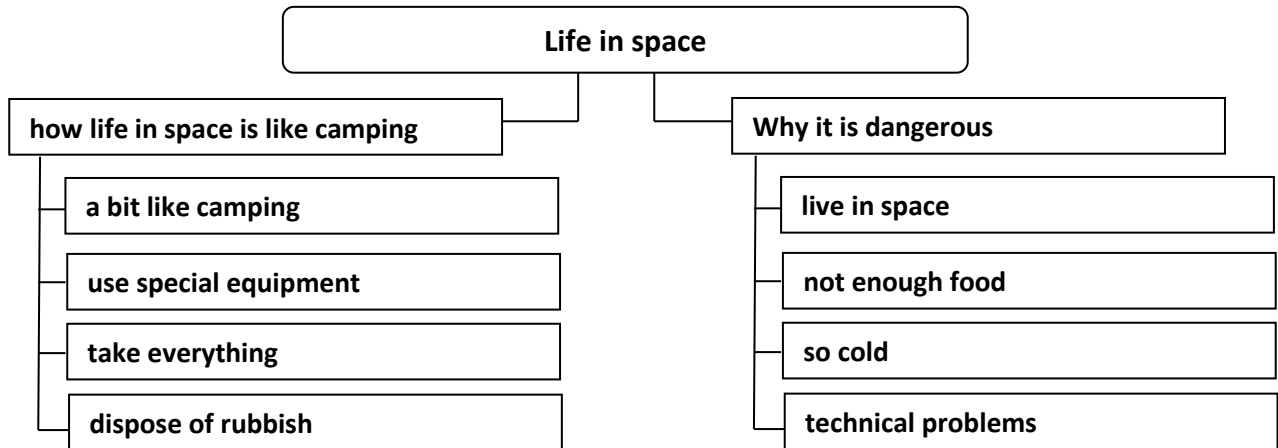

Astronauts travel to space in shuttles. They work and live in space. They explore the space. They float in the air. There is no gravity in the space.

Astronauts use special equipment in space. They also wear LES suits while launching. They wear specialized suits in space. They are provided with finger heaters. In the shuttle, astronauts could wear casual clothes.

## الحياة في الفضاء – Writing / Unit 3 / Life in space

Life in space is different and hard. It is a bit like camping. First, you have to take everything you need. Second, you use special equipment. Third, you have to dispose of your own rubbish.

It is dangerous to live in space. Astronauts live and work about three months in space. They may not have enough food. Space is so cold. They may also face some technical problems in outer space.

## الحياة في الماضي و الحاضر – Writing / Unit 4/ Life in the past and nowadays

Life is different from time to time. In the past, it was a simple life. Houses were made of mud. People used to work as fishermen, sailors and traders. Children Learned Quran, Arabic and Maths in Al-Katateb.

Life nowadays is better than before. It is more comfortable with all the technology around us. We have modern high buildings. There are a lot of jobs. Children learn many subjects at schools and universities.

## Writing / Unit 5 / Museums – المتاحف

Museums are unique places. They preserve our history. They keep our old objects in safe places. They exhibit our heritage telling many old stories. Finally, they tell the new generations about the past.

A lot of things can be displayed in museums. First, the fine arts like paintings and handcrafts. Second, sculptures of different livings as famous people, animals and birds. Third, they are the best place to show old books and machines. Fourth, the tools, swords and shields which old people used them in the past.
