Nowadays, most big companies have specialists on human resources that search for profiles in these kinds of sites to recruit new workers. If you are looking for a job you can create a profile and you might be recruited by a company. Another fact about these sites is that they are the perfect spot to meet new people online. With the help of advanced search tools, you can find users who have the same interests you do, and that can be the starting point of a great friendship. Moreover, people who feel shy to talk to others can easily overcome their shyness by using social networking platforms and establishing new contacts. Later, their face-to-face interaction with others will become easier because they have already talked and interacted online. As for businesspeople, these sites offer the chance to promote their businesses by creating specific profiles that all the users can visit and deal with. Thus, it is clear that these sites bear a lot of benefits for all the Web users.

Summary Making

VII- Summary Making (60 Marks)

Read the following passage carefully, then answer the question below

It is well known that some cultures prefer sons to daughters. Sons are wanted because they can work to help the family earn income. Also, sons will be able to support their parents when the parents are old. In some countries, sons are important because the family name will continue for another generation. This is because the wife in these cultures take her husband's family name, and sometimes belongs to the husband's family. Not only that, but having a daughter can sometimes cause difficulty for the family. In India, for example, having a daughter can be a burden. Families must save a lot of money to pay a dowry when the girl gets married. According to a survey done in 2000, people in some developed countries would prefer to have daughters. Researchers said that parents in these societies do not have the same economic reasons that exist in other countries, so they do not need to have a son to help make money.

In four sentences of your own, summarize and paraphrase the passage in answer to the following question:

Why do people prefer to have sons in some countries?

Migraine triggers may also include environmental factors such as strong smells, secondhand smoke, loud noises, stuffy rooms, temperature changes, and bright lights. Moreover, a person may be more likely to experience migraine if they have depression, sleep disorders and anxiety. Besides, certain foods and drinks might cause migraines to occur. In fact, there is no effectual remedy for migraines, but some medications may reduce the frequency and severity of attacks and help relieve symptoms.
