Write your topic here

Money is very important in our life but it is a means and not an end.

Money is the answer to so many problems. First, Money is a must in our daily life. We need money to buy food, clothes and pay for bills and transport. Second, we need money to pay for education and health. So, money is very important in our daily life.

Money shouldn't be an end, but a means to higher values. In other words, some people get greedy and they believe that money is everything. So, they start to compile money stacks without making use of them even if they needed to use them. Of course, we should save our money and shouldn't squander them. But we should know how to manage our money in a wise way like investing. Also, we should help the poor people.

Some people believe that money is the root of all evils. For example, Young people may misuse money; they learn bad habits like smoking and using drugs. Money, also, can lead to criminal behaviors and it can even lead to wars between countries.

Finally, we should be aware of the positive and negative

Composition

We use electrical energy in our homes for cooking, heating and TV. We also use fuel energy in our cars, and we may also use energy by burning wood or coal in our homes. You know that one of your friends is using this energy wastefully. Are you for or against this habit?

Write a report of about (12 sentences) about how to conserve this energy handling the following points:

- ❖ The importance of energy in our everyday life.
- ❖ Ways to diminish the amount of energy we use at home.
- Ways to diminish the amount of energy we use in our cars.

Outline

Introduction

We should save energy because it is finite.

Body

- ❖ 1- The importance of energy in our everyday life.
 - a- We depend on energy to power our cars; appliances...
 - b- Factories depend on energy...
- ❖ 2- Ways to diminish the amount of energy we use at home.
 - a- we can save energy at home by turning off lights and appliances...
 - b- We can use solar power, wave power...
- ❖ Ways to diminish the amount of energy we use in our cars...
 - a- We can use smaller cars,
 - b- sharing our cars, using buses...

Conclusion

We should find alternative ways to save energy.

We should save energy because it is finite.

Energy is very important in our daily life. We use energy like petrol to power our cars. Also, we use electricity to power our home appliances. Also, factories would stop working without energy.

We can diminish the use of energy in many ways. First, we can save energy at home turning off lights and appliances. Second, we can use solar power. Third, Wave power and wind power can help to generate enough electricity.

We can diminish the amount of energy in our cars by using smaller cars. Also, we can share our cars with co-workers. Furthermore, using buses can save a lot of energy.

Finally, we should work hard to find alternative ways of using natural energy.

Composition
