Moreover, the most important discovery was the mummy of the king. Carter and his group felt that they were in a time machine when they saw the treasure.

Food chain

Food chain shows how energy moves. All food chain starts with plants . plants make their own food using sun, water and soil. Some animals eat plants like cows sheep, birds, and elephants. Other Animals eat meat (other animals) like tiger, owl and sharks, while humans eat both plants and meat. A clear example on a food chain is: insects eat plants and frog eats insects then snake eats the frog and finally the falcon eats the snake.
